Order No 226 21st Feb 1858

Port Saint George, Revenue Consultation of 23d February 1858.

No. 226.

No. 27. Extract from the Minutes of Consultation under date the 20th February 1858.

Tabular Report of lapsed enams in the District of Bellary for the 4th quarter of 1856 submitted with Extract from the Proceedings of the Board of Revenue No. 4548 dated 18th December 1857.

1. In this case the share held by the deceased will be continued to his widow should she be found on enquiry to have no other means of subsistence; it will otherwise be resumed. It will in the former case lapse to the State on the death of the widow.

2. The Government approve of the recommendation of the Board of Revenue to continue one half of the deceased's share, viz. Rupees 33-2-10 to his son for life.

3. This is a charity enam of unknown origin. It likewise appears from column 3 of the Statement to be doubtful whether the last possessor was of the same family as the incumbent at the time of the Pymish. The deceased holder has left no heirs but a distant divided cousin, who is otherwise provided for. Under these circumstances, the share held by her* will be resumed as recommended by the Collector and the Board of Revenue.

* Assessed at Rupees 7.

4. The Governor in Council fully concurs in the estimate taken by the Board of the three several claims put forth to the enams enjoyed by the deceased, and to the portion held of her husband and herself under a mortgage bond since 1820, and directs that the enams* be resumed as proposed.

* Assessed at Rupees 51-8-0 according to the Collector; but apparently the proper sum is Rupees 45-0-9.

5. The whole of the deceased's share in this enam will be continued as proposed to the two widows, half the assessment being imposed on the death of each; the Government cannot however recognize the transfer of a portion (assessed at Rupees 16-5-4) by gift in 1823, which Mr. Pelly would leave uninterfered with during the life of the present possessor. These

Nadgaud enams were all resumable on the session of the District, when the office to which they were attached was abolished; and though the State has consented temporarily to forego its rights to avoid entailing hardship on the families of the former officials, it cannot be expected that any transfer of their advantages to others can be viewed otherwise than as wholly inadmissible.

9. The Government notice with regret the delay which has taken place in reporting the losses comprised in the Statement now reviewed; some of the deaths, it is observed, took place as far back as 1831.

(Signed) H. FORBES,
Acting Secretary to Government.

6. The Government must decline to sanction the continuance of any portion of these claims as they are unsupported by any entry in public accounts; besides which, the deed of transfer under which claims assessed at Rupees 50 per acre, is only alleged, and is not produced. Moreover, the donor is not known to have possessed any valid title. Again, in the case of claims of which they are claimed, are wholly unsupported, it appears that the donors had no title.

7. The share of the deceased in this Agraharam enam assessed at Rupees 4-15-3 will be continued to the widow, subject to report at her death.

8. No. 3 comprises 2 enams; the first is said to have been granted in 1730, by one Ramapa Naik, who can have had no authority to alienate the public revenues in perpetuity; the origin of the second is unknown. The family of the grantee is now extinct, and the two grants will be treated as recommended by the Board of Revenue.
