Consp^te No 226 Mis 8/27—7—1858

Rec'd Jan 11th 1911

Memorandum.

On submitting herewith the List called for in Extract Memorandum Consolidation No. 108 dated 29th March, the Superintendent Government Press begs to state, in explanation of the delay which must occur before the Office can be in a position to supply any of the articles required for the Postal printing Office, that the means of producing material of this description in India are but of comparatively recent creation, and it has been a matter of some difficulty to choose the most rapid to meet the requirements of this own Office. The arrangements for facilitating these supplies have latterly

Latterly, however, become more and more successful, and the hope that she will soon be able to remove every remaining ground of complaint.

The Celtic type referred to in para 6 has been completed and forwarded to Jamaica, and the Superintendent has communicated with several English type founders on the subject of the Coptic type required, and expects to be able to obtain it in a few months, but type of that character does not appear to be at present made in London.

The Presses noticed in para 17 were obtained as suggested, but owing to the loss, at Sea, of the Machinery purchased for the Government Printing office, and the consequent danger involved to the success of the arrangements in progress there, the Presses were, with the permission of the Chief Secretary, temporarily taken up for use, but they are now available, and will be despatched immediately.

The 2 Line condensed Long Primer included among the type ordered for the Bishop's Collector of Contributions, and 3 of the Great Primer English required by the Collector of Contributions (as included in the list) have not hitherto been procurable Rorep but the Superintendent expects to be able to supply these articles very shortly.

For the same reason, viz place

Clause of the Statutes for cattle-gates and level Crossings, required by the Commissioners of Railways, as amended, and Notice of Intention to apply for the Confirmation thereof.

The Undersigned hereby gives notice that application will be made by the Undersigned to the Commissioners of Railways, at their Office, No. 1, Richmond-terrace, Whitehall, in the City of London, on Tuesday the 24th day of June instant, at the hour of Eleven in the forenoon, for the Confirmation of the following Clause, as amended by the Commissioners of Railways, for the purpose of being inserted in the Special Act of the Croydon, Merstham, and Godstone Railway, and in all other Special Acts of Parliament relating to Railways, which may be hereafter passed, and which may authorize the Construction of Level Crossings of Railways, and Cattle-gates to be erected thereon, instead of Bridges for the Accommodation of Roads crossed by such Railways, and for the Protection of Persons using such Level Crossings
