Donation No 231/1913-14

Oct. 29th July 1898.

My dear Lydell.

I have just had
a visit from a young friend
of the name of Hutchins
who has been studying
of home to say that he has
heard that the Board of
Spain at Madrid have
reported him fit to
return upon any duties

that might be expected
to him. & to request
that work might be
found for him. Which
I took upon myself
to inform him. and
I thought very easily
to do so. He seems
a goodish man. by which

I should think he would
as he does not seem
to aspire too high,
either to Salem or Hellam
being his particular
Vanity. He doubtless
thinks that he might
be accommodated at
one —

all right about (taken
back for postage -
as ever possible for
Harker at Combacon
for money
at once

Lord Anson has not been
well but he is better today.
