Fort Saint George, Revenue Consultation of 19th January 1858.

No. 18. Read the following Extract from the Proceedings of the Board of Revenue; dated 24th December 1857, No. 4662.

Read Extract from the Proceedings of the Chief Engineer dated 4th December 1857.

(Here enter No. 5715.)

Resolved that the above letter be laid before Government, with reference to Extract Minutes Consultation dated 18th Ultimo, R. D. No. 1177.

2. In their letter to the Chief Engineer dated 16th May 1856, the Board adopting the exact words of Government requested to be furnished with a tracing "or sketch shewing as accurately as possible the three talooks of Goorumcondah, Muddenpully and Royachoty (in the district of Cuddapah) with the positions of their respective Cusbahs," and the Board did not think that these expressions would have been construed to mean a map coloured and finished with every nicety of detail. They applied to the Chief Engineer under the impression that the sketch could be executed by his ordinary Establishment with less delay than by the District Engineer, and they regret that a reference was not made to them when it was found that the work would occupy considerable time and necessitate extra expense.

3. Under the circumstances mentioned in para. 2 of the Chief Engineer's Proceedings, the Board trust Government will not withhold sanction for the map which from it's large scale and details will probably be found useful in the Department Public Works.

4. Application has been made to the District Engineer for a sketch such as Government still require.
