

Fort Saint George, Revenue Consultation of 25th January 1859.

No. 25. Read the following Extract from the Proceedings of the Board of Revenue, dated 2nd December 1858, No. 4480.

In Con. 2nd December 1858. Read letter from the Collector of Salem, dated 30th October 1858.

(Here enter No. 163.)

Resolved that the above letter be submitted for the orders of Government.

1. The Collector reports that wet land assessed at Rupees 20 in the Enam village of Monagarumputty has been appropriated to the Railroad, which runs over the bed of the tank, while the adjoining land assessed at Rupees 60 below the tank can no longer be used for wet cultivation. The holder of the village has agreed to retain the latter for dry cultivation, and its assessment under such circumstances would be 19 Rupees per annum. Deducting this sum he would still be entitled to an annual payment of Rupees 61 as compensation for the loss he has sustained.

2. The Collector however proposes to resume the whole Enam village and grant a life pension to the Enamdar equivalent to its annual Beriz which amounts on 10 year's average, to Rupees 277.

3. The village is said to have been originally granted by the Nawab of Cuddapah, to the present incumbent's father, and to have been continued to him by Hyder Ally. In the Enamaty accounts of Fusly 1231, A. D. 1821-22, it is described as a charitable grant. In 1821 the village was attached, pending the production of the Sunnuds, and was subsequently released by an order from Mr. Cockburn the then Collector on inspection of the Sunnuds which the Enamdar states have since been destroyed by fire.

4. The grant being of old date and inherited by the present holder from his father, the Board are of opinion that he should be left in undisturbed possession. They therefore propose that he should receive an annual payment of Rupees 61 during his life and that on his death the tenure of the Enam should be investigated as usual.

Mr. Monckton thereon.

1 It was necessary to state what the
wet Ayakak was at the time of the
grant being made because, the
Ināmdar could only claim com-
pensation for so much Mānyam Kanpy
as existed at the time of donation.
Thus ^{the Nawab} of Walajah had given a man
a Mānyam Village containing 10
acres of wet Land, and this were
now required for a public purpose,
and were found to contain 15
acres of wet land; the Ināmdar

could only claim compensation
for 10 acres of Mānyam Kanyey, &
5 of mālguzān dāto.

2. The village was a charity grant.
Nothing exists to show that it was
ever intended to be hereditary;
on the contrary by the present
incumbent's own admission the
grant was made for offering up
prayer for the prosperity of the state.
This description of grant has been
expressly declared by Govt & he
