MADRAS RECORD OFFICE

Government of Madras.

Revenue DEPARTMENT.

G.O. No. 1301 Press ~~Mis.~~

Dated 26-9-1859.

Not to be folded or roughly handled

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter from the Secretary to the Board of Revenue.

Submitting the Board's Annual Report with Statements illustrative of the settlement of land and other sources of Revenue in the Districts of this Presidency for Fusly 1267 or from 1st July 1857 to 30th June 1858.	(Here enter 30th June 1859, No. 2520.)

ORDER THEREON, 26th September 1859, No. 1301.

This is the annual report of the Board of Revenue on the settlement and collection of the Revenues of this Presidency for the Fusly year 1267 (A. D. 1857-58). It is accompanied by explanatory statements which have been somewhat abridged in form; as well as reduced in number, from twenty six to nineteen, as the Board say, exclusive of six quinquennial statistical Returns. This however is not quite a correct description; the whole number of annual statements including those not numbered in the general series, is twenty four; but the number last year calculated in the same way was thirty nine.

2. This diminution in number has been effected, it seems, for the most part, by throwing the contents of two or more statements into one; and this change is not always for the better, as for example in the case of statement 17, which in its new form is an extremely cumbrous and awkward document, much wanting in the essential quality of clearness. The Governor in Council must remark also that the Forms of statement to accompany the Board's Annual Revenue Reports ought not to have been thus extensively altered without the previous approval of Government. The Board will now be pleased to submit for consideration and orders, the forms as before approved by Government, and as now adopted by the Board, with information as to the changes made and the reasons of them.

* *Para.* 18.
Para. 17.

3. The season of Fusly 1267 is described as having been generally bad; being distinguished by a deficiency of rain, which amounted in many districts to an actual drought. The Districts which seem to have suffered most are those named in the margin. The only marked exceptions appear to have been Tinnevelly, Canara, and Malabar, where the season is described as having been a good one. It does not appear to have been an unhealthy year.* The Board express dissatisfaction with the Collectors' Returns of rainfall; and it is desirable that more attention should be given to the subject, so as to make those Returns as accurate as possible.

4. As a consequence partly of a deficient harvest, the price of grain in the fusly ranged materially higher than in the preceding year. According to a short abstract statement in para. 25, the increase amounted paddy or rice to above 20 per cent; while in some species of grain it was very much greater. The only district in which there was no rise in the price of paddy was Rajahmundry; in Trichinopoly the increase was as much as 48 per cent. Para. 26 contains a Statement comprising the prices in Fusly 1262 and in 1266 and 1267. The increase in the two later years is very marked in all districts; and in some, viz., Vizagapatam, Chingleput, North Arcot, South Arcot, Madura, Coimbatore, Salem, and Madras, price is more than double in Fusly 1267 what it was five years before.

5. After describing the season and the prices, the Board go on to notice the details of the Ryotwar Settlement of the year; and it is gratifying to find that the cultivation and revenue did not fall off to the degree which might have been anticipated from the preceding description of the season. The total extent of land included in Ryotwar holdings, omitting Canara, Malabar, and Madras, where the acreage held is not recorded, was acres 136,61,113, bearing an assessment of Rupees 329,11,093; a deduction of 7,20,083 acres, with an assessment of Rupees 16,78,709, for waste remitted, leaves acres 129,41,030 assessed at Rupees 312,32,384. This last amount includes Rupees 12,54,705 of uncultivated land. The land assessment of the three Districts above named being added, raises the whole Ryotwar Settlement to Rupees 352,63,656.

Para. 30.

6. The Board notice that notwithstanding the unfavorable character of the season, much new land was taken up by ryots in districts where the assessment had recently been reduced; they especially mention the Districts of Guntoor, Bellary, North Arcot, Trichinopoly, and Salem. They remark also that the extent of waste remitted was larger than of late years, in consequence of the failure of the rains. The item of waste charged, which seems so large (12½ lacks), is explained to be in fact in a great measure nominal, including the uncultivated lands of joint rent villages of Rajahmundry and Masulipatam, and the land taken for pasture in Guntoor.

It is noticed in para. 36 that the contingent yearly remissions amounted in the year under report to very nearly 31 lacks, a large part of this amount being for shávi, or irrigated crops destroyed by drought.

7. The land alluded to in the preceding para. as newly taken up amounted in the whole to acres 11,10,001, bearing an assessment of Ruepes 36,67,869. The extent taken at the full assessment, was 9,88,117 acres, assessed at 34,36,703 Rupees, while the large extent of 1,21,884 acres, bearing an assessment of Rupees 2,31,166 was taken up on kául. This latter the Board state was chiefly in Guntoor, Bellary, Coimbatore and Salem. On turning to the detailed Statement (No. 7) it is found that the land so taken up in these districts was not less than 1,11,370 acres, leaving only 10,514 acres for the whole of the remaining sixteen Districts. In all the four Districts specified the assessment is light, and the Board expressly say (para. 40) that the large extent of land taken in the year under report was owing to the late reductions made in the assessment. The Board are aware of the objections to kául as a general rule; and no reason appears why this indulgence should be allowed in these districts, when it is not usual in others where the land is more heavily taxed. The Governor in Council resolves to call the attention of the Board to the remarks on the subject in para. 16 of the order of 11th May 1859, No. 648. That para; should be communicated to all Collectors for their information and guidance.

Para. 33.
† *Para.* 45.

8. The total Ryotwar settlement, after adding the second crop assessment,† and deducting the remissions just alluded to, and the authorized fixed and per centage remissions of various kinds, (paras. [illegible]) amounted to Rupees 316,15,069, being a decrease of Rupees 92[illegible] [illegible] the preceding year. The addition of the following items, viz.

	Rupees.
Sundry items	8,77,864
The Revenue of Amáni villages	98,190
Permanent settled Revenue	49,79,023
Total......	59,55,077

Para. 61.

raises the total demand of the year on account of land Revenue to Rupees 375,70,146, being a net decrease of Rupees 9,42,873 below that of the previous year. But although below Fusly 1266, the land Revenue of the year under notice is higher by about six lacks of Rupees than that of any other previous year. This is a highly gratifying fact, especially in connection with the very large reductions made in recent years in many Districts.

Para. 47.

	Fusly 1267.
Abkári	27,73,231
Muhtarafa	10,79,463
Salt	56,96,846
Sea Customs	12,08,178
Frontier duties	1,89,252
Stamps	7,54,969
	1,17,01,939

9. The total demand on account of the sundry sources of Revenue, being those named in the margin, was Rupees 1,17,01,939; being an increase of Rupees 5,28,186 over the preceding year. Of this increase Rupees 3,01,823 was in Salt, Rupees 2,48,848 in Abkári, and Rupees 37,614 in Stamps; there was a falling off of Rupees 60,431 in Sea Customs. The increase in the Salt and even that in Abkári is [illegible]ffying as indicating an augmented power of consumption in the people. The salt Revenue appears to have taken a decided start and to be making steady progress, a result due in part probably to the opening of improved communications between the interior and the coast; but principally, no doubt, to the improved condition of the poorer classes throughout this Presidency. The statement in the margin shows the Revenue from Salt and Abkári in each of the last ten years, obtained from the Accountant General; a steady increase is observable in both during the last five or six years.

Fusly.	*Salt.*	*Abkári.*
	Rupees.	*Rupees.*
1259	47,27,636	21,78,037
1260	48,01,251	21,26,297
1261	48,91,446	21,35,019
1262	50,30,928	21,71,916
1263	46,69,582	22,46,120
1264	50,25,299	20,87,663
1265	53,86,423	22,55,953
1266	54,09,259	24,92,786
1267	57,15,124	27,48,363
1268	60,01,496	28,30,613

10. It is to be observed however that with the augmented sales, there was so great an increase also in the charges of the Salt Department in Fusly 1267 as to leave a falling off in the net Revenue. The receipts in that Fusly were greater than in the preceding year by Rs. 3,03,292, but the charges in the later year exceeded those in the earlier by Rupees 3,70,515; so that in spite of the largely augmented receipts in Fusly 1267 the net Revenue was actually less by Rs. 67,223. This is stated by the Board (para. 51) to be owing to a largely increased manufacture, which after the greatly augmented sales left a store of salt greater by eighteen lackhs of maunds at the end of Fusly 1267 than at the end of Fusly 1266. The Government do not doubt the correctness of the Board's explanation; but it would have been more satisfactory if they had examined the charges somewhat more in detail.

11. The following Statement taken from the Board's Statement No. 14 compares the receipts and charges of the two years in each of the coast Districts.

12. In accordance with the recommendation of the Board in para. 52, the Governor in Council grants sanction for writing off the wastage of salt reported as having occurred in the year, viz. Indian Maunds 2,83,275¾.

13. As respects the Abkári, the Government cannot but view the increase in that also with gratification, as another indication of improvement in the condition of the people. It is by no means to be concluded that an increase in the Revenue drawn from the sale of ardent spirits,

necessarily implies an increase of intemperance. Tee-total habits may be more favorable to the moral and physical developement of the human race; but, as a fact it is found that the bulk of all populations devote a portion of their incomes to intoxicants or stimulants; and among the poorer classes, who are everywhere the great numerical majority, this indulgence varies with the amount of their earnings.

14. The total demand of Revenue for the year, as given in para. 55 of the Board's Proceedings, was Rupees 495,55,588, or nearly five millions sterling; being a net decrease of Rupees 4,57,800.

	Fusly 1266.	Fusly 1267.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Land Revenue	385,13,019	375,70,146	......	9,42,873
Sundry Sources	111,73,753	117,01,939	5,28,186	......
Extra Revenue	2,88,421	2,60,369	......	28,052
Interest Account	38,195	23,134	......	15,061
Total...	500,13,388	495,55,588	5,28,186	9,85,986
Net decrease...	......	......	......	4,57,800

15. Out of this whole demand the sum of Rupees 4,46,47,440 was realized within the Revenue year, leaving an arrear of Rupees 49,08,148 outstanding at its close; which was reduced to Rupees 9,70,421 at the end of February 1859, or seven months after the end of the Fusly. The Ryotwar arrears on the last mentioned date amounted to Rupees 8,79,694; but of this sum not less than Rupees 5,77,297 was left uncollected in Tanjore under the orders of Government. It is not apparent why this amount still appeared in the accounts of the District for January 1859, as the order for its relinquishment was unconditional.* This the Board will be pleased to explain. Omitting this sum, the total real outstanding balance on the 1st February 1859 was only Rupees 3,93,124. This amount is stated to be still in course of realization. It does not appear to what period this last statement refers whether to the 1st February 1859, or to the present time; but the Governor in Council resolves to point out to the Board the importance on every account of promptness in dealing with these arrears. It is a good rule that the outstanding Ryotwar arrears of one year should be carefully investigated at the settlement of the succeeding year, the irrecoverable portions remitted, (subject to the final orders of Government), and prompt measures taken to realize the properly recoverable portions.

* *July 13th* 1858, *No.* 957, *para.* 3.

16. The Governor in Council relies on the Board of Revenue to enforce the invariable observance of this rule. But in future, under the greater facilities for collecting the Revenue and the diminished burden of the demand in most Districts, he trusts that the proportion unrealized at the close of the year, and still more six months after it, will be very greatly reduced. On this point the Board of Revenue will be requested to call the careful attention of Collectors to the views of Government as expressed in para. 4 of the orders of the 25th July 1859 No. 992. In particular, care should be taken that village officers and head ryots pay their own kists in due time, instead of merely collecting those of the poorer ryots, and postponing the payment of their own.

17. The Board mention that no more than Rupees 8,327 was realized during the year by the sale of property. This fact is gratifying so far as it goes to show prosperity on the part of the payers; but the Government wish it to be clearly understood by Collectors that they consider punctuality and exactness in the realization of the revenue to be more important than the avoiding of compulsory process.

18. The arrears of all kinds outstanding at the commencement of the Fusly amounted to Rupees 58,52,802; but this large sum had been reduced at the date of the Board's latest account to Rs. 11,26,928. This latter sum includes Rupees 2,18,621, quoted by the Board as ordered by Government to be remitted, when reviewing the Board's report for Fusly 1266. The Government have on former occasions noticed the inconvenience of thus bringing forward again amounts already ordered to be struck off; it is caused in part by the lateness of the period at which the Board's annual reports are submitted, but it may probably be obviated. In the present case the Government have further to remark that the sum stated by the Board does not tally with the order quoted. That order remitted an arrear of 95,350 Rupees as recommended by the Board, while the sum now stated to have been so remitted is Rupees 2,18,621. The Board will be pleased to explain this discrepancy.

February 12*th* 1859 *No.* 195, *Para* 15.

19. The amount just stated being deducted, there remains a real outstanding arrear of Rupees 9,08,307. Of this sum the Board recommend the remission of Rupees 4,30,505-8, as irrecoverable. They state that careful enquiry by the Collectors has satisfied them that the recovery of this sum is hopeless: and the Governor in Council sanctions its remission, being satisfied that, at this late period at least, it may well be deemed so.

20. There remains a sum of Rupees 4,77,801-8-0 which the Board, following the Collectors, class as "recoverable or doubtful," and which they recommended to be "reserved for future investigation." This sum consists of the following items.

Péshkash	8,540
Ryotwar	4,13,976
Total land...	4,22,516
Abkâri...	20,145
Muhtarafa	4,040
Total sundry source...	24,185
Extra Revenue	21,966
Interest	9,135
Total...	31,101
Grand total...	4,77,802

21. The following Statement shews the total of all items in each district.

District.	Péshkash.	Ryotwar.	Sundry sources.	Extra Revenue.	Interest.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Malabar, ...	2,866	1,773	35	0	0	4,674
Madras, ...	0	29,776	0	3,458	0	33,234
Total...	8,540	4,13,976	24,185	21,966	9,135	4,77,802

22. The largest item, as was to be expected, is Ryotwar land revenue; and this is found chiefly in the five Districts named in the margin. The large sum in question belongs to Fusly 1266 and previous years; i. e. no part of it accrued later than June 30th 1857. It does not appear for how many years the arrears extend back. It may well be asked both what likelihood is there, at this late date, of any considerable part of this sum being collected; and why enquiry has not long since been made to determine what that portion is, or rather why all the recoverable part has not been long ago recovered. The Governor in Council considers the continued existence of large uninvestigated arrears to be discreditable to the administration of the Districts concerned; and he resolves again to call the attention of the Board and through them of Collectors, to the rule referred to above in paragraphs 14 and 15.

Guntoor..........................	*Rs.*	136,476
Nellore..........................	,,	29,880
Chinglepul..........................	,,	27,795
Tanjúr..........................	,,	128,000
Mádras..........................	,,	29,776

23. Some other items call for remark. The Péshkash balance ought to have been explained; as a general rule old arrears of that nature ought not to occur except when the property has been sold and has failed to satisfy the demand. It is to be presumed that the Abkári balance includes that of Mr. Kenrick in Chingleput, which has been ordered to be written off. The large balance under the head of extra revenue should be carefully scrutinized; it is believed that much evasion takes place in this item. The cause of the balance on account of interest is not apparent.

Order, 6th August 1859, *No.* 1055.

24. In conformity with the Board's recommendation, the Governor in Council permits the amount of all these arrears to be retained for investigation. But he desires that no time may be lost in making the necessary enquiry and reporting the result. He regards old arrears as a great evil, and as affording the means of much abuse and extortion. And he must again express his hope and expectation that henceforward the revenue will be punctually realized from all payers, both rich and poor.

25. Before quitting this subject the Government must remark that the heading of Col. 15 of Statement 17, is misprinted throughout, being eight times over. The blunder makes nonsense, and it is not without some pains that the real meaning is discovered. Whatever may be the arrangements for correcting the press of the Board's papers in general, the Government have a right to expect that in documents of importance, special means will be taken to ensure correctness.

26. In closing these remarks the Governor in Council must express his sense of the efficiency which the report indicates on the part of the Collectors and their numerous assistants and subordinates European and Native. The Ryotwar land revenue is not only settled within the year, but is collected also with a high degree of punctuality from not much less than a million and a half of payers,* and with a comparatively very small amount of complaint. His Excellency in Council will not say that he is fully satisfied with the degree of punctuality attained; he thinks on the contrary, as already said, that more is attainable, especially in certain Districts, by the due use of the means lately placed at the command of Collectors. But he has pleasure in recording his deliberate opinion that the actual state of the case in this respect in the year under review, under, the then existing law, is very creditable to the Revenue Establishments.

* *Accurately* 13,69,805.

27. The acknowledgements of Government are also due to the Board of Revenue, not less for the clearness with which the Revenue history of the year has been placed before Government, than for the care which they bestow on the regulation of the revenue, especially to relieve undue pressure where it is found. The Governor in Council must observe however that it is extremely desirable that these annual Reviews should be completed at a much earlier period. He trusts that the report for the Fusly year 1268 (A. D. 1858-59) will be before Government at latest by the 31st December next, being six months after the close of the Fusly. The Government attach much importance to this point; for the value of such Reviews of administrative results is greatly deteriorated by the lapse of time.

No. 2520.

From

J. D. SIM, Esq., Secretary to the Board of Revenue.

To

J. D. BOURDILLON, Esq., Secretary to Government, R. D.

SIR,

I am directed by the Board of Revenue to submit their Annual Report with statements illustrative of the settlement of land and other sources of Revenue in the Districts of this Presidency for Fusly 1267, or from 1st July 1857 to 30th June 1858.

2. These statements have been simplified this year by the omission of some unimportant details and by the adoption of a more systematic arrangement. Many of the statements have been abridged and their total number, it will be seen, has been reduced to nineteen exclusive of the six quinquennial returns.

3. The quinquennial returns due for Fusly 1266, were not then submitted for reasons explained in the concluding para. of the Board's Report for that year. These statements, marked from A to F as per accompanying list, are now forwarded. Returns of the kind were last prepared for Fusly 1262, but many of them were not complete.

STATEMENT A.

	Villages
Ryotwar	25,974
Rented	5,942
Aumany	74
Shrotriem and Inam	3,832
Moturpha	140
Bacharach or uninhabited	29
	35,995
Hamlets	35,993

4. The first of these returns, marked A, exhibits the area of each district and the number of villages classed according to their tenures. The number of Government villages not including hamlets is 35,995, as particularized in the margin, and that of Zemindary villages 16,567, the aggregate number being 52,562. Villages settled under the joint-rent system in the Northern Circars, and those under the Ooloongoo system in Tanjore and Tinnevelly are included under the head of "Rented" by the Collectors of those districts; but their proper designation, certainly that of the latter, is Ryotwar, as the settlement under both systems is made directly with the Ryots themselves without intermediate agency, though practically in the Northern Circars, from the influence acquired by such persons, the chief Ryots of the village assume and exercise the power of renters, an evil which, with the general survey now in progress in the Circars, is under correction. The Collector of Tanjore will be desired to exhibit the Ooloongoo villages in future as ryotwar, while the joint-rent villages of Rajahmundry will remain as they are pending the Survey.

STATEMENT B.

Tanks			28,111
River Channels			11,230
Spring do.			8,290
Annicuts			8,092
Wells	old	2,38,070	
	new	48,019	
			2,86,089

5. The extent and nature of the different sources of irrigation *in repair* are shown in detail in statement B and an abstract list of them is entered in the margin. They do not call for remark beyond noticing the important and encouraging fact that the number of wells has, during late years, increased considerably, owing, as the Government are aware, to the exemption from extra taxation accorded to all improvements effected by holders of land out of their own means. Coincident with this marked addition to the permanent works of the country, by which its general wealth and the stability of the Revenue are *pro tanto* promoted, is the rapidly growing occupation of land which has followed the abatement of the assessment, the results in both cases testifying to the importance of the principle which calls for the removal of all restrictions on capital and industry.

STATEMENT C.—6. According to the present Census, the details of which are shown in statement C, the total population of the districts of this Presidency amounts to 23,127,855 souls.

An increase of 8,26,158 since Fusly 1262, when the last Census was taken, is thus apparent, owing perhaps as much to greater care in taking the returns, as to any real increase in the numbers of the people. For Madras, the number of persons estimated in Fusly 1262, has been entered on the present occasion also. The number of houses, exclusive of Madras, where no enquiry of the kind has been instituted, is returned at 45,89,396, which with a population of about twenty-two millions and a half gives an average of something less than five persons to a house. This result shows that the returns have been taken with a considerable approach to accuracy.

Total population..................	231,27,855
Deduct population of Madras	7,20,000
	224,07,855

STATEMENT D.—7. The statistics of agricultural stock and the number of Ryots and puttahs are shown in the statement marked D. The Ryots are there designated Meerassidars and under-tenants, the total number of both descriptions of persons being 21,07,217. These designations, however, as not conveying a correct view of the number of actual holders of land, will be altered in future returns, under the instructions of Government lately received, to Puttadars, resident and non-resident holders being distinguished. According to the present return the number of Puttadars, including those who hold under joint puttahs, is 18,10,992.

STATEMENT E.—8. The particulars of the Rent-roll according to the usual classification, are shown in statement E. Puttahs for rents above Rupees 1,000 are found chiefly in Tanjore, while Tinnevelly, Trichinopoly, Canara and Malabar come next. The annexed is a list of the large landholders in Tanjore, who pay between 1,000 and 10,000 Rs. and above 10,000 Rupees.

	No of Ryots.	Amount.

STATEMENT F.—9. Statement F exhibits the ayacut or entire village area and the extent cultivated both Government and Inam. In many districts the extent of waste is very large compared with the actual cultivation, and though the latter has increased considerably during late years and a strong and growing desire for the acquisition of land has manifested itself since the late reductions of the assessment, some years must elapse before a marked impression can be made on so large an extent of unoccupied land as is here shown.

	Waste acres.	Cultivation acres.
Nellore..	4,51,160	4,21,529
Cuddapah..	26,05,339	12,95,298

South Arcot..	10,50,705	8,95,479
Madura..	7,24,981	5,67,171

10. The Board are inclined to believe that the present statistical returns as noticed above, though not faultless, have been prepared with much attention to accuracy. They afford, as will be more fully seen presently in considering the settlement of the year, pleasing evidence of progress made by the country notwithstanding the embarrassments entailed by a succession of adverse seasons.

11. The Board now proceed to describe the state of the season and other particulars connected with the settlement of the Fusly.

Season.

12. The year opened under promising circumstances in many districts. The rains of the south-west monsoon, which commenced early in the season, induced agricultural operations on a very extended scale, but the after rains in July, August and September were extremely deficient in many localities, and in others they entirely failed. In consequence of this drought the standing crops perished to a large extent in some districts and in others yielded only a scanty return. On this occasion the immense value of irrigation works, particularly such as are supplied from the large rivers, was again prominently shown. The Delta talooks of the Godavery and Kistnah may be especially referred to in illustration of this point.

13. The rains of the north-east monsoon commenced favorably in October although they were more copious in some districts than in others, but in the following month, a violent and destructive hurricane swept along the East Coast of the Peninsula breaching many tanks* and destroying cattle. This storm was followed by an immediate cessation of the monsoon, which, in ordinary years, extends far into the month of December.

14. Such was the general character of the season, which, on the whole, was even more unfavorable than that of the preceding year, the broad features of which compared with it were a better south-west monsoon and a less favorable one from the north east.

15. In Ganjam and Vizagapatam the fall of rain equalled the average, and both the dry and wet crops yielded pretty well though the latter had only an imperfect supply of irrigation in some localities. The remaining districts of the Northern Circars, the provinces along the East Coast, the Ceded Districts including Kurnool in the centre of the Peninsula and the Provinces of North Arcot, Salem and Coimbatore suffered much though in different degrees.

16. In the Southern Division of Arcot the want of rain was intensely felt. The season is described as having been " one of complete drought, the worst ever experienced in the district. The only one with which, in an agricultural point of view, it may fairly be compared, is that of Fusly 1263, and in that year the failure of rain was scarcely so complete." In North Arcot, Tanjore, Trichinopoly and Madura, the want of rain was also much felt. Salem experienced an unusually bad season and " the crops, both wet and dry, failed to an extent that has not been equalled during the last 24 years." The out-turn of both description of crops, it is stated, was not more than a fourth of an average year and was not therefore enough even for local consumption. " It is a very unusual thing," the Collector adds, " for grain to be imported from other districts into Salem; but in the year under report other districts supplied large quantities." In Coimbatore the season, being the fifth bad year in succession, was singularly unpropitious; its chief characteristic being, as the Collector describes it, " brief violent bursts (of rain) preceded and followed by long drought." In Tinnevelly the season was, on the whole, not unfavorable, and the provinces of Canara and Malabar enjoyed a very good year. The harvest in the two latter districts, is said to have been more abundant than in Fusly 1266.

Increase of water tax in Masulipatam…… …… ……	21,100
Decrease in the revenue from the Kistnah channels in Guntoor caused by the heavy rains in this district in September, October and November …… ……	20,222

GODAVERY AND KISTNAH ANNICUTS.—20. The favorable results of the Godavery and Kistnah annicuts in Rajahmundry, Masulipatam and Guntoor were noticed in para. 45 of the Board's report for Fusly 1266. The results for the year under review, though not equally favorable, must be regarded as satisfactory, considering the extremely adverse character of the season. Speaking of this subject the Collector of Masulipatam observes, " but for the past unfavorable season, the gain would have been much greater than now shown, but even as it is there is an increase of 21,100 Rupees of water rate without counting the immense indirect advantages derived from the water, which, as already remarked, was the means of wardiing off very heavy remissions."

21. The Godavery annicut was breached this year, but was closed before any serious injury could occur to the cultivation. The cultivators of sugar-cane, it is stated, suffered some loss from this cause.

Total.	245	31,167	238	28,371	—7	—2,796

22 The number of talooks settled by the different Revenue Officers, on ryotwar principles, is 238, embracing 28,371 villages. They exhibit a decrease below Fusly 1266 of seven talooks and 2,796 villages. The figures in the margin show these variations.

23. In regard to the decrease in the number of talooks, it may be observed, that till Fusly 1266 some small estates in Ganjam which had reverted to Government,—Oravundoor and Mullapady in Salem, and Vencatagherry cottah in North Arcot—were entered as separate talooks though not really so, thus causing an apparent augmentation in their number; but under instructions from the Board, dated 16th July 1858, these have been incorporated with the adjoining talooks in the year under report and hence the decrease in Ganjam of five and in Salem of two talooks. Vencatagherry cottah and Palmanair will be entered as one talook in the accounts of Fusly 1268. The increase of a single talook in Canara is in consequence of that extensive portion of the Balaghaut, which formed the talook of Soopa, having been divided into the Tahsildaries of Soopa and Yellapoor, and the decrease of one talook in Nellore, arises from Sydapoor being no longer exhibited as a distinct talook.

24. The fluctuations in the number of villages are owing chiefly to one general cause, viz. the want of attention in arranging them under there respective heads as Ryotwar, Rents, Shrotriem, &c.

Prices.

STATEMENT No. 2.—25. The commutation and current wholesale prices of grain are shown in statement No. 2, and the average prices founded on the retail sales are given in its enclosure A. The annexed table, which is an extract from the latter, exhibits the market rates in comparison with those of Fusly 1266 and with the average of the last 10 years:

	Average of the past 10 years.	Fusly 1266.	Fusly 1267.	Increase between cols. 2 and 4.	Increase between cols. 3 and 4.	Per centage of increase above Fusly 1266.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Paddy, 1st sort……	95	111	133	38	22	20

Raggy……	102	114	144	42	30	26
Horse gram……	127	146	183	56	37	32

26. In Fusly 1262, a very favorable season, there was a large falling off in prices. In the following Fusly they began to rise, and ever since that period they have ranged high, chiefly in consequence of a succession of adverse seasons. In Fusly 1266 the prices of most grains exhibited a tendency to recede from the high standard they had reached, but in the year under notice they have risen nearly to the same level as in Fusly 1265. Adversity of season with deficiency of produce and large exportations of paddy by sea, to meet a brisk foreign demand, have more or less caused this rise, apart from changes in the value of money, which have been going forward during the last few years. The annexed statement shows the prices of paddy in each district in Fusly 1267 compared with Fuslies 1266 and 1262:

Districts.	Fusly 1262.	Fusly 1266.	Fusly 1267.
Ganjam	43	70	81
Vizagapatam	47	89	104
Rajahmundry	57	93	91
Masulipatam	67	93	97

Salem	66	117	159
Canara	75	106	122
Malabar	85	137	158
Madras	67	113	141

27. Compared with Fusly 1266 the price of paddy in the year under report was higher in every district except Rajahmundry. In Trichinopoly and Madura there was an increase of 39 and 48 per cent. respectively. In the districts noted in the margin the increase ranged* from 37 to 20 per cent. On the West Coast the price of cocoanuts rose 18 per cent., and the rates for betelnut, pepper and other garden produce were also enhanced.

* North Arcot	37 per cent.
Salem	35
Coimbatore	33
South Arcot	28
Tanjore	25
Chingleput	20
Tinnevelly	20

STATEMENT No. 3.—28. The abolition of the dittum or engagements of the Ryots for the cultivation of the year as in force during late years, and the substitution of the simpler and more ancient practice of taking the Ryots' holdings of the previous year with subsequent relinquishments or acquisitions of land as the basis of the settlement, has been noticed by the Board in their previous reports. It seems, therefore, unnecessary that they should recur to the subject further than to observe that several Collectors have made favorable mention of the practical working of the change.

29. The following table exhibits the extent of land in occupation in the Ryotwar villages with the assessment thereon in the year under review, Canara, Malabar and Madras being omitted as usual, as owing to peculiarity of system in these districts, the extent of land under occupancy is not entered.

	Land.	Assessment.
	Acres.	Rupees.
Ryots' holdings of last year	132,34,307	311,41,288
Deduct lands relinquished	6,83,195	18,98,064
Remainder	125,51,112	292,43,224
Add lands newly taken up	11,10,001	36,67,869
Total holdings	136,61,113	329,11,093
Deduct waste remitted	7,20,083	16,78,709
Remaining settlement	129,41,030	312,32,384
Particulars.		
Actual cultivation	....	299,77,679
Waste charged	....	12,54,705
		312,32,384
Assessment in Canara, Malabar and Madras	....	40,31,272
		352,63,656

NOTE.—The entries above, showing the holdings of last year, differ from those in cols. 41 and 42 of No. 3 of last year owing to a want of uniformity in the preparation of the district returns. This will be obviated in future.

30. The items of lands relinquished and lands newly taken up in the foregoing table represent the changes that ordinarily take place in holdings, some Ryots contracting their cultivation in consequence of poverty and other causes, and others on the other hand adding to it. On the present occasion the additional land occupied is considerable, owing, in a great measure, to the stimulus given by the late reductions in the assessment. In Guntoor, Bellary, North Arcot, Trichinopoly and Salem the extent of land newly occupied was large. In all these districts the old assessment had been reduced.

Col. 8, Statement No. 3.

31. The items of waste remitted and waste charged, amounting respectively to Rupees 16,78,709 and Rupees 12,54,705, call for notice. The former is owing to the adverse character of the season, by which much land was left uncultivated for want of rain. The rule which declares the Ryots responsible for the assessment of all land in their puttahs was necessarily relaxed under the exceptional circumstances of the year, even in those districts in which the assessment has been reduced. But this indulgence was confined to cases of necessity and did not extend to lands which were left uncultivated through the neglect of their occupants although supplied with water. The latter item of "waste charged" is in a great measure nominal. In Rajahmundry* and Masulipatam† all the lands of a village, both cultivated and waste, are included in the Joint-rent though the rents are really regulated by the average extent of cultivation, and in Guntoor‡ the greater portion of the amount consists of the assessment of land occupied by Ryots for grazing their cattle which is charged for under the rule promulgated by Government on the abolition of the late Poolery, or tax on cattle.

* 2,08,572.
† 1,27,680.
‡ 3,17,617.

32. The extent of the general holdings of the Ryots in the ryotwar villages during the year under review with the portion of them not cultivated whether charged in the Ryots' puttahs, or otherwise, has been explained above. The particulars of the actual cultivation and net settlement are shewn in statement No. 4, with its enclosure A. It will be seen that, under the head of "dry-lands," there is an increase of 1,17,645 acres in the area actually cultivated with a decrease of Rupees 81,833 in the assessment. This decrease occurred for the most part in Bellary and is owing to the recent reduction of the rates of assessment in that district. In the wet lands there is a decrease of 1,14,581 acres in the cultivation and an increase of Rupees 2,06,724 in the assessment. The former was to be expected from the adverse character of the season. The latter occurs chiefly in Tanjore and Tinnevelly, not from an extension of cultivation but from the high

STATEMENT No. 4.

prices of grain. The benefit of the rise above 10 per cent. accrues entirely to Government under the terms of the Ooloongoo system of settlement which is found in these two districts only. The addition to the demand upon the landholders on this account in the year under report amounted to Rupees 13,58,682 in the proportions of Rupees 9,10,362 in Tanjore and Rupees 4,48,320 in Tinnevelly. A moiety of the villages in Tanjore is settled on the fixed field assessment principle, like ryotwar villages in other districts, and in this portion of the district therefore the full benefit of the rise in the market prices of grain accrued to the Ryots. The decrease of Rupees 1,17,127 in the cultivation of garden lands is accounted for by the circumstances of the season.

Second crop and additional assessment.

33. The items of second crop and additional assessment amounted to Rupees 4,35,574 and 6,91,255, respectively. The former head of Revenue fell off in nearly all the districts, owing to the supply of water being insufficient for a second crop. The receipts under the latter head shew an increase of Rupees 53,727 above the Revenue of Fusly 1266 in Rajahmundry,* Masulipatam,† and Guntoor,‡ in consequence of an extension of the annicut irrigation, but this gain was more than counterbalanced by a decrease in other districts, and the total net result gives a falling off to the extent of Rupees 45,013.

*	33,433
†	9,542
‡	10,752
	53,727.

34. The Ryotwar settlement exhibits a net decrease of Rupees 9,26,751 in the year under report, the particulars of which are as follow :

Gross demand....................	352,63,656
Deductions........................	54,43,761
	298,19,895
Add sundry items................	17,95,174
Total ryotwar demand.........	316,15,069
Do. Fusly 1266............	325,41,820
Decrease in Fusly 1267......	9,26,751

35. The several items composing the deductions and additions are shewn in the statements from 5 to 8.

Statement No. 6.

36. The former, according to the classification hitherto followed, consist of—1st, occasional remissions or such as are contingent on season. 2nd, fixed remissions or amount of permanent reductions of the assessment ; and 3rd, deductions from the collections on account of allowances to village Officers and others. The first of these classes, or remissions, contingent on season, aggregated the large sum of nearly 31 lacs of Rupees, being 14 lacs above the preceding Fusly, owing entirely to the adverse circumstances of the year. The item of withered crops exhibits an increase of Rupees 9,24,859 over Fusly 1266 of which Rupees 3,38,942 were remitted in South Arcot. This large remission was imperatively called for. The distress felt in all parts of the district, in consequence of a deficiency of water extending even to wells, was personally witnessed by the Collector and his European subordinates. The Board fully admit the propriety of the liberal course pursued, particularly as the late abatement of the land tax had been followed by a very large extension of the cultivation, which, owing to the failure of the rains, brought no corresponding benefit to the Ryots. The amount remitted, on occasions like the present, remains in possession of the Ryots in the shape of seed and stock, which must otherwise be sold to pay the assessment, if the full amount is demanded. The State is thus amply recompensed for a liberal policy in the following years, and it may here be observed that the land revenue of South Arcot, after these remissions, amounted, without the road fund, to Rupees 20,11,691, which equals the average of preceding years. In several other districts, also, it was found necessary to grant remissions for perished crops to a large extent.

	Rupees.
Madura..	1,33,650
Tanjore..	53,824
Chinglepat..	1,18,765
Salem..	59,146
Nellore..	56,832

37. The fixed remissions, the second head of remissions mentioned above, are permanent reductions of the old assessment in certain districts, in which the tax, as originally fixed, was found to be excessive. It has been customary to exhibit these remissions in the annual accounts, partly because they fluctuated with reference to the actual extent of land cultivated, but as the assessment of all land, whether occupied or otherwise, has recently undergone revision where necessary, these remissions will gradually be struck out of the accounts.

38. The remissions under the third head consist of percentage deductions from the settlement for the pay of village Officers and others. The amount allowed varies with the revenue and there is thus in the year under report a diminished expenditure on this account in proportion to the diminution in the settlement. The largest decrease occurs in the Southern* and Northern† Divisions of Arcot, where this mode of remunerating village Officers chiefly prevails.

*	37,615.
†	7,957.

Statement No. 8.—39. The Sundry items, which appear separately as additions to the land revenue, are enumerated in statement No. 8. They aggregate about 18 lacs of Rupees and consist of quit rents, grass tax, &c. The principal items of increase and decrease are as follow :

Decrease.

	Rupees.
Quit rent on Inams, &c..	27,143
Quit rent on Bungalows, &c..	18,812
Fish rent..	16,328
Jungle rents..	70,304

Increase.

Revenue from hill villages..	56,176

The decrease in the first of the above items is owing chiefly to the charge for the use of Government water, being less than in Fusly 1266 in Cuddapah and North Arcot. In the second it proceeds almost entirely from the discontinuance, with the sanction of Government, dated 24th April 1857, of certain extra cesses in Tinnevelly known under the designation of Nellavary, and in the third, or fish rents, the decrease occurs for the most part in Tanjore, where the tax on tank and channel fisheries was abolished under the orders of Government, dated 11th June 1857. The increase in the revenue from hill villages is nominal arising from the transfer, to this head of account, of certain villages in Ganjam under collective rents aggregating Rupees 68,864.

Statement No. 7.—40. The extent of fresh land occupied on cowle during the year was 1,21,884 acres, assessed at Rupees 2,31,166. It is found chiefly in Guntoor, Bellary, Coimbatore, and Salem, and is ascribable, in a great measure, to the demand for land caused by the mitigation of the assessment, in those districts. In Guntoor it is owing partly to this cause, and partly to the occupation of lands newly enjoying irrigation from the Kistnah. The total extent of land in all the districts occupied on cowle, including the unexpired cowle land of previous years, is 3,55,635 acres, bearing an assessment of Rupees 6,37,131.

	Acres.
Guntoor............	30,317
Bellary..............	49,636
Coimbatore........	17,512
Salem...............	13,905

Statement No. 9.—41. The particulars of the settlement of the amany villages are shown in statement No. 9. This mode of settlement is followed chiefly in newly reverted estates where there is no fixed field assessment, or where the Ryots have failed to enter into satisfactory arrangements for the rents of their villages. The number of villages thus settled in the year under report is 73¼ which is one less than in the preceding year.

STATEMENT No. 10.—42. The extent of land cultivated with sugar-cane, cotton and indigo, compared with Fusly 1266, is shown in the subjoined abstract :

	Cultivation in Fusly, 1266.	Cultivation in Fusly, 1267.	Increase.	Decrease.
	Acres.	Acres.	Acres.	Acres.
Sugar-cane......	32,637	38,644	6,007	0
Cotton..........	9,38,047	9,32,285	0	5,762
Indigo..........	2,01,607	2,05,663	4,056	0

43. The falling off in cotton occurs chiefly in the Ceded Districts and Kurnool which are among the chief cotton-growing provinces of the Presidency, and is owing to the want of seasonable rains, but this decrease was in great part counterbalanced by an increase of 71,606 acres in Coimbatore, Tinnevelly and South Arcot. The increase in the sugar-cane and indigo cultivation is divided among several districts, but in none is it so great as to call for special remark.

	Decrease.
	Acres.
Cuddapah..........	11,069
Bellary..........	57,333
Kurnool..........	15,357
	83,759

STATEMENT No. 11.—44. The average assessment per acre of each description of land, included in the settlement, is given in statement No. 11, Canara, Malabar and Madras, for reasons already stated, being excluded. It will be seen that the general average is little altered, though in some districts—as North Arcot and Cuddapah—*the average* wet assessment is much below that of last year, owing to lower class lands having been more extensively brought under cultivation in the latter district and to the reduction of the assessment in the former.

	Fusly 1266.			Fusly 1267.

Amany, or division of produce..........	83,093	98,190	15,097	0
Total.....	335,38,192	325,91,123	55,200	10,02,269
Total land Revenue..........	385,13,019	375,70,146	59,396	10,02,269
		Deduct Increase.....		59,396
		Net Decrease.......		9,42,873

The increase under the head of permanently settled is composed of a gross increase of Rupees 4,710 and a gross decrease of Rupees 518, the former arising from certain villages of the Gungaulawar *Poligar in Nellore and the Erachakanaiknoor estate in Madura being carried to this from* other heads, and the latter from reductions of peishcush in North Arcot and Salem on account of land taken for public purposes under the sanction of Government. The increase in Shrotriem and Inam villages represents the water tax imposed in Rajahmundry on Inams and proprietary estates. The decrease in rents consists almost entirely of the assessment of certain villages in Ganjam taken from this head to that of Sundry items as noticed in para. 39.

From Government 23rd December 1857, R. D. No. 1345.
in Con. 4th January 1858, No. 5202.

Sundry sources of Revenue.

46. The sundry sources of Revenue come next under review. They yielded Rupees 117,01,939 which exceeds the revenue of Fusly 1266 by Rupees 5,28,186. This result in so bad a year is a favorable indication of the improved condition of the people. Taking both land and sundry sources of Revenue the net result, as will be presently shown, is a decrease of Rupees 4,57,800 which is much more favorable than what was at first expected. The Government, it will be remembered, were kept informed as to the probable out-turn of the season which at one time it was thought would have shown a deficit of about 30 lacs of Rupees.

To Government 9th February 1858.
Do. 31st January 1859.

47. The following abstract exhibits at one view the revenue from the Sundry sources in comparison with Fusly 1266 :

	Fusly 1266	Fusly 1267.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Abkarry	25,24,383	27,73,231	2,48,848	0
Moturpha	10,79,111	10,79,463	352	0
Salt..........	53,95,023	56,96,846	3,01,823	0
Sea Customs..........	12,68,609	12,08,178	0	60,431
Frontier duties..........	1,89,272	1,89,252	0	20
Stamps..........	7,17,355	7,54,969	37,614	0
Total.	111,73,753	117,01,939	5,88,637	60,451
		Net Increase...	5,28,186	

48. The large increase in the revenue from Abkarry occurs principally in the town of Madras, and is attributed to the presence of a larger number of European Troops and the formation of an extra Regiment stationed at Madras. The increase would have been larger but for the necessity of substituting Batavia, a less popular spirit, for Colombo arrack, in consequence of the deficient supply of the latter. The increase in the revenue under this source was also considerable in the districts noted in the margin.

Abkarry

	Rs.
Madras—Total rents in Fusly 1267..........	7,72,477
Increase above Fusly 1266..........	1,30,460

	Rs.
Masulipatam..........	17,312
Bellary..........	36,331
North Arcot..........	21,000
Salem..........	34,910

STATEMENT No. 13.—49. The Salt transactions will be found embodied in statements Nos. 13 and 14. From the former of these returns it will be seen that the balance of salt in hand at the commencement of the Fusly under report amounted to Indian Maunds 75,02,903 and the quantity received into store during the year to Indian Maunds 78,47,636 making a total of Indian Maunds 153,50,539 or 18,06,888 Indian Maunds in excess of the quantity available for sale in Fusly 1266. This increase was owing to an active manufacture to meet the probable demand. The sales under all heads were Indian Maunds 61,48,483 or 1,07,771 above Fusly 1266, as detailed below :

	Fusly 1266.	Fusly 1267.	Increase.	Decrease.
	In. Mds.	In. Mds.	In. Mds.	In. Mds.
Home consumption	25,06,309	25,40,324	34,015	......
Inland do.	27,73,485	30,68,165	2,94,680	......
Government exports	1,90,498	3,02,120	1,11,622	......
Private do.	5,07,940	1,89,673	......	3,18,267
Sold to the French Government	62,480	48,201	......	14,279
Total.	60,40,712	61,48,483	4,40,317	3,32,546
		Deduct decrease.	3,32,546	
		Net increase.	1,07,771	

50. The increase in the home and inland sales, as indicative of the improved circumstances of the people, is very satisfactory. In some measure it is to be attributed to increased facility of transport afforded by the Railway.

	Rs.
Fusly 1266	46,87,724
1267	46,20,503
Less	67,221

51. The net financial result in this source of revenue, notwithstanding an increase in the quantity of salt sold, exhibits a decrease of Rupees 67,221 below Fusly 1266, but this is owing to an increase in the charges arising from a more extensive manufacture of salt.

52. It will be seen from enclosure A in No. 13 that the wastage on sales of salt in the Fusly under report amounted to Indian Maunds 2,83,275-9¾ *which on the quantity stored, viz.* Indian Maunds 48,09,589, gives a percentage of 5·89. The Board recommend that sanction be granted for writing off this wastage.

Sea Customs.—53. Of the net decline of Rupees 60,431 in the Sea Customs Rupees 57,407 occurred in Malabar owing to a diminished importation of iron rails and salt on private trade. In Canara also there is a decrease of Rupees 10,772 arising from a less importation of salt from Goa.

Stamps.—54. The increase *in the* Stamp revenue is partly owing to an increase in the number of Courts at Combaconum and partly to the quicker despatch of judicial business generally.

Statement No. 16.—55. Having thus reviewed each branch of revenue with its increase or decrease, the Board will now exhibit in one view in comparison with Fusly 1266 the entire current demand on account of all sources of revenue including that from the land. The following abstract statement furnishes this information :

	Fusly 1266.	Fusly 1267.	Increase.	Decrease.
Land Revenue	385,13,019	375,70,146	......	9,42,873
Sundry sources	111,73,753	117,01,939	5,28,186	......
Extra revenue	2,88,421	2,60,369	......	28,052
Interest account	38,195	23,134	......	15,061
Total.	500,13,338	495,55,588	5,28,186	9,85,986
			Net decrease.	4,57,800

Current D. C. B.—56. Out of a current demand of Rupees 495,55,588 the sum of Rupees 446,47,440 was collected within the Fusly leaving a balance of 49,08,148 at its close. Subsequent collections reduced this arrear at the end of February last to Rupees 9,70,421 which consisted of the following items :

Land Revenue Peishcush	Rupees	41,253
„ Ryotwar	„	8,79,694
Sundry sources of revenue	„	35,225
Extra Revenue and Interest	„	14,249

The peishcush balance above shown includes Rupees 15,000 in Malabar due by the Beebee of Cannanore who has again fallen into arrears. The repeated failure, on the part of this lady, to discharge her dues punctually has been noticed by the Board in their previous reports. The other portion of the peishcush balance is in course of collection.

	Rs.
Salem	18,167
Madura	18,185
Tanjore	6,98,895
Chingleput	20,403
Cuddapah	21,067
Nellore	28,671
Rajahmundry	21,471

57. The ryotwar balances are due chiefly in the districts entered in the margin. The bulk of the entire amount outstanding occurs in Tanjore where a sum of Rupees 5,77,297, being for the most part difference of price according to the terms of the Oloongoo system of settlement noticed in a former part of these Proceedings, has been suspended from collection *under the orders of Government, dated 13th July 1858*, No. 957. The balances in the other districts are small and in process of recovery.

Statement No. 17, D. C. B. of arrears.

	Rupees.	Rupees
Arrears	58,52,802	
* Collections and remissions during the Fusly		45,13,870
Subsequent do. up to end of February last.		2,12,004
Total sum recovered or adjusted		47,25,874
		11,26,928
† Peishcush		550- 9-0
Ryotwar &c.		4,19,286- 5-4
Sundry sources		4,423-14-0
Extra revenue.		6,244-11-8
		4,30,505- 8-0

58. The arrears outstanding at the commencement of the Fusly amounted to Rupees 58,52,802 ; they have since been reduced as shown in the margin,* to Rupees 11,26,928. Of this balance a sum of Rupees 4,77,801 is classed as recoverable or doubtful of recovery and is therefore reserved for future investigation, and Rupees 2,18,621 being balances to the close of Fusly 1266, will be struck out of the accounts under the sanction of Government dated 12th February 1859. There thus remains under the heads noted in the margin† an irrecoverable balance of Rupees 4,30,505-8-0, for writing off which in the public accounts the sanction of Government is solicited, as careful enquiry on the part of the Collectors has satisfied the Board that its realization is hopeless.

Statement No. 18.—59. In the realization of the Revenue of the year the value of property distrained and sold amounted to the inconsiderable sum of Rupees 8,327 of which Rupees 17 is the value of land sold. The high prices of grain, notwithstanding a deficiency of produce, no doubt contributed largely to this favorable result.

Statement No. 19.—60. Statement No. 19 shews the entire collections of the year with the charges. The latter are exhibited in the following abstract statement in comparison with Fusly 1266 :

	Charges of Fulsy 1266.	Per centage on the Collections.	Charges of Fusly 1267.	Per centage on the Collections.	Increase.
Management charges.	41,16,694	8	41,39,284	8	22,590
Extra do.	12,07,329	2	17,76,470	3	5,69,141
Total...	53,24,023	10	59,15,754	11	5,91,731

Increase in the salt charges 3,64,848.

Thus it will be seen that the charges on account of management were about the same as in the preceding year. In the extra charges, however, there was an increase of Rupees 5,69,141 being one per cent. higher than in Fusly 1266, owing chiefly to a more extensive manufacture of salt, as already explained in para. 51.

61. In para. 47 of their General Report for Fusly 1266, after reviewing the transactions of the year, the Board glanced briefly at the progress of the land Revenue since Fusly 1224, A. D. 1814. The results were shewn in a tabular form at the end of para. 47, from which it appeared that the land Revenue of Fusly 1266, not a favorable season, was the highest on record by several lacs. It stood at Rupees 378,47,002. The land Revenue of the year under report, calculated on the same principle for the sake of comparison, is Rupees 369,19,424, the highest by about six lacs of any previous year except Fusly 1266 notwithstanding the large remissions which the adverse circumstances of the year rendered necessary.

Revenue Board Office,
Fort Saint George,
30th June 1859.

I have the honor to be,
Sir,
Your most obedient servant,
(Signed) J. D. SIM,
Secretary.

Copy to all Collectors.

LIST OF STATEMENTS ACCOMPANYING THE BOARD'S GENERAL REPORT TO GOVERNMENT, ON THE SETTLEMENT OF LAND REVENUE, &c., FOR FUSLY 1267.

Quinquennial.

A. Statement shewing the number of villages and hamlets in the several districts of the Madras Presidency for Fusly 1266.
B. Statement shewing the different sources of irrigation in each district for Fusly 1266.
C. Abstract statement shewing the houses and population in each district for Fusly 1266.
D. Statement shewing the number of ryots, puttahs, &c., for Fusly 1266.
E. Statement shewing the Rent-roll for Fusly 1266.
F. Abstract of statement shewing the Circar and Inam ayacut and cultivation for Fusly 1266.

Annual.

No. 1. Statement shewing the particulars of talooks, villages, and puttahs for Fusly 1267.
No. 2. Statement shewing the commutation and current prices of grain for Fusly 1267.
A in No. 2. List of Bazar prices for Fusly 1267 prepared as per monthly returns.
No. 3. Statement shewing the Ryots' holdings at the commencement of the Fusly and the subsequent alterations for Fusly 1267.
No. 4. Statement shewing the cultivation and settlement of the Ryotwar Land Revenue for Fusly 1267.
A in No. 4. Comparative abstract of cultivation and settlement for the whole Presidency for Fusly 1267.
No. 5. Statement shewing the particulars of remissions for Fusly 1267.
No. 6. Statement of shavy or crops dried up and the remissions given for Fusly 1267.
No. 7. *Statement of lands held on progressive cowle for Fusly 1267.*
No. 8. Statement shewing the particulars of sundry items for Fusly 1267.
No. 9. Statement shewing the cultivation and settlement of the amany villages for Fusly 1267.
No. 10. Comparative statement shewing the cultivation of sugar-cane, cotton and indigo for Fusly 1267.
No. 11. Statement shewing the average assessment per acre of each description of land for Fusly 1267.
No. 12. Comparative statement shewing the particulars of Moturpha for Fusly 1267.
No. 13. Statement shewing the balance of salt at the beginning of the year, the quantity received and sold during the year and the balance remaining in store at its close for Fusly 1267.
A in No. 13. Statement shewing the wastage of salt in the several salt districts of this Presidency for Fusly 1267.
No. 14. Statement shewing the financial results of salt transactions for Fusly 1267.
No. 15. Statement shewing the particulars of current demand of extra revenue and interest account for Fusly 1267.
No. 16. Statement shewing the demand of all sources of revenue for Fusly 1267.
A in No. 16. Comparative abstract of all sources of revenue for Fusly 1267.
No. 17. Statement shewing the demand collection and balance of all sources of Revenue current and arrears for Fusly 1267.
No. 18. Statement shewing the extent to which coercive process was employed in the collection of Revenue for Fusly 1267.
No. 19. Statement shewing the collections and charges for Fusly 1267.

Remarks

× From 21st June 1854.

* From March 1855

° Although this amount is not entered in the Statement of expenses furnished for 1855 by the Medical officer in Charge dated 19 Instant received thro' the Acting Head Assistant Collector, the Sub Collector knows it was disbursed from the Lungurkanah funds although the Dispensary was not opened till the 1st March 1855.

(Signed) A. W. Sullivan
Sub Collector

True Copy

No. 7

North Arcot
Sub Collector's Office
Vellore 4th February 1858.

From A. W. Sullivan Esquire
Sub Collector of North Arcot

To
E. Whittingham Esquire
Collector of North Arcot

Sir,

With reference to your letter of the 19th Ultimo No. 25 and its enclosures received at this office on the 22nd Ultimo I have the honor to submit the information required in Para 11 of the Extract Minutes of Consultation dated the 18th November communicated with the Proceedings of the Board of Revenue of the 12th Ultimo No. 166.

2. I should have replied earlier but that I found it necessary before giving a decided opinion in connection with Para 16 of my letter of the 8th March last No. 46 regarding the amalgamation of the two [illegible] to ascertain what has been the cost of the Ranipett Dispensary from the Acting Head Assistant Collector the Officer in immediate

charge of the institution and his reply only reached yesterday. —

3. The Dispensary at Ranipett is not under my care or supervision as you are aware, although maintained out of funds over the expenditure of which I have been directed to exercise an economical control and on this point I would beg to refer you to my letter to your address of the 23d May 1857 No. 80 and your reply of the 27th June No. 297. —

4. Herewith are submitted in the prescribed form two Statements **A & B** exhibiting on the same sheet the extent of relief afforded and the charges incurred at the Lungurkhanas at Vellore and Arcot for the whole of 1857 and from the 1st March to 31st December 1857 up to which former date, exclusive, I reported on the institutions in my letter of the 8th March 1857 No. 46. —

5. Two other Statements **C** and **D** are likewise submitted showing the actual costs of the two dispensaries for the same period. —

6. The sanctioned amount available for the maintenance of the four institutions that is two Lungurkhanas and two Dispensaries for the period immediately under report that is from 1st March to 31st December 1857 is Rs As P 8087-4-5 the actual outlay Rs As P 9051-6-2 being an excess of expenditure over income of Rupees 964-1-9. —

7. The whole of this surplus charge is to be ascribed to the cost of the Ranipett Dispensary for it will be seen by a reference to the annexed table that there is a decrease on the total expenditure of the two Lungurkhanas in the period under review as compared with a similar period in the preceding year 1856 of Rs As P 944-14-2. —

Name	Expenditure from 1st March to 31st December 1857			Expenditure for the like period 1856			Decrease		
	Rs	As	P	Rs	As	P	Rs	As	P
Vellore Lungurkhana	3353	13	6	3901	3	7	547	6	1
Arcot Do.	1070	11	10	1468	3	11	397	8	1
							Total 944	14	2

12 On a reference to Statement C it will be seen that from October the Vellore Dispensary has been settled with a 1st Dresser instead of a 2nd Dresser as sanctioned, the difference between Rs 35 and Rs as ps 24. 8. = Rs as ps 10. 8. 0 or Rs as ps 126. 0. 0 per annum. I had the honor to address you on this subject on the 2nd Ultimo No 89 but have not as yet received a reply.

13 I would now beg to refer to Para 9 of my letter of the 3rd March 1857 No 46 in which the funds and [illegible] then stated might be considered a somewhat unfavorable state and on which I proceeded in subsequent Paras to frame some estimates, the annexed marginal statement will show how much more unfavorable the rates have been for the period under review notwithstanding which the saving

1857	Vellore			Arcot		
Months	Puddies	a	ch	Puddies	a	ch
March	13	..	6	15	4	..
April	13	3	15	14	12	10
May	12	13	12	13	3	12
June	12	15	3	13	4	12
July	10	15	4	11	13	8
August	11	3	13	11	13	13
September	10	..	7	10	5	14
October	9	11	8	10	1	11
November	9	7	12	10	5	12

(10)	112	7	13	121	..	2
	11	3	15 7/10	12	1	9 8/10

Average [illegible] 28 3 - 11 - 10 - 12 at Arcot *

exhibited in the tabular statement at Para 7 of this letter has been effected.

14 It is hardly to be supposed that these very high rates will continue much longer though they have lasted much longer than even I anticipated when Mr Bourdillon and I were at variance on the probable cost of the institutions.

15 The sum of Rs as ps 96. 4. 9 exhibited in para 6 of this letter as expenditure in excess of income does not appear to me of sufficient magnitude to necessitate at present the amalgamation of the two institutions at any date between this and the 30th June next when I shall again report on the state of the Funds.

16 It occurs however to me in connection with the Ranipettah Dispensary and Para 9 and 10 of this letter that a saving might be effected if the institutions were placed

8. Again as regards the Village Dispensary it will be seen by a reference to the annexed Statement that the cost for the period has been kept within the sanctioned expenditure by Rs 106 – 7 – 2. —

Monthly Sanction		Number of months under review	Total amount of Sanction			Total cost for same period			Saving		
Rs	as		Rs	as	p	Rs	as	p	Rs	as	p
205	" "	Ten —	2050	"	"	1943	8	10	106	7	2

9. By Minutes of Consultation Public Department dated 18 May 1854 No 478 the sum of Two hundred and five (205) Rupees was sanctioned for each of the dispensaries less as regarded the Rowjutt Dispensary twelve (12) Rupees for house rent on the score of there being a Government building available for the purpose thus reducing the original allowance for that institution to one hundred and ninety three (Rs 193) a month or Rs 2316 per annum.

10. Subsequently to the Dispensary being established the Rowjutt ceased to be a Military Station and the institution was saddled with an Apothecary, now drawing Rs as p of 115 – 7 – instead of a Medical allowance of 50 and later still the Government building had to be given up and a house rented. Taking then the Original Sanction of Rs 193 the account runs thus Rs 193 – Rs 50 Medical allowance + Rs as 115 – 7 Apothecary's pay + Rs 12 house rent = Rs as p 270 – 7 – or Rs as p 65 – 7 – in excess per mensem of the Sanction for the Village Dispensary —

11. On a reference to Statement D it will be seen that in October Rs as p 29 – 9 – 3 is charged for a Dresser this is Rs as p 5 – 1 – 3 in excess of the sanctioned charge of Rs as p 24 – 8 – for a 2nd Dresser. In November only Rs as p 5 – 13 – and in December nothing at all but I have been informed that the services of the 2nd Dresser formerly employed being required in the field a 1st Class Dresser was in the first instance employed and again removed and the services of a pensioned Apothecary secured who demands a still higher rate of pay a matter which I believe to be under reference to the higher Authorities —

in Ranipett again as it is most probable that a Medical officer will always now be there looking to the number of European Troops in the Country and he would only draw 50 Rupees at Vellore for Medical attendance which would at once relieve the institution of 65 Pgs a Month or 785 Ps per Annum and with the present demand on all branches of the Medical Service the Apothecary now in Charge could easily be provided for.

17 The above is merely a suggestion of mine, the Government will be better able to judge from their own information whether my supposition of a Medical man being likely always to be at Arcot now be correct or not. The difficulty is house room but a building might be erected and paid for out of the funds whenever they

exhibit

exhibit a surplus which they must do in time as no new admissions are made to either of the Lungerkhanas and the price of grain cannot well average more than at present.

I have &c.

(Signed) A. W. Sullivan.

Sub Collector.

No 237.

Official Memorandum.

The Collector has the honor to request the Sub Collector will be so good as to submit with the least practicable delay an explanation on the following points relative to the accounts submitted by him with his letter of the 6th February last regarding the Arcot & Vellore Lungerkhanahs and Dispensaries.

1st The amount sanctioned for the Lungerkhanah at Vellore is Rs 7331-15 per annum but the Amount shewn in Statement A which accompanied the Sub Collector's

letter

Rs a p
letter above referred to is 7350-6-10

2 The Collector is not aware why in the above mentioned Statement the Sanctioned Amount entered for each Month varies. The Collector is of opinion that the amount should be divided by 12 and the quotient entered in the Statement as the amount Sanctioned for each Month as in the case of the Lungerkhanah at Ranipett & Wallajahpett (Statement B)

3 The Collector also requests the Sub Collector will explain why in the Marginal Statement attached to para 8 of his letter No 48 of the 8th March 1857 the Sanctioned Amount for the Arcot Lungerkhanah is given at 2001-12-9 instead of 2310 as exhibited in the Statement B now received from the Sub Collector

When replying to these queries the Sub Collector will be

So

61

so good as to submit an account shewing the expenditure for the four institutions in question during 1856.

The Sub Collector will also be so good as to state at the same time how much of the old accumulated Savings of the Lungerkhanah is still available.

No 187

North Arcot
Collector's Cutchery
Chittoor 31st May 1858

From C. Whittingham Esqr.
Collector of North Arcot
To A. W. Sullivan Esqr.
Sub Collector of North Arcot

Sir,

I have the honor with reference to my official Memo of the 15th Instant No 259 to point out some further discrepancies in the account on Statement of Expenses incurred in the Civil Hospital at Vallagalleth during the year 1857 which accompanied your Letter of the 4th February '58 No. and which I beg to return herewith for amendment.

2 A reference to the records of my office shows the allowance paid to Mr King the Apothecary from my treasury from Aug 1857 to have been Rs 6-7 only, the remaining 32 Rupees being drawn by Mr King from the Military Department, whereas the account submitted by you shows the allowance paid to Mr King from the [illegible] fund to have been Rs 38-7 per month.

3 In the same account the pay of a Second Dresser for the Month of October is given at [illegible] [illegible] of the account [illegible] Dresser who was appointed in the room of the Second Dresser who was removed from the Dispensary in that Month. It is desirable that the accounts now returned should exhibit these details.

4 As the pension of the Apothecary appointed to do duty in the Dispensary has since the transmission to me of the account by you been paid at the rate of 50 Rupees a Month in arrears from the 8th December 1857 the date Mr D'Silva relieved his predecessor at the Dispensary, I request that this payment also may be shown in the accounts to be ~~furnished~~ in lieu of that now returned.

I have &c

From

A. W. Sullivan Esqr
Sub Collector

To C. Whittingham Esqr

Collector of North Arcot

Sir,

Medical Departt
Dispensary

I have the honor with reference to your Official Memoranda of the 15th Ultimo No. 252, 17th Idem No. 253, to your letter of the 31st Idem No. 287 and to your letter of the 30th Ultimo No. 347 to inform you that revised accounts of the expenditure of the Arcot and Vellore Lungerkhanahs and Dispensaries are under preparation but owing to the Jummabundy my own time and that of my Sheristadar's Establishment is so fully occupied that I have the greatest difficulty in attending to and getting through other work with my very limited office Establishment.

2 On some of the principal points connected with the Ranepett Dispensary, reference[s] the acting Head Assistant Collector

Demands

records are necessary and he has
been absent on leave and is still
absent from Ranipett in a day
or two I am going over to Arcot and will
endeavour to get the required in-
formation from the Dispensary
Records direct.

3 As regards the Discrepancies
noted more especially in your
letter of the 31st May 1858 No. 87 I would
observe that I am entirely free
from blame as regards them
the account having been furnished
to me from the Ranipett Dispensary
by the medical officer in charge
through the Acting Head Assistant
Collector.

4 Foreseeing all the
confusion that would arise from
the Head Assistant having charge
of the Ranipett Dispensary and
my being held responsible
[illegible] for the expenditure

addressed my letter to you of the
23rd May 1856 No. 60 to which I received
your reply of the 27 Same No. 277.

5. The subject of this
inconvenience was again brought
to your notice in Para 3 of my
letter of the 4th February last, Dispensaries No. 7

I have &c.

Sub Collector.

No. 18.

North Arcot
Sub Collector's Office
On Circuit
Trivattoor July 27th 1858.

From A. W. Sullivan Esqre.
Sub Collector North Arcot

To E. Whittingham Esqre.
Collector of North Arcot.

Sir,

Medical Departt
Dispensary

With reference to my letter
to your address of the 8th Instant
Dispensaries No. 10 your official Memo.

of the 15th May 1858 No. 257 subsequent letter of the 31 Decem No. 287 and 30th Ultimo No. 347 calling for certain explanations and information in connection with the Accounts submitted by me with my letter of the 4 February last regarding the Arcot and Vellore Lungurkhanahs and Dispensaries. I have now the honor to submit herewith the explanations and revised Accounts.

2. The error of substituting 7350–6–10 as the sanctioned Amount for the Vellore Lungurkhanah per annum for 7331–15– appears to have arisen in the preparation of the Vernacular Accounts and at the time escaped my notice. A revised Statement **A** is herewith forwarded.

3. The reason why in the original Statement **A** the sanctioned Amount entered in

Col:

Col:12 for each Month varies is, that considering the issue of grain from the Lungurkhanah to be of a daily nature and subject to daily fluctuations, I calculated the Cost also According to the number of days in each Month; in the revised Statements **A** and **B** now submitted an extra Column 15 is inserted exhibiting the amount of sanction prepared According to your views as well as one prepared on the other plan which latter appears to me the most correct for the Calculations required to be exhibited in Cols: 13 and 14.

4. This plan ought to have been pursued in both Statements **A** and **B** submitted with my letter of the 4 February last, and the error arose in the preparation of the vernacular Accounts.

5. The sum of Rs. 2001-12-9 entered in Para 8 of my letter of the 8th March p

are

as the sanctioned amount of the Arcot Lungarkhanah exhibits the sanction for rice only; the sum of Rs 2310 as exhibited in Statement **B** is the total amount available including establishment and other charges.

6. Statements **E** and **F** herewith forwarded exhibit the expenditure for the two Lungarkhanahs for 1858.

7. Statements **G** and **H** exhibit the expenditure of the two Dispensaries for the same period.

8. Statement **D** is a revised statement prepared agreeably to your letter of the 31st May 1858 No. 287 but as regards this statement, Statement **H** notes in Para 7 and all information regarding the Arcot or Wallajapett Dispensary I beg your attention to Paras 3 and 5 of my letter to your address

of

of the 8th Instant. Despensaries No. 16.

9. Statement **I** exhibits in detail the balance in hand at the end of 1857 out of the surplus funds of the Lungarkhanahs referred to in Paras 1 and 3 of the Extract Minutes of Consultation dated 16th May 1854.

10. The accounts from the Arcot or Wallajapett Dispensary were only received on the 22nd Instant from the Ag. Head Assistant Collector.

I have &c.
(Signed) A. W. Sullivan
Sub Collector.

North Arcot
No. 575. Collector's Circuit Cutcherry
Vadamalpett 7th September 1858.

From E. Whittingham Esqre
Collector of North Arcot.
To A. W. Sullivan Esqre
Sub Collector of North Arcot.

Sir,

I have the honor to state

that on examining the Statements
from A to I furnished by you with
your letters of the 6th February and
27 July 1858 Nos [illegible] and 15 on [illegible]
Vellore and Arcot [illegible]
and Dispensaries I observe that
in your Statement marked C
the full salary of 1st Dresser for
November 1857 Rs 15 has been
entered, whereas on reference to
my accounts it appears that Rupees
only have been entered on account
of salary of 1st Dresser attached to
Vellore Dispensary from 25 to 30
November 1857 I have accordingly
caused a fresh Statement to be
prepared with reference to my
accounts for submission to the
Board. In the Statements marked
D & H of the expenses incurred in
the Dispensary at Arcot I observe
that the sums of Rupees 373-6-9 entered
for the year 1856+ & Rupees 257-12-4
for

+ Statement marked D

* Statement marked H

for 1857* whereas in my accounts Rupees
2974-4-7 for the former and 2746-10-2
for the latter year have been
charged. The cause of the dis-
crepancy is attributable partly
to the excess of the items of charges
entered in the above Statements
over the amounts actually disbursed
and partly to omission of the items
that were actually expended and
charged in my accounts.

2 I have therefore caused
2 Statements in lieu thereof pre-
pared with reference to the sums
charged in my accounts and
herewith forward a Statement*
showing the sums paid on account
of the charges of the Dispensary
at Arcot from January 1856 to
December 1857 and request you will
be so good as to cause the accounts
of that Dispensary to be examined
with reference to my above State-
ment and cause the necessary
alterations

* To be returned

alterations to be made in the accounts and adopt measures to recover and refund the sum of Rupees fifty exhibited in my Statement as having been overdrawn.

3 I have also caused a Statement to be prepared in lieu of your Statement marked J revised with reference to the differences above pointed out and those that exist between the amounts exhibited in your Statement for the years 1854 & 1855 and those charged in my accounts for those years for submission to the Board, the copy of which is also forwarded herewith for your information.

I have &c

Sub Collector

To C. Whittingham Esqr.
Collector of North Arcot

Medical Depart.
Dispensary

Sir,

I have the honor to acknowledge receipt of your letter of the 7th Instant No. 813 with its enclosures and note that the sum of twenty eight (28) Rupees is carried to the credit to the Vellore Dispensary account.

2 For the discrepancies in the Statements marked D and H of the expenses incurred in the Dispensary at Arcot I am in no way answerable as they were merely copies of the accounts furnished me through the Acting Head Assistant Collector and over which I have no control whatever.

3 I would therefore

submit: that the requisition contained in para 2 of your letter under reply might be more properly attended to by Mr Elliott with whom the accounts are and that he is the officer who should adopt measures for recovering and refunding the sum of Rupees 1-11-9 exhibited as over drawn.

4. I must beg respectfully in conclusion to protest against being continually called upon for explanations &c regarding the accounts of the Arcot Dispensary which do not even pass through this office, Para 3 of my letter to your address of the 4th February last Dispensaries No 7 and the correspondence mentioned will have special reference to the inconvenience of the present arrangement & I have subsequently directed attention [illegible]

Your

5. Four enclosures of those sent with your letter under reply are herewith returned as requested.

North Arcot

Collector's Cutchery

Nagalapooram 23d September 1858

From C. Whittingham Esqr

Collector of N. Arcot

To A. W. Sullivan Esqr

Sub Collector

Sir,

I have the honor with reference to paras 2 and 3 of your letter of the 20th September 1858 No 24 to state that I have requested the Acting Head Assistant Collector to forward to me all the documents connected with the Dispensary at Arcot with a view to rectifying the errors in Statements D and H, and to taking measures for recovering the Sum of Rupees 149 over drawn.

2 With reference to para 4 of your letter and the correspondence to which it refers I beg to inform you that I am now satisfied that it will be for the advantage of that Dispensary to place its management in your hands, and that I have therefore given directions accordingly.

I have &c

(Signed) C Whittingham

Collector's Cutchery

No 582 Sigalapoor 23d September 1858

From C. Whittingham Esqr

Collector of North Arcot

To E. F. Elliott Esqr

Acting Depy Collector

Sir,

I have the honor to request that you will be so good as to direct the person in charge of the Ranipett Dispensary accounts for 1856 and 1857 to forward them to my Office without delay with a view to my rectifying the errors adverted to in paras 2 & 3 of the accompanying Copy of a letter from Mr Sullivan the Sub Collector & my recovering from the proper parties the amount over drawn.

2 With regard to para 4 of Mr Sullivan's letter I beg to inform you that I am satisfied it will be for the advantage of the Ranipett Dispensary that the Charge of it should be confided to him, who has already the charge of the Arcot Lunger khanah & through whom the Ranipett Dispensary accounts are forwarded to me and that I have issued orders accordingly.

I have &c

(Signed) C Whittingham

Recd 23 Feby

Revenue Dept

No 1301.

Proceedings of the Madras Government

Under date the 26th September 1859—

Read the following letter from the Secretary to the Board of Revenue.

Submitting the Boards annual Report with Statements illustrative of the settlement of land and other sources of Revenue in the Districts of this Presidency for Fusly 1267 or from 1st July 1857 to 30th June 1858.

Here enter 30 June 1859 No 2529

This is the annual report of the Board of Revenue on the settlement and collection of the Revenue for the Fusly year 1267 (A. D. 1857/58). It is accompanied by explanatory Statements which have been somewhat — abridged in form, as well as reduced in number, from twenty six to nineteen; as the Board say, exclusive of six quinquennial Statistical Returns This however is not quite a correct description; the whole number of annual Statements including those not numbered in the general series, is twenty four, but the number last year calculated in the same way was thirty nine.

2 This diminution in number has been effected, it seems, for the most part, by throwing the contents of two or more statements into one; and this change is not always for the better, as for example in the case of Statement 17, which in its new form is an extremely cumbrous and awkward document, much

much wanting in the essential quality of clearness. The Governor in Council must remark also that the Forms of Statement to accompany the Boards annual Revenue Reports ~~—~~ ~~approved by Government~~ ~~after careful consideration~~ ~~in the Council~~ ; ~~as they~~ ought not to have been thus extensively altered without the previous approval of Government. The Board will now be pleased to submit for consideration and orders the forms as before approved by Government, and

What is the use of Labour Teams [illegible] calculated [illegible] [illegible] of [illegible] and as now adopted by the Board, with information as to ~~####~~ the changes made and the reasons of them.

3. The season of Fusli 1267 is described as having been generally bad, being distinguished by a deficiency of rain, which amounted in many districts to an actual drought. The Districts which seem to have suffered most are those named in the margin. The only marked exceptions appear to have been — Tinnevelly, Canara, and Malabar, where the season is described as having been a good one — It does not appear

however

Para 18.

Para 17

however to have been an unhealthy year. The Bd. express dissatisfaction with the Collrs. returns of rainfall, and it is desirable that more attention should be given to the subject, so as to make these returns as accurate as possible.

4. As a consequence partly of a deficient harvest, the price of grain in the Presidency ranged materially higher than in the preceding year. According to a statistical statement in para 25 the increase amounted on the whole to much about 20 p cent. The only District in which there

was no rise in the price of paddy was Rajahmundry in Trichinopoly the increase was as much as 48 p cent. Para. 26 contains a statement comprising the prices in F/62, and /66 & 67. the increase in the two later years is very marked in all Districts, and in some, viz: Vizagapatam, Chingleput, N. Arcot, S. Arcot, Madura, Coimbatore, Salem and Madras, it is more than double in F/67 of what it was five years before.-

5 After describing the season & the prices, the Board go on to notice the details of the District settlement of the year

land

and it is gratifying to find that the cultivation & Rev. did not fall off to the degree which might have been anticipated from the preceding description of the season. The total extent of land included in Ryotwar holdings, omitting Canara, Malabar, and Madras, where the acreage held is not recorded, was acres 136,61,113, bearing an assessment of Rupees 329,11,093, a deduction of 7,20,083 acres, with an assest. of Rs. 16,78,409 for waste remitted leaves acres 129,41,030 assessed at Rs. 312,32,384. This last amount includes Rs. 12,84,105 of uncultivated land. The land assessment of the three Districts above named being added, raises the whole Ryotwar settlement to Rupees 352,63,656.—

6.— The Board notice that notwithstanding the unfavorable character of the season, much new land was taken up by Ryots in Districts where the assessment had recently been reduced; they especially mention the Districts of Guntoor, Bellary, N. Arcot, Trichinopoly and Salem.— They remark also that the extent of waste remitted was larger than of late years, in consequence of the failure of the rains. The

Para 30.—

The item of waste charged, which seems so large (12½ lacks) is explained to be in fact in a great measure nominal, including the uncultivated lands of joint rent villages of Rajahmundry and Masulipatam and the land taken for pasture in Guntoor.—

It is noticed in para: 36 that the contingent yearly remissions amounted in the year under report to not less than 31 lacks, a large part of this amount being for [illegible] or crops destroyed by drought. ~~[illegible]~~ ~~land taken up.~~ The

7.— The land alluded to in the preceding para: as newly taken up amounted in the whole to acres 11,10,001, bearing an assessment of Rupees 36,67,869.— The extent taken at the full assessment being was 9,88,117 acres, assd at 34,36,703 Rupees, while the large extent of 1,21,884 acres, bearing an assessment of Rs 2,31,166 was taken up on Kaul. Of this latter, the Board state was chiefly in Guntoor, Bellary, Coimbatore & Salem. On turning to the detailed Statement (No. 4) it is found that the land so taken up in these Districts was not less than 1,11,370 acres, leaving only 10,514 acres for the whole of the remaining sixteen Districts. In all the four Districts specified ~~by the Board~~, the assessment is light, and the Board expressly say (para 40) that the large extent of land taken in to ~~[illegible]~~ under Kaul was owing to the late reductions made in the Assessment. The Board are aware of the objections to Kaul as a general rule, and no reason appears why this indulgence should be allowed in these districts, when it is not used in others where the land is more heavily taxed. The Govr in C resolves to call the attention of the Board to the remarks on the subject in para: 16 of the order of 11th May 59. That para: should be communicated to Collrs for their information and guidance.

Para: 33 —

Para. 45.

8 — The total Ryotwar settlement, after adding the second crop assessment, and deducting the remissions just alluded to, and the authorized fixed and percentage remissions of various kinds, (Paras 37/38) amounted to Rs 316,15,061,

being a decrease of Rs 926,451 on the preceding year. The addition of the following items, viz

	Rupees
Sundry items	877,864
The Revs of Inam villages	98,190
Permanent settled Revenue	4979,023
Total	5955077

raises the total demand of the year on account of land Revs, to Rupees 375,40,146, being a net decrease of Rs 9,42,873 below that of the previous year. But although below 65/66, the land Revs of the year under notice is higher by about six lacks of Rupees than that of any other previous year. This is a highly gratifying fact, especially in connection with the very large reductions made in recent years in many Districts.

Frontier duties	189252
Stamps.	754969
	11701939

9. The total demand on account of the Sundry sources of Revenue, being those named in the margin, was Rupees 11,701,939; being an increase of Rupees 528,186 over the preceding year. Of this increase Rupees 301,823 was in salt, Rupees 248,848 in Abkari, and Rupees 37,614 in Stamps; there was a falling off of Rupees 60,451 in Sea customs. The increase in the salt and even that in Abkari is gratifying, as indicating an augmented power of consumption in the people. The salt Revenue appears to have taken a decided start and to be making steady

progress, a result due in part probably to the opening of improved communications between the interior and the coast; but principally, no doubt, to the improved condition of the poorer classes throughout this Presidency. The ~~Govt~~ Statement in the margin shews the Reve~~deeply regret that while~~nue from Salt & Abkari in ~~this branch of the Revenue~~ each of the last ten years, obtained ~~was in this advancing~~ from the Acct Genl, and it will be ~~state it has been stressed~~ observed that in the last 5 or 6 years ~~necessary to raise the price~~ a steady increase is observable in ~~of this necessary of life~~ both.

Fusly	Salt	Abkari
	Rs	Rs
1259 —	47,27,636	21,78,037
1260 —	48,01,251	21,26,297
1261 —	48,92,440	21,35,619
1262 —	50,30,928	21,71,910
1263 —	46,69,582	22,10,720
1264 —	50,25,299	20,87,663
1265 —	53,80,423	22,55,953
1266 —	54,09,259	24,92,980
1267 —	57,15,424	27,48,863
1268 —	60,01,496	28,30,673

10 It is to be observed however that with the augmented sales, there has been so great an increase also in the charges of the Salt Department as to leave a falling off in the net Revenue

The

The receipts in F/67 were greater than in the preceding year by Rs 303,292, but the charges in the latter year exceeded those in the earlier by Rs 370,515; so so that in spite of the largely augmented receipts in F/67 the net revenue was actually less by Rs 67,223 — this is stated by the Board (Para 51) to be owing to a largely increased manufacture, which after the greatly augmented sales left a store of salt greater by eighteen lackhs of maunds at the end of F/67 than at the end of F/66. The Govt do not doubt the correctness of the Board's explanation, but it would have been more satisfactory if they had examined the charges somewhat more in detail.—

11.— The following Statement taken from the Board's Statement No. 14 compared the receipts and charges of the two years in each Coast District.

12. As respects the Abkari, the Govt. cannot but view the increase in that also with gratification, as another indication of improvement in the condition of the people. It is by no means to be concluded that an increase in the revenue

drawn

drawn from the sale of ardent spirits necessarily implies an increase of intemperance. Teetotal habits may be more favorable to the moral and physical development of the human race; but as a fact it is found that the bulk of all populations devote a portion of their incomes to intoxicants or stimulants; and among the poorer classes, who are everywhere the great numerical majority, this indulgence varies with the amount of their earnings.

13. The total demand of Revenue for the year as given in Para 55 of the Boards Proceedings

was Rupees 49555588, or nearly five millions Sterling, being a net decrease of Rupees 457800

	Fusly 1266.	Fusly 1267.	Increase	Decrease
Land Revenue	38513019	37570146		942873
Sundry Sources	11173758	11701944	528186	. . . .
Extra Revenue	288421	260369	. . . . .	28052
Interest account	38195	23134		15061
Total	50013388	49555588	528186	985986
			Net decrease	457800

14 Out of this whole demand the sum of Rupees 44647440 was realized within the revenue year, leaving an arrear of Rupees 4908148 outstanding at its close, which was reduced to Rupees 970421 at the end of Feby /59, or seven months after the end of the Fusly. The Ryotwar arrears on the last mentioned

date

date amounted to Rupees 879694; but of this sum not less than Rupees 577297 was left uncollected in Tanjore under the orders of Government.* It is not apparent why this amount still appeared in the accounts of the District for January 1859, as the order for its relinquishment was unconditional. This the Board will be pleased to explain. ~~The~~ Omitting this sum, the total real outstanding Balance on the 1st February 1859 was only Rupees 393,124. This amount is stated to be still in course of realization. It does not appear to what period this last statement refers whether to the 1 Febru 1859

* July 13th 1858 No 957 Para 3.

1859 or to the present time; but the Governor in Council resolves to point out to the Board the importance on every account of promptness in dealing with these arrears. It is a good rule that the outstanding Ryotwar arrears of one year should be carefully investigated at the ~~settlement~~ of the succeeding year, the irrecoverable portions remitted, (subject to the final orders of Government), and prompt measures taken to realize the properly recoverable portions.

15. The Governor in Council relies on the Board of Revenue to enforce the invariable observance of this rule. But in future under the greater facilities for collecting the Revenue and the diminished burden of the demand in most Districts, he trusts that the proportion unrealized at the close of the year, and still more six months after it, will be very greatly reduced. On this point the Board of Revenue will be requested to call the careful attention of Collrs to the views of Government as expressed in Para 4. of the order of the 25th July 1859 No. 992. ~~and to enjoin a punctual observance of it.~~ In particular, care should be taken that Village Officers and head ryots pay their own Kists in due time, instead of merely collecting

those of the poorer ryots.

16. The Board mention that no more than Rupees 8327 were realized during the year by the sale of property. This fact is gratifying so far as it goes to shew prosperity on the part of the payers; but the Government wish it to be clearly understood by Collectors that they consider punctuality and exactness in the realization of the revenue to be more important than the avoiding of compulsory process.

17. The arrears of all kinds outstanding at the commencement of the Fusly amounted to Rupees 8,52,802, but had been reduced at the date of the Boards' latest account to Rupees 4,26,928. This sum however included Rupees 2,18,621, quoted by the Board as ordered by Government to be remitted when reviewing the Board's report for Fusly 126

February 12th 59 No 195 Para 15

The Govt. have on former occasions noticed the inconvenience of thus bringing forward again amounts already ordered to be struck off; it is caused in part by the lateness of the period at which the Boards annual reports are submitted, but it may probably

18 The amount just stated being deducted, there remains a real outstanding arrear of Rs 903307. Of this sum the Board recommend the remission of Rs 430505-8, as irrecoverable. They state that careful enquiry by the Collrs has satisfied them that the recovery of this sum is hopeless: and the Governor in Council sanctions its remission, being satisfied that at this late period at least it may well be deemed so.

be treated. In the present case the Govt have further to remark that the sum stated by the Board does not tally with the order quoted. That order remitted an arrear of 9535 Rs as recommended by the Board, while the sum now stated to have been so remitted is Rs 218,621. The Board will be pleased to explain this discrepancy.

19 There remains a sum of Rupees 477,801-8 which the Board, following the Collectors, class as "recoverable or doubtful", and which they recommended to be "reserved for future investigation." This sum consists of the following items.

Peshkash	8,540
Ryotwar	413,976
Total land	422,516
Abkari	20,145
Motarpha	4,040
Total sundry sources	24,185
Extra Revenue	21,966
Interest	9,135
Total	31,101
Grand Total	477,802

20. The following statement shews the total

of all items in each District.

District	Peshcush	Ryotwar	Sundry Sources	Extra Revenue	Interest	Total
	Rs	Rs	Rs	Rs	Rs	Rs

Total	8540	413976	24185	21966	9135	477802

21 The largest item, as was to be expected, is Ryotwar land revenue, & this is found chiefly in

the

	Rs
Guntoor	136,476
Nellore	29,880
Chingleput	27,795
Tanjore	128,000
Madras	29,776

the five Districts named in the margin. The large sum in question belongs to Fusly 1266 and previous years, I. E. no part of it accrued later than June 30th/57. It does not appear for how many years the arrears extend back. It may well be asked both what likelihood is there, at this late date, of any considerable part of this sum being collected, and why enquiry has not long since been made to determine what that portion is, or rather why all the recoverable part has not been long ago recovered. The Governor in Council considers the continued existence of large uninvestigated arrears to be discreditable to the administration of the Districts concerned, and he resolves again to call the attention of the Board and thro' them of Collectors to the rule referred to above in Paras 14 and 15.

22. Some other items call for remark. The Peshkash balance ought to have been explained, as a general rule old arrears of that nature ought not to occur except when the property has been sold and has failed to satisfy the demand. It is to be presumed that the abkari balance includes that of Mr. Kenrick in [illegible] which has been ordered to be written off. The large balance under the head of extra revenu should be carefully scru-tinized, it is believed that much evasion takes place in this ite. The cause of the balance on account of interest is not apparent.

Order 6 Aug/59 No 1055

23. In conformity with the Board's recommendation, the Governor in Council permits the amoun of all these arrears to be retained for in-vestigation. But he desires that no time

may be lost in making the necessary enquiry and reporting the result. He regards old arrears as a great evil, and as affording the means of much abuse and extortion. And he must again express his hope and expectation that henceforward the revenue will be punctually realized from all payers, both rich and poor.

24 Before quitting this subject the Govt must remark that the heading of Col. 15 of statement 4 is misprinted throughout, being right time over. The blunder makes

nonsense

nonsense, and it is not without some pains that the real meaning is discovered. Whatever may be the arrangements for correcting the Press of the Boards' papers in general, the Government have a right to expect that in documents of importance, special means will be taken to ensure correctness. ~~It cannot be too much to require that the Board's Secretary or Sub Secretary should look over the Proofs~~

25 In closing these remarks the Government in Council must

express his sense of the efficiency which the report indicates on the part of the Collectors and their numerous assistants and subordinates European and native. The ryotwar land revenue is not only settled within the year, but is collected also with a high degree of punctuality paid not much less than a million and a half of pagodas, and with a comparatively very small amount of complaint. His Excellency in Council will not say that he is fully satisfied with the degree of punctuality attained, he thinks on the contrary

x amounting to 1309815

as

as already said, that more is attainable especially in certain Districts, by the di use of the means lately placed at the command of Collecto But he has pleasure in recording his de -berate opinion that actual state of the c in this respect in th year under review, under the then existi law is very creditable to the Revenue Esta -blishments-

26 The acknow- ledgments of Govt. a due to the Board of Revenue, not less for the clearness with which the Revenue histor

4-1-08 ✓

history of the year has been placed before them for the care which they bestow on the regulation of the revenue, especially to relieve undue pressure where it is found. The Governor in Council must observe however that it is extremely desirable that these annual reviews should be completed at a much earlier period. He trusts that the Report for the Fusly year 1268 (A.D. 1858/59) will be before Govt. at latest by the 31st Dec. next, being six months after the close of the Fusly. The Government attach much importance to this point for the value of such Reviews of administrative results is greatly deteriorated by the lapse of time.
