No. 54. Read the following Proceedings of the Board of Revenue, dated 6th October 1859, No. 4024.

Read the following letter from C. W. READE, Esq., Collector of Vizagapatam; to W. HUDLESTON, Esq., Acting Secretary to the Board of Revenue, Fort Saint George, dated Vizagapatam, 17th September 1859, No. 893.

During my residence at Nursapatam in the last three months of the past year, my attention was directed to the very great scarcity of water in that neighbourhood, and the measures I devised, in consultation with the Engineer, to meet the evil in future seasons, have already been submitted to the Board. One result of a deficiency of water is the increase in a town of those nuisances which it may be said, the apylication of water can alone remove, but while this element was wanting to adequately supply the necessities of the population, to say nothing of their cattle, the Board will understand how that water was altogether unavailable for every other purpose. Captain Owen, at that time, brought prominently to my notice the accumulation of filth in the town of Nursapatam, and he pointed out the probable effects on the health of the people if a remedy were not applied; I was satisfied of the force of Captain Owen's representation, and at once sanctioned an expenditure of Rupees 150 towards the cleansing of the streets, and there can be little doubt, I think, that this timely assistance was most beneficial, and it may have averted the spread of those common epidemics, and which at a season of peculiar drought are always more virulent than at other times.

2. The money I consider was legitimately advanced under the provisions of Act XXI. of 1841, and to enable its adjustment in my accounts with the Civil Auditor and Accountant General, I solicit that the early sanction of Government be obtained for its disbursement.

Submitted for the orders of Government, with the Board's recommendation that sanction be granted for the expenditure of Rupees 150, incurred by the Magistrate's order in cleansing the streets of Nursapatam, on the representation of the District Engineer.

2. The Board do not, however, consider that the Act quoted contemplates the expenditure by Government of the sums necessary to effect its object, the removal of nuisances, but that they should be levied as a fine from those who caused the nuisance, and although assistance may be needed in the first instance to get rid of the accumulation of years, the Magistrate should use the powers conferred on him by the Act, as regards the future.

No. 55. ORDER THEREON 5th November 1859, No. 1504.

The expenditure reported by the Board was wholly unauthorized, and had Mr. Reade been still in the District the Government would have refused to sanction it; under existing circumstances however they grant sanction for the outlay.

2. With reference to this case, and to that noticed in the order noted in the margin, the Governor in Council desires that the Board will make all Collectors understand that such expenditures for local purposes form no proper charge on the general revenue, and will not be sanctioned by Government. The legitimate mode, and the only really effectual one, of meeting such local wants is by local or municipal action; and the Government have recently declared their readiness to aid such action. To supersede such action by direct Government expenditure is in fact to retard improvement, not to advance it.
