No. 6. Read the following Proceedings of the Board of Revenue, dated 28th October 1859, No. 4418.

Read letter, dated 17th September 1859, No. 894, from the Collector of Vizagapatam, submitting an application from one Mootoomarry Sunyassy Chetty, an inhabitant of Madras, for a grant of waste land of the value of 60 Rupees in endowment of a choultry erected by him in the Vizagapatam district.

(In Con. 24th September 1859, No. 4817.)

Resolved that the letter above recorded, be submitted for the consideration and orders of the Honorable the Governor in Council.

2. The choultry in question is built on the high northern road near the travellers' bungalow at Nakkapalli, and from the petition of the founder to the Collector, it appears that no endowed or other choultry is situated within a range of 15 miles from it. The ground on which the building stands belongs to G. N. Ganapathy Row.

Enclosure 1.

3. The plan accompanying the Collector's letter shews the accommodation provided for Bramins and Soodras and the inferior castes, in separate buildings on opposite sides of the road. The cost of the whole, including a tank, two wells, five bazars and a tope, is stated to be 10,000 Rupees. The Board think the accommodation provided for the inferior castes, as inadequate in comparison with that provided for Bramins and Soodras; but considering the great expense which the founder has incurred, they are unwilling to lay much stress on this objection.

4. As the Collector reports that the choultry, (which is now completed,) will be a great boon to travellers, the Board recommend that sanction be granted for the assignment of waste land of the value of 60 Rupees per annum, as an endowment for the maintenance of the building in repair, the land being selected from the waste in the Government talook of Survasiddee.

No. 7. ORDER THEREON, 21st November 1859, No. 1582.

The Board of Revenue will be requested to inform Government on what road the Sattiram in question is situated, as that information is not to be found in the papers. It should also be stated whether there is much traffick on the road.

2. The extent of the accommodation provided for classes other than the Bramins, Bannians, Gentú and Moodely castes, should also be stated. It appears from the plan, as the Board remark, to be extremely scanty.
