

Revenue Department

N^o. 200

Dated 14 - 2 - 1859

200

Fort Saint George, Revenue Consultation of 15th February 1859.

No. 56. Read the following Extract from the Proceedings of the Board of Revenue, dated 9th February 1859, No. 476.

Read Extract Minutes of Consultation, dated 22d January 1859, Revenue Department, No. 90, communicating an Extract Minutes Consultation in the Public Department regarding a supply of Imphee seed obtained from the Cape of Good Hope; and requesting the Board to ascertain and report whether any quantity of the seed will be required for experimental purposes in the Collectorates of the Madras Presidency.

(In Con. 25th January 1859, No. 326.)

The Board have received a small quantity of Imphee seed from Dr. Balfour and forwarded the same to the different Collectors. The quantity supplied is however very small and they do not anticipate much advantage from so limited an experiment. The Board think it would be desirable to procure a further supply, and to send it to the Collectors of those districts where Sugar Cane cultivation is most extensive in order that the experiment may be tried on a sufficiently large scale. If enough seed cannot be procured for this purpose, the Board think it would be best to send whatever quantity may be received to the Horticultural gardens, where it might be sown chiefly with a view to obtain a sufficiency of seed for next season, a portion of the plants being however reserved for experiment at those places.

(A true Extract.)

(Signed) J. D. SIM, *Secretary.*

No. 57. ORDER THEREON, No. 200; dated 14th February 1859.

Ordered to be communicated to the Public Department, with reference to Extract Minutes of Consultation in that Department dated 14th January 1859, No. 63.

(Signed) J. D. BOURDILLON,

Secretary to Government.

No. 476.

EXTRACT from the PROCEEDINGS of the BOARD of REVENUE, dated 9th February 1859.

Read Extract Minutes of Consultation, dated 22d January 1859, R. D., No. 90, communicating an Extract Minutes Consultation in the Public Department regarding a supply of Imphee seed obtained from the Cape of Good Hope; and requesting the Board to ascertain and report whether any quantity of the seed will be required for experimental purposes in the Collectorates of the Madras Presidency.

(In. Con. 25th January 1859, No. 326.)

2d Feb. 1859. The Board have received a small quantity of Imphee seed from Dr. Balfour and forwarded the same to the different Collectors. The quantity supplied is however very small and they do not anticipate much advantage from so limited an experiment. The Board think it would be desirable to procure a further supply, and to send it to the Collectors of those districts where Sugar Cane cultivation is most extensive in order that the experiment may be tried on a sufficiently large scale. If enough seed cannot be procured for this purpose, the Board think it would be best to send whatever quantity may be received to the Horticultural gardens, where it might be sown chiefly with a view to obtain a sufficiency of seed for next season, a portion of the plants being however reserved for experiment at those places.
