Revenue Consultations.

No. 653

Dated 11th to 17th May 1859

No. 12. Read the following Extract from the Proceedings of the Board of Revenue, dated 30th April 1859, No. 1505.

Read letter from the Collector of North Arcot, dated 20th December 1858, No. 277, forwarding a statement of the cultivation of old Garden lands in his District during Fuslies 1265, and 1266.

(In Con. 28th December 1858, No. 5777.)

Resolved that the above letter be submitted for the information of Governmement.

In Extract Minutes Consultation, dated 16th May 1854, No. 565, R. D., certain reductions were sanctioned in the assessment of old well garden lands of North Arcot, and the Collector (in the last para.) was called upon to report the results of the relief afforded.

In Con. 18*th May* 1859 *No.* 1654.

His first reply to this call showed only a slight increase (38 cawnies) in the cultivation, and as Fusly 1264 was the first year of the introduction of the new rates, the Board deemed it unnecessary then to submit the Collector's letter for the information of Government, and desired him to report specially again, after the close of Fusly 1266, what had been the results during that and the preceding year. This information has been now furnished in the letter above recorded.

2. Combining this with the information already submitted by the Collector with his previous letter, the results noted in the margin are obtained, from which it will be seen that, compared with Fusly 1262, a very favourable year, the cultivation of Fusly 1266 exhibits an increase of 134 cawnies bearing an assessment at the revised rates of Rupees 2,426. This increase is inconsiderable and makes good only in part the Revenue* given up by the reduction; but the rise has been steady, notwithstanding the unfavorable character of Fuslies 1265 and 1266. The general revision of assessment since carried out (in Fusly 1267) will doubtless lead to a still further extension of cultivation. The extent of waste land available for this purpose in Fusly 1266 was 1,312 cawnies with a modified assessment of Rupees 16,876.

	Extent of Cultivation. Cawnies.	Former Assessment. Rupees.	Assessment at the reduced rates. Rupees.
Fusly 1262	1,193	20 929	13,760
,, 64	1,231	,,	14,503
,, 65	1,284	,,	15,210
,, 66	1,327	,,	16,186

* *Rupees* 7,168-6-4 *calculated on the actual cultivation of Fusly* 1262.

(A true Extract.)
