*Proceedings of the Madras Government Revenue Department,
from 9th to 15th July 1859.*

Ordered that the following letter be despatched.

No. 16. From J. D. BOURDILLON, Esq., Secretary to Government, Revenue Department; to the Commissioner of Nagapore; dated 9th July 1859, No. 918.

The Godavery river being now ascertained to be navigable by Steamers, and there being several such vessels upon it, besides a number of cargo boats, this Government are anxious to take advantage of the facilities so afforded for the conveyance of sea Salt into the interior, where the bulk of the population now rarely use that article. With this view they contemplate the early establishment of Depôts at proper intervals and at central places along the river. They are anxious to obtain your support and assistance in this object; and I am directed to request that you will cause the necessary aid to be given to the officers engaged on the duty, and that you will also give such ground as may be necessary for the buildings and other uses connected with the Salt stores. I am desired to add that the exact localities proposed for the Depôts will be made known to you hereafter.

*this view they contem-
plate the early
establishment*
