In reply to the extract from the Proceedings of the Government, dated 27th ultimo, No. 1776, I have the honor to state that, in forwarding the report on the salt weighing machines, dated 5th December 1857, I mentioned in my official memorandum of the 22nd ultimo, No. 22, "that the salt department had nothing further to add on the subject."

2. I beg now to repeat that assertion, the machines have been in constant use and give satisfaction, and the only improvement which the department can suggest, was reported by the late superintendent of salt in his letter of the 3rd December 1857, (copy forwarded with my memorandum of the 22d ultimo), and is mentioned in paragraph 1 of Extract Minutes of Consultation, 27th May 1858, No. 695, viz. that the balance should weigh two instead of one Indian maund of salt.
