No. 106. Read the following Proceedings of the Board of Revenue, dated 11th January 1860, No. 147.

Read letter from the Collector of Ballári, dated 22d December 1859, No. 192.

(In Con. 29th December 1859, No. 6472.)

In Con. 19th Nov. 1859, No. 5798.

Resolved that the above letter be submitted to Government, with reference to their order, dated 18th November last, No. 1567, Revenue Department.

2. In this letter Mr. Hathaway submits the further information required by Government regarding the compensation proposed to be paid to certain Raiats and Inámdárs for losses consequent on the encampment in their villages of the 35th Regiment Native Infantry.

3. Mr. Hathaway fully meets the several requisitions of Government in the order in which they were made, and it is unnecessary, therefore, for the Board to recapitulate his explanation.

4. The only remark they have to make is on the latter part of paragraph 5 of his letter, where he states, that the gain by high prices was in some cases set off against the loss by the encampment of the Regiment. Such gain may fairly be regarded as a set off against ordinary losses by bad seasons or other similiar risks to which landholders are subject in the pursuit of their calling, but damage by troops cannot, in the Board's opinion, be considered as coming within this category, and they think, therefore, that full compensation should in all cases be awarded to the sufferers. If Government concur in this view they will desire the Collector to submit a supplemental statement for sanction, as it is undesirable that the grant of compensation already proposed should be further delayed.

5. The Collector will also be informed that the correct plan of computing compensation in cases like the present, is to calculate, as fairly as possible, the *actual* loss sustained, and not merely to remit the Government assessment. The latter course, it is obvious, will, where the loss of crop is complete, deprive the landholder of all return for his labor, seed, &c. To calculate the actual loss, however, with any degree of confidence, it is essential that delay should not be allowed to occur in the enquiries.
