G.O. No. 1577 — Press ~~Mis.~~

183-184

Dated 12-9-1860.

Not to be folded or roughly handled

EXPLANATORY MEMORANDUM.

No. 183.

Vide Proceedings of Madras Government, dated 8th June 1860, *No.* 947.

1. The Trichinopoly and Krishna Settlement parties have turned out more than the full amount of Classification and Demarcation in this month. The Godavery party is being withdrawn into Office to write up accounts, as the work in that District is now drawing to a close. Hence the limited area of work. A few hands are endeavoring to carry on preliminary work in the Wainád, but the heavy rains present a great impediment to work of all kinds.

2. The Trichinopoly and Salem Survey party has this month get through as much as 150 square miles, which is over the average monthly standard. The Godavery Survey party has done 77 square miles, and the Krishna party 52 square miles, the former is an advance on last month's work which was 61 square miles, and the latter is about the same as in last month. In the Godavery party one Sub-Assistant and two Head Surveyors were sick and one under training, and the full number of Amíns were not at work all the time. The difficulty of getting measurers, and the cultivated lands being scattered and often surrounded by jungle, which required to be cleared, are stated among the hindrances. In the Krishna party only a limited number of Amíns were at the ordinary field work, several having been withdrawn for testing in order to complete work before the monsoon.

3. The small Wainád detachment employed in Salem turned out a full amount of work compared with its strength.

(Signed) H. NEWILL,
Director of Revenue Settlement.
