Proceedings of the Madras Government, Revenue Department, 25th September 1860.

No. 448. Read the following Proceedings of the Board of Revenue, dated 19th September 1860, No. 4,259 :—

Read the following letter from J. SILVER, Esq., Collector of Tinnevelly, to J. D. SIM, Esq., Secretary to the Board of Revenue, Fort Saint George, dated Tinnevelly, 15th September 1860, No. 350 :—

SIR,

1. I have the honor to inform you that since the date of my last report, there have been slight freshes in the Cunnadien channel, which is the first and one of the chief water courses, taken off the Tambrapoorney river. There was partial rain in the Táluqs of Strívalliputtúr, Sáttúr and Tinnevelly, which proved beneficial to the standing wet, dry, and garden crops, as well as to the seed beds now being sown for the Peshanum cultivation, and to the dry lands being prepared for cultivation. There was no rain in other parts of the District. No freshes came down the river Tambrapoorney and other minor rivers. The rain-fed tanks received no fresh supply of water.

2. The wet crops dependant upon the main river Tambrapoorney, in the limits of Ambásamudram, Tinnevelly and Vidugramam Division, and those under irrigation of the minor rivers in the limits of Tenkási, Nanguneri and Valliyúr Division, have in some places perished, and in others, they are languishing for want of water. The same is the case with the crops under rain-fed tanks.

3. The Statement in the margin will show the extent of cultivation up to 7th September in contrast with that of the corresponding period of the last year.

	Fasli 269			*Fasli* 270.			*Decrease.*			
Wet seed Cottahs...	41,531	18	$5\frac{3}{0}$	23,417	10	$3\frac{1}{2}$	18,114	8	$1\frac{7}{8}$	
Garden do. ...	1,715	12	$4\frac{7}{8}$	1,540	9	$2\frac{1}{8}$	75	3	$2\frac{5}{4}$	
Dry chains.....	7,404		$\frac{1}{16}$	3,419		$\frac{5}{32}$	3,984		$\frac{9}{32}$	

4. The price of grain continues stationary. Paddy is being exported to Travancore and no grain is imported into this District.

Submitted for the information of Government in continuation of the Board's Proceedings, dated 13th September 1860, No. 4,163.

(A true Extract and Copy.)

(Signed) J. D. SIM, *Secretay.*

No. 449. ORDER THEREON, 25th September 1860, No. 1,707.

The Board will instruct the Collector to compound the fractions in future similar Reports in the Statement given in paragraph 3.

Secretary to Government.

No. 4,259.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 19th September 1860.

Read the following letter from J. SILVER, Esq., Collector of Tinnevelly, to J. D. SIM, Esq., Secretary to the Board of Revenue, Fort Saint George, dated 15th September 1860, No. 350 :—

1. I have the honor to inform you that since the date of my last report, there have been slight freshes in the Cunnadien channel, which is the first and one of the chief watercourses, taken off the Tambrapoorney river. There was partial rain in the Taluqs of Streevillipoottoor, Sauttoor, and Tinnevelly, which proved beneficial to the standing wet, dry, and garden crops, as well as to the seed beds now being sown for the Peshanum cultivation, and to the dry lands being prepared for cultivation. There was no rain in other parts of the District. No freshes came down the river Tambrapoorney and other minor rivers. The rain-fed tanks received no fresh supply of water.

2. The wet crops dependant upon the main river Tambrapoorney, in the limits of Ambasamoodrum, Tinnevelly, and Vidoogramum Division, and those under the irrigation of the minor rivers in the limits of Tencausey, Nangoonary, and Vullyoor Division, have in some places perished, and in others, they are languishing for want of water. The same is the case with the crops under rain-fed tanks.

3. The statements in the margin will show the extent of cultivation up to 7th September in contrast with that of the corresponding period of the last year.

	Fasli 1269.	Fasli 1270.	Decrease.
Wet seed Cottahs....	41,531 18 $5\frac{3}{8}$	23,117 10 $3\frac{1}{2}$	18,114 8 $1\frac{7}{8}$
Garden do. ...	1,715 12 $4\frac{7}{8}$	1,540 9 $2\frac{1}{8}$	175 3 $2\frac{3}{4}$
Dry chains.....	$7,404\frac{1}{16}$	$3,419\frac{5}{32}$	$3,984\frac{2}{32}\frac{9}{32}$

4. The price of grain continues stationary. Paddy is being exported to Travancore, and no grain is imported into this District.

Proceedings of the Board of Revenue
Dated 19th September 1860.
Read the following

(No 3350)

From J. Silver Esqre.
Collector of Tinnevelly

To J. D. Sim Esqre
Secretary to the Board of Revenue
Fort St George.

Sir,

I have the honor to inform you that since the date of my last report, there have been slight freshes in the Cunnadeen channel, which is the first and one of the chief watercourses, taken off the Tamraparney river. There was partial rain in the Talugs of Shanmukhapooram, Sheddiar, and Tinnevelly, which proved beneficial to the standing wet, dry, and garden crops, as well as to the seed beds now being sown for the Pushanum cultivation, and to the dry lands being prepared for cultivation. There was no rain in other parts of the District. The freshes came down the river Tamraparney and other minor rivers. The rain fed tanks received no fresh supply of water.

2. The wet crops dependant upon the main river Tamraparney, in the limits of Ambasamudram, Tinnevelly and Vickramasingapuram Division, and those under the irrigation of the minor rivers in the limits of Tenkasy, Sangarankoil, and Vallyoor Division, have in some places perished, and in others, they are languishing for want of water. The same is the case with the crops under rain fed tanks.
