Proceedings of the Madras Government, Revenue Department,
26th September 1860.

No. 462. Read the following Proceedings of the Board of Revenue, dated 4th September 1860, No. 4,044:—

Read the following letter from J. W. B. DYKES, Esq., Collector of Nellore, to J. D. SIM, Esq., Secretary to the Board of Revenue, Fort Saint George; dated 18th August 1860, No. 132:—

SIR,

1. At a recent meeting of the Langarkhana Committee, it was suggested that measures should be taken for providing this well-endowed charity with suitable accommodation for in-door relief; and I at once offered to bring the matter to the notice of the Board, as it was manifest that so long as operations were wholly confined to out-door relief, the objects of the charity were very imperfectly met, and it seemed to me, that, owing to recent changes, the requisite accommodation might be readily obtained.

2. In my report on the Institution under date the 12th June last, I prominently alluded to this want, and I now do myself the honor of requesting that the Board will be pleased to submit for the consideration of Government, whether the Military Hospital at this station may be made over to be used as a Langarkhanna. It is admirably adapted for such purposes, both as regards construction and site, as will be seen from the accompanying plan; and as it is no longer required for the purposes for which it was built, in consequence of the detachment of the Native Veterans having been broken up, on the new Police taking charge of the station, and is now standing without any establishment to look after it, the proposed arrangement, I would respectfully submit, would be the most appropriate way of disposing of it.

3. The building, though in good order, is, I believe, an old building, and may be valued from an estimate, which I have had made of it in my office, and also enclose, at Rupees 2,730.

4. Should this application be successful, I would further request that sanction may be given for the disbursement of Rupees 136-0-7, the amount shown in the report above referred to, to have been underdrawn for the Langarkhana during the last official year, and which amount might be laid out with advantage in making various minor arrangements as regards the fitting up of the building as a Langarkhana for in-door relief.

Submitted to Government with the Board's recommendation that the building in question, and the unexpended balance of the year may be placed at the disposal of the Committee for the purpose stated.
