No. 336. Read the following Proceedings of the Court of Wards, dated 26th October 1860, No. 4,945 :—

Read the following letter from G. PEARSE, Esq., M.D., Principal Inspector General, Medical Department, to J. D. SIM, Esq., Secretary to the Court of Wards, Fort Saint George, dated 6th September 1860, No. 1,572.

SIR,

1. In reply to your letter No. 3,524, of 1st ultimo, I have the honor to inform you, that no supervision is exercised by the Deputy Inspector General of Hospitals, Northern Division, over the Dispensary at Kimidi, the institution having heretofore been considered a private one.

2. With regard to the Assistant Apothecary in charge, I have every reason to suppose that he is qualified for the duties devolving on him. Having been some years at Kimidi, he will probably be removed shortly, for a tour of duty elsewhere.

3. If desired, the Deputy Inspector General of Hospitals can, on his next tour of inspection, be directed to visit and report on the progress of the Dispensary.

4. With regard to Vaccination, a proposition is now before Government, to employ a better class of men than those at present entrusted with the duty. It may perhaps be advisable to place the Vaccinators now employed on the Estate under the control of the Apothecary, and in that case he should furnish regular returns of the work performed to the Deputy Inspector General of Hospitals, Northern Division. On this subject, however, I cannot give a decided opinion until the sanction of Government has been obtained to the proposed scheme, for improving the Vaccination Establishment.

———

1. The Court of Wards think it very desirable that the Hospital should be placed under proper supervision, and they request the Principal Inspector General to adopt the course proposed by him in paragraph 3 of this letter for the present.

2. In regard to the Vaccinators hitherto employed, the Court will await the decision of Government on the Inspector General's scheme for the improvement of the Vaccination Department.
