2. A ten years average of Beriz from Fasli 1259 to Fasli 1268 gives a result of Rupees 1,185-11-4. The ten years average on which the Jáhgír was valued, when given in exchange for the lands originally granted, gave Rupees 1,112 per annum as the Beriz.

3. A deduction of 10 per cent. from the latest averages to cover expenses of collection, would leave the annual net Beriz at Rupees 1,067-11-4, equivalent to a monthly payment of Rupees 88, and the Board resolve to recommend that a monthly allowance of Rupees 90, be offered to Hannifah Bi, the Jáhgírdár for life, in commutation of the Jáhgír grant, with the distinct understanding that it will be similarly limited, and will terminate absolutely with her life.

4. The Board adopt this amount, as the expenses of collection to Government will probably be less than 10 per cent. on the Beriz, and also because there are probably some trifling advantages derived by the family from the Jáhgír beyond the money revenue, which will cease with its transfer to Government.
