Dated 15—12— 1860.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 18th December 1860.

Read the following papers:—

No. 307. Proceedings of the Chief Engineer, dated 16th November 1860, No. 7,065.

Read letter from Captain E. H. HARINGTON, District Engineer, Ganjam, to the Deputy Chief Engineer, Northern Circle, Department Public Works, Fort Saint George, dated Chicacole, 21st October 1860, No. 243.

SIR,

1. With reference to the Chief Engineer's Proceedings, No. 3,614, under date 10th August 1860, and my letter No. 150, dated 18th August 1860, I have the honor to inform you, that I have now received a list of villages from the Collector. As the map is to be two miles to the inch, and is to show natural features and many other details, and will be some six feet long, by nearly five feet wide, its preparation will be a work of very great labor. An inspection of the published sheets four miles to the inch, Nos. 107, 108, will give some idea of the work required, if they are to be written by hand, and twice the size. The Draftsman of my Office, with many other duties to do, cannot possibly spare time to it. If, therefore, the map is still required, I beg to apply for the services of an extra temporary Draftsman, on Rupees 20 a month, for three months.

2. I have forwarded through the Collector to Mr. Pelly every map required by Government in Order No. 780, 13th June 1859, and also *another* sketch map, showing old and new Táluq boundaries, as requested in Mr. Pelly's Circular, No. 353, 4th July 1860. *Another* requisition has now come for a fresh map of the coast, on a scale of four miles to the inch, showing all Salt Pans, Ports, &c.

3. Government in the order above referred to, provided for the preparation of the required maps, being as simple as possible. It has now become very intricate, and I beg to state for consideration, that the demands on the time and labor of myself and my establishments are already so heavy, that I do trust extra duties may not be unnecessarily imposed.

4. If larger maps, than the present very clear and complete published Trigonometrical Maps, are required, I submit that it would be better to arrange for their preparation in Offices or Departments, specially furnished with machinery and agency for the express purpose.

---

1 *Enclosure.*
1 *Application.*

Submitted to Government, with the Chief Engineer's recommendation, that, under the explanation afforded, sanction be granted for the entertainment of the extra Draftsman for three months on a salary of 20 Rupees a month.

(Signed) W. H. HORSLEY, Lieutenant-Colonel,
Chief Engineer.

No. 308. Official Memorandum from C. PELLY, Esq., Member of the Board of Revenue, to J. D. SIM, Esq., Acting Secretary to Government, Revenue Department, Fort Saint George, dated 26th November 1860, No. 640.

The map which the District Engineer is required to prepare is that ordered by Government under dates the 17th June 1859, No. 1,803, and 31st October 1860, No. 2,002, which is now under preparation in all Districts, and has been received completed from Malabar. The sketch map showing the Salt stations and Sea Customs alluded to by the District Engineer is required to accompany my Report on the establishments, and would not occupy scarcely any time in copying from the Trigonometrical map.

No. 309. ORDER THEREON, 18th December 1860, No. 2,440.

1. With his endorsement of 16th November recorded above, the Chief Engineer lays before Government with his support, an application from the District Engineer of Ganjam for the services of an extra Draftsman for three months on a salary of Rupees 20 a month, for the purpose of preparing two maps, one of which seems to be for the Chief Engineer and the other for Mr. Pelly. The Government learn from Mr. Pelly's Memorandum of the 26th idem, also

recorded above, that the map referred to as under preparation for him is to show the Salt Pans and Sea Ports of the Districts in illustration of the Report he is preparing on the Salt and Sea Customs establishments, and that it may be easily copied from the Trigonometrical Survey map.

2. The Government do not quite understand for what purpose the other map mentioned is required.

3. No application has been received from any other District for extra aid for the preparation of maps, and there seems no reason why such aid should be needed only in Ganjam. The Government must therefore decline to entertain the present application, unless stronger reasons can be shown for making an exception in its favor.

(Signed) J. D. SIM,

Acting Secretary to Government.

№ 2440

Proceedings of the Madras Government.

Under date the 18th December.

Read the following papers

From the Chief Engineer

Submits with recommendation letter from the District Engineer Ganjam applying for sanction for the entertainment of an extra draftsman for 3 Months on 20 Rupees a month to prepare a map required by Mr Pelly

/Here enter 16th Nov.r 760 №. 7065/

Memo from C. Pelly Esq.r

Making certain observations as to the object of the 2nd set of Maps ordered to be prepared

/Here enter 26th Nov.r 760 №. 6401/

With his Endorsement of 16th November recorded above, the Chief Engineer lays before Government with his support, an application from the District Engineer of Ganjam for the service of an extra Draftsman for three months on a salary of Rupees 20 a month for the purpose of preparing 2 Maps one of which seems to be for the Chief Engineer and the other for

Mr Pelly

Application for a temporary increase to the Establishment of the District Engineer Ganjam

P 2038

Mr. Polly. The Government learn from Mr. Polly's Journal of the 26th Inst. also recorded above, that the map referred to as under preparation for him is to show the salt pans and Sea ports of the Districts in illustration of the report he is preparing on the salt and sea Customs establishments and that it may be easily copied from the Trignometrical Survey map.

The Government do not quite understand for what purpose the other map mentioned is required.

No application has been received from any other District for extra aid for the preparation of Maps ~~in question~~, and there seems no reason why such aid should be needed only in Ganjam. The Government must therefore decline to entertain the present application; unless stronger reasons can be shown for making an exception in favor of ~~other Districts~~ its.
