G.O. No. 379	Press ~~Mis.~~
25-26	
Dated 14 — 3 — 1860.	

Not to be folded or roughly handled

No. 25. Read the following Proceedings of the Board of Revenue, dated 23rd February 1860, No. 957.

Read letter from Collector of Madras, dated 16th February 1860, No. 35, requesting sanction for the expenditure incurred in employing Peons to watch the lands in Veyásarpádi taken for proposed new Platform and for the branch line of Railway to the Salt Kottárs.

(In Con. 17th February 1860, No. 736.)

Resolved that the above letter be submitted to Government, with the Board's recommendation that sanction may be granted for Rupees 226-6-4, being the expense incurred in maintaining possession of the Government land required for the Railway and Salt Platform at Veyásarpádi. Had not this precaution been adopted, the Mirásidárs would have taken possession, which they might have retained without payment of assessment, owing to the circumstance of the Collector having no power to attach or sell Raiyatwárí lands in Madras. The consequence would have been that Government would have been obliged to have recourse to an action on the Supreme Court for ejectment, or to have bought what was really their own land.

No. 26. ORDER THEREON, 14th March 1860, No. 379.

The charge reported in this letter is sanctioned.

2. The Government would wish to know from the Consulting Engineer what progress the Railway Company are making in the construction of the important branch line to the Madras Salt Kottárs.

(Signed) J. D. BOURDILLON,
Secretary to Government.

From B. CUNLIFFE, Esq., Collector of MADRAS,

dated Madras, 16th February 1860, No. 35.

I have the honor to request the sanction of the Board for the expenditure of Rupees 226-6-4, as per enclosed Account Particular.

2. Payment has been made under the head of "Advances on account of the service of Government," and this will require adjustment under the sanction now requested.

3. Government were, perhaps, fortunate in obtaining quiet possession, to maintain which the presence of the peons was necessary; had they been removed for a single day, the Mirasidars would probably have entered upon the ground.
