No 20.

To

G A Taylor Esquire

Chief Commissioner

at

Palamanair

Sir,

I beg to inform you that Ever since I entered the Commission which is now more than 10 months, I have been frequently suffering from fever which perswaded me from Cuddapah where I remained but a short time as Manager of the Collectors Office.

Early in the month of January last I was under the treatment of Dr Montgomarry at Madras. In the same month when I appeared before you at Rajahmundry after my landing from the Steamer "Ossiah" I was in a very weak state of health. On my arrival at Gudivada, the fever attacked me again and continued for a number of days & in the same state I proceeded to Bezwada and placed myself under the Medical treatment of Dr Rach in Medical charge of the Kristna Works. Afterwards I several times suffered from it during my stay at that place, & other Talugs where I conducted the Chief Enquiry.

Of late when I was at Chandolu the attacks.

attacks were more frequent than before and after my arrival at Guntur it returned. Here I am placed myself under the medical treatment of G Bidie Esqre Zillah Surgeon of this place. As the frequent attacks of bad fever, weakened my constitution good deal, I feal really very sorry to be obliged to apply for leave of absence for 3 months on sick Certificate to proceed to Madras or near it for the restoration of my health, and request that you will be good enough to grant me leave in due course.

Dr Bidie forwarded my sick Certificate to the Superintending Surgeon at Madras for his Countersignature; which I will send to you as soon as returned.

I beg to remain
Sir,
Your most obedient Servant
M Venkata Rahiam

Forwarded to the Commissioners
1st Dec. 1860 for the Collector

Febris Quot: Intermit:
M. Venkatasubbanum Pillay aet 37
of Native habit: Habit Temperate
Time of Life, sedentary occupation

Admitted on the 5th November 1860 complaining of Fever. Has for some time been taking Quinine &c but was not entered on sick list as he objected to leave off his work. Has under treatment in Madras in January, and in Bezoara in February 1853 for the same complaint. States that Fever was contracted in Cuddapah and that he has been scarcely free from it for any length of time during the previous year. Complains of pains in back & limbs and anorexia & debility. Tongue Pale. Pulse natural in frequency but weak. Bowels inclined to be costive. The Paroxysms of Fever commence in the usual manner preceded by a feeling of cold & during their recurrence the usual symptoms of Intermittent Fever are exhibited. On taking Quinine the Fever loses its periodic character and disappears for a few days, leaving him feeble and dyspeptic, but is sure to return unless daily doses of Quinine are taken. Has been taking Quinine &c. He has not however got better & does not feel equal to his laborious work, & as the Fever has troubled him for such a length of time I think it

Summary.
The Fever is distinctly periodic and remarkable for its obstinacy. Quinine checks it for the time being, but it is sure to return; and as its frequent recurrence has impaired his general health, a change of air is likely to be of the greatest benefit.

℞
Quinine Disulphas 3ij
Ingredia Sulphas 3ij
Infusion Quassiæ Co 3iv
Acid: Sulph: Dil m xx.
Aquæ Fontis 3iv.
