MADRAS RECORD OFFICE.

Government of Madras.

Revenue DEPARTMENT.

G.O. No. 917 Press ~~Mis.~~

29

Dated 2-6- 1860.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 2nd June 1860.

Ordered that the following letter be despatched.

No. 29. From J. D. BOURDILLON, Esq., Secretary to the Government of Fort Saint George, to the Chemical Examiner, dated 2nd June 1860, No. 917.

1. It has been asserted that the Salt of Malabar possesses less saline strength than that of Bombay. The Government desire to ascertain the truth of this statement, and I am directed to transmit to you four specimens of Bombay, Malabar, and Cochin Salt, with the request that you will at your early convenience analyse them, and report the result.

2. It is also requested that you will inform the Government what is the probable cause of the small size of the chrystáls of the Malabar (Ponany) and Cochin Salt, compared with that from Bombay; whether it is due to difference in the manufacturing processes, or to natural causes.

Rev Dept.

No. 977

From J. C. Lees Esq.
Secretary to the Govt of Bombay

To

The Chemical Examiner

Sir,

It has been asserted that the salt of Malabar possesses less saline strength than that of Bombay. The Government desire to ascertain the truth of this statement, and I am directed to transmit to you four specimens of Bombay, Malabar, and Cochin salt, with the request that you will at your early convenience analyse them, and report the result.

2. It is also requested that you will inform the Government what

is

is the probable cause of
the small size of the
crystals of the Malabar
(Ponany) and Cochin
salt, compared with
that from Bombay; whether
it is due to difference in the
manufacturing processes,
or to natural causes.
