PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from the Secretary to the Board of Revenue :—

Submitting the Board's Annual Report on the Settlement and Collection of the Revenues of this Presidency for Fasli 1268 (*A. D.* 1858-9), *with explanatory Statements drawn up according to the forms finally approved by Government.* } (Here enter 20th February 1860, No. 909).

ORDER THEREON, 8th June 1860, No. 950.

1. In the letter recorded above, with its enclosures, the Board of Revenue report upon the Settlement and Collection of the Revenues of the Madras Presidency for the Fasli year 1268 (A. D. 1858-9).

2. The season though not good, is described as having been much better than the preceding one. As a general rule the rainfall was deficient in the northern Districts; in many of those to the south it was abundant in the early part of the year, but deficient in the latter part. In the north, it is stated, the lands irrigated by the works depending on the Godavery and Krishna Anicuts, presented a marked contrast to other irrigated lands; bearing fine crops, while elsewhere the yield was very deficient. In Tanjore and Trichinopoly the north-east monsoon was productive of much damage; in the former District especially, much property in corn and cattle was destroyed, and even some villages were swept away.

Board, paras. 4 to 14

3. The Board remark that the Ganjam Rain Report is "obviously incorrect." It is to be regretted that they did not ascertain and rectify the cause before laying the Return before Government; there was ample time to do so while the paper was under disposal in their office. They will be good enough to do so now.

Para. 14.

4. The sanitary condition of the people seems to have been fair on the whole. Vaccination is making good progress in some Districts. The enhanced price which cattle fetch in Coimbatore may be partly attributable to the extended cultivation, and not wholly to losses from disease.

Paras. 15 to 17.

5. The year under report was remarkable for a great rise in the price of grain. The Board estimate this increase at 20 per cent. above the prices of the preceding year, which themselves were much higher than the average of the previous ten years.

Paras. 18 to 21.

6. The terms "land in occupation" in paragraph 24, and "actual cultivation" in paragraph 26, as employed in this Report, signify in fact the same thing. The former term is used to exclude the waste remitted, and the latter includes the waste not remitted. The only difference is that the "actual cultivation" includes in the money column, the assessment of second crop and additional assessment. The term "land in occupation" is usually taken as including all land in the Pattá, though excluded from the Settlement; and this in the opinion of the Government is its proper signification.

It appears from paragraph 25 that little less than four and a quarter lacs of acres of land in occupation were deducted at the Settlement. It is gratifying to find, however, that notwithstanding the unfavorable character of the season, the "actual cultivation" was larger by nearly 7,00,000 acres than that of the previous year.

The greatest increase in cultivation was in Tinnevelly, North Arcot and Nellore.

7. The following table extracted from the Board's Enclosure No. 3, gives the particulars of the land in occupation:—

	Extent.	Assesment.
Land in occupation at the commencement of the year.	135,94,131	320,83,414
Land given up during the year....	8,18,759	17,65,534
Remainder... ...	127,75,372	303,17,880
Land taken up during the year	12,78,572	32,07,410
Total	140,53,944	335,25,290
Deducted at the Settlement...	4,24,514	10,01,931
Remainder... ...	136,29,430	325,23,359
Particulars of the Settlement.		
Actual cultivation....	...	313,85,088
Waste charged.	...	11,38,271

Paras. 33 and 34.

8. The remission in the current year on account of Waste and Shavi, two items out of what are usually termed "Contingent yearly Remissions," as distinguished from "Fixed Remissions" and "Deductions from the Collections," amounted to a little over nine lacs of Rupees compared with nearly eighteen in the preceding Fasli. The net decrease in the whole of the Contingent Remissions as compared with Fasli 1267 amounts to nearly eight and a half lacs of Rupees. And this although there is upwards of a lac of Rupees more Kaul remission than last year.

Paras. 34 to 36.

9. In their review of the Revenue Administration of that Fasli, the Government recorded some remarks on the subject of Kaul remissions, and they now request the careful attention of the Board to those remarks. Then as now the increase of remission under this head was put down as the result of recent reductions of assessment. The Districts affected this year are two of the four then referred to, and the Governor in Council sees nothing in the arguments adduced by the Board to alter his sentiments then expressed.

26th September 1859, No. 1,301, para. 7.

10. "Jungle Rents" is not the head under which to put an item of the kind mentioned at the end of this paragraph, viz., Timber supplied to the Bombay Dockyards. A more appropriate heading should be adopted. No explanation is given of the cause of the delay in the receipt of the value of this timber. Had the Orders* of Government been duly followed such delay could not have taken place.

Para. 38.

* 22nd March 1855, No. 349, R. D., para. 4.

11. The increase in the Settlement of the Raiyatwár Districts is very gratifying as proving the full success of the late reductions in the assessment in various Districts. Those reductions have amounted in the whole to 26 lacs; and yet the entire Settlement of the Raiyatwár Districts in Fasli 1268, exceeded by 23 lacs the highest in any year previously to the reductions, which was Rs. 319,49,081 in Fasli 1262. The Board ascribe this increase primarily to the lowering of the assessment; and the Government fully believe that they are right in doing so, though other causes also have been in operation, as for example, the general increase in the prices of agricultural produce, as noticed by the Board, in paragraph 43, and improved irrigation, especially in the Godavery and Krishna Districts, as also noticed in paragraph 44.

Para. 42.

12. The total demand on account of "Sundry sources of Revenue" exceeded that of the previous year by Rs. 5,36,104, and that of the year before by nearly double that sum. There is an increase in every item; but the great bulk of the total increase is in Salt, nearly two lacs, and in Sea Customs 2,45,267 Rupees. Referring to what is said in paragraph 46 as to the Ábkárí in Rajahmundry and Tanjore, the Government request to be informed as to the period for which this branch of Revenue was leased in those Districts. It has been ordered by Government that such Farms should be for not less than five years.*

Para. 45.

* November 27, 1855. No. 1,294 para. 7.

13. The reason assigned for the increase in Salt wastage, viz., that in some Districts the wastage of former years had been retained in the accounts, though sanction had been already granted for writing it off, is discreditable to the Districts concerned, and care should be taken to prevent a recurrence of such carelessness. In accordance with the recommendation of the Board, the Governor in Council grants sanction for writing off the wastage amounting to Indian maunds 3,41,881.

Para. 52.

Para. 53.

14. The gross receipts on account of Salt as shown in paragraph 54 and in Statement No. 15, differ from the amount entered in paragraph 45; in the former it is given as Rupees 58,96,654, in the latter as Rupees 59,02,874. The Board will be good enough to explain this discrepancy. In reviewing the Report for Fasli 1257, the Government noticed (paragraph 10) the large increase in the charges of the Department; the cause of that increase was explained to be the increased manufacture. In Fasli 1268, the charges were less by 88,000 Rupees than in that year, and the net Revenue was larger by Rupees 2,90,000.

15. The practice mentioned at the end of paragraph 54 as existing in some Districts, of not disbursing or charging a portion of the cost of manufacture till the following year is irregular and on various accounts objectionable; the price should be paid immediately on receipt of the salt. The attention of the Collectors should be called to this; and now that there is a Deputy Collector in charge of the Salt Department in every Coast District, except Malabar where no Salt is made, it should be his duty to see that the article is promptly paid for.

16. Out of the whole demand of the Revenue for Fasli 1268, amounting to 536,42,538 Rupees, 496,11,960 Rupees was realized within the Fasli, and Rupees 28,12,052 subsequently up to the 30th November 1859. The balance still remaining at the date last mentioned amounted to Rupees 12,18,526, of which Rupees 11,59,932 was Raiyatwár. The Board notice, however, (paragraph 62) that not less than Rupees 9,18,808 of this sum has been already remitted by Government in Tanjore.* The Government have more than once directed that arrears once ordered to be struck off shall not be again brought forward; but in the present case the Order was in some degree conditional, depending on the acceptance by the defaulting Mirásdárs of the change of Revenue system ordered at the same time.

Para. 60.

22nd July 1859, R. D., No. 979, para. 12.

17. This deduction being made, there remains a balance from all sources of Rupees 2,99,718 up to the 30th November. Subsequent collections up to 31st March 1860 have reduced this sum to Rupees 2,31,036. The Governor in Council trusts that the Orders passed in the last annual review (paragraph. 15) as to the investigation of arrears at the Jamábandí, were duly acted on during the Settlement for the current Fasli that the result of that investigation will come before Government in the Annual Reports on that year.

18. The arrears for former years are shown in detail in Statements 19 and 20. They amounted at the commencement of the Fasli to Rupees 62,40,320. Of this sum there were collected within the Fasli Rupees 40,88,885 and Rupees 3,79,263 were remitted, thus leaving at the close of Fasli 1268 a balance of 17,72,172. Subsequent collections and remissions up to the 30th November 1859, reduced this sum to 6,87,812; of which 5,71,162 are classed as "recoverable and doubtful" and 1,16,649 as irrecoverable; a little above one lac of this amount being Raiyatwár balance.

Para. 63.

19. On the recommendation of the Board, the Honorable the Governor in Council grants permission for writing off the accounts the amount thus stated to be irrecoverable, viz., Rupees 1,16,649, the Districts among which it is distributed being as in column 30 of the Board's Statement No. 20.

20. The following table shows the details of the arrears for former years, set down as "recoverable or doubtful:"

Items.	Rupees.
Peshkash...	9,189
Raiyatwári...	5,11,262
Abkárí.	16,559
Moturpha	4,734
Extra Revenue and Interest	29,419
	5,71,163

21. In the Order quoted in the margin Government desired that no time should be lost "in making the necessary enquiry and reporting the result" with regard to these old arrears which they regarded "as a great evil and "as affording the means of much abuse and extortion." The Govern-

26th September 1859, No. 1,301, paras. 22, 23 and 24.

C.F. 73.

ment are not informed what has been done in pursuance of that Order; but they resolve again

Para. 24. to impress on the Board the importance of the operation then enjoined, and to desire that no time may be lost in completing it.

22. The Board's Report treats as usual principally of the Revenue Settlement for the year, and of the collections on account of that Settlement and of former Settlements, realized during the year and after its close. The actual collections within the year from all sources, which in reality constitute the actual Revenue of the year, are only incidentally adverted to; they are found in Statements 21 and 23, but the figures in the two documents do not agree. The actual collections of all kinds, current and arrears, within the year under report, are given in column 7 of Statement 21, at Rupees 537,00,845; but in column 2 of Statement 23, the amount is given at Rupees 538,04,464. Similarly the actual receipts of the preceding Fasli 1267, are given in the former Statement at Rupees 489,33,707, and in the latter at Rupees 490,20,588. The Board will be requested to explain these differences, and to submit corrected Statements.

23. According to either of the present Statements the actual Revenue of the Fasli year 1268 was nearly five and a half millions sterling; and was nearly half a million in excess of that of the previous year. The Government consider it desirable that the Annual Revenue Report should give more complete information as to the actual Revenue and the Charges, in comparison with those of previous years. They request that for the future a Statement in the following Form may be added to the enclosures of the Annual Report, being numbered 24 :—

Fasli years.	Revenue demand in all items.			Receipts under all items			Arrears remitted.	Balance remaining.			Charges.	
	Current.	Arrears.	Total.	Current.	Arrears.	Total		Current.	Arrears.	Total.	Amount.	Per centage on column 7.
1	2	3	4	5	6	7	8	9	10	11	12	13

A Statement in this Form for the Fasli 1268 should be now submitted. The Government believe that the Board have at hand the means to fill up such a Statement for many years past, and if so it will be useful to have it from Fasli 1230, being just before the return to Raiyatwar Settlements. But if this cannot readily be given, the Statement should at least give all the years from Fasli 1260 inclusive.

24. In the Comparative Statements in paragaphs 26, 45, 48 of the Report, the figures for the

Para 26. earlier year of comparison are omitted. This is inconvenient; and as there is ample space, the Government request that the Board will, hereafter, in all such Statements, give the figures for both the years compared, with two separate columns for Increase and Decrease.

25. In closing these remarks the Government must point out to the Board that though their Proceedings bear date February 20th, they were not received in print at the Government Office till the 13th April. Such a long interval ought not to occur between the date and the delivery of papers.

(True Extract)

(Signed) J. D. BOURDILLON,
Secretary to Government.

To the Board of Revenue.

Note.—The entries of holdings of the previous Fasli brought forward here do not correspond only in a few districts with those in columns 10 and 11 of statement No. 3 of last year, owing to want of uniformity in the preparation of the District Returns; orders have been sent to avoid these differences in future. The disagreement in Cuddapah, Bellary and Karnul is owing to the transfer of taluqs from the two former to the latter.

No. 3.—Statement shewing the Ryots' holdings, &c.,—(*Continued.*)

* The difference of Rupees 1,700 between this and the entry in the last year's return arises from the tax on Sandalwood, &c., having been transferred from this to the head of Land Revenue. Small differences are also observable in some of the component items owing to transfer under recent instructions from one head of Moturpha to another.

I am directed by the Board of Revenue to submit their annual report on the settlement and collection of the Revenues of this Presidency for Fasli 1268, (A. D. 1858-59,) explanatory statements accompanying drawn up according to the forms finally approved by Government in Extract Minutes Consultation, In Con. 12th Jan. dated 11th 1860, No. 169. January 1860, R. D., No. 61. The reports of the several Collectors are also transmitted.

2. The general statistical returns of population, agricultural stock, rent roll, &c., were forwarded with the report for Fasli 1267. These were for Fasli 1266, and being quinquennial, are not submitted on the present occasion, and will not be again due till Fasli 1271 (A. D. 1861-62).

3. STATEMENT No. 1.—Owing to the amalgamation of the taluq of Vencatagiri Cotah with that of Palamanair in North Arcot, the number of taluqs settled on Ryotwar principles was 237, or one less than in the preceding Fasli. The accounts also shew a decrease of 38 villages under the same head, but this is owing to the cause pointed out in paragraph 24 of last year's report, viz. a want of attention in arranging them under their respective heads as ryotwar, rents, &c. Variations occur in the number of taluqs forming the districts of Karnul, Cuddapah and Bellary, arising from the first mentioned district having been erected into a Collectorate, with the addition of the taluqs of Cumbum, Dupaud, and Coilguntla from Cuddapah and of Panchapolliem from Bellary. These transfers were made under the orders of Government, dated 22nd October 1857, No. 1080.

In Con. 6th Nov. 1857, No. 4183.

4. SEASON.—The season, though not good, was a decided improvement on the preceding one.

5. The season of Fasli 1267 was marked by a serious deficiency of rain, particularly in South Arcot, North Arcot, Tanjore, Trichinopoly, Madura and Salem, and was on the whole more unfavorable than its predecessor. In the season immediately under consideration, the rains at the beginning led to extensive cultivation, but were insufficient in the subsequent periods to secure a good harvest generally. In some districts the out-turn was considerably below the average. The latter rains, those in September and during the north-east monsoon, were more abundant, and in some of the Southern districts proved destructive from excess.

6. Such was the general character of the season of Fasli 1268. Viewed more in detail the following peculiarities are observable.

7. In the Northern Circars, with the exception of the eastern taluqs of Guntur, the rain generally was scanty. The out-turn of the wet crops for the most part, except where

Sandoor Kurnool Kotta Ryotwar Kamham Dupaud

the great annicuts exercised an influence, was deficient, frequently much below the average, and in some places the crops entirely failed. Lands irrigated by the Godavery and Krishna annicuts presented a marked contrast: there the crops are stated to have been very fine.

8. The season was on the whole favorable in Nellore. In Bellary, Cuddapah and Karnul, a moderate harvest only was gathered in owing to the want of rain. In Bellary the early crops were considerably below a fair average return, but the season in its after stages improved and in some measure helped to replace the losses previously incurred. The large tank of Cumbum in Karnul received an ample supply of water; both first and second crops were fully cultivated under it and the out-turn is stated to have been of good quality.

9. The rains fell copiously for the most part in the districts south of Madras. In South Arcot, although the harvest was on the whole good, the usual routine of agricultural operations had been much impeded by heavy rain. From the same cause the harvest was very indifferent in Tanjore. In this district the season set in with heavy rain which did much harm. In the subsequent months, till the north-east monsoon commenced, there was a failure of rain as well as of water in the Cavery. The north-east monsoon was marked by an excessive rain fall, followed by a succession of floods, which proved most destructive not only to life and property, but also to the river embankments and communications. The calamities of the district were aggravated by a storm in April accompanied by much rain.

From Collector 26th October 1859, No. 225, paragraph 6, in Con. 31st October 1859, No. 5376.

10. The heavy rains of the north-east monsoon were equally disastrous in Trichinopoly. "The Cavery rose to the height of 17 feet, and overflowed its banks in many places, causing great mischief to the standing corps, and sweeping away many villages, and destroying much cattle and sheep." "Providentially," the Collector observes, "no human life was sacrificed."

From Collector 30th August 1859, No. 169, paragraph 5, in Con. 9th September 1859, No. 4496.

11. The district of Madura also suffered from heavy falls of rain with wind, and though much land was brought under cultivation, it was not generally fruitful or remunerative to the Ryot.

RAIN REGISTER.

District.	April to Sept. 1858 inclusive.	October 1858 to March 1859, inclusive.	Total for the whole year.	Total for Fasli 1268.
	Inches.	Inches.	Inches.	Inches.
Ganjam	96·3	17·7	114	34·4
Vizagapatam	23·7	5·2	28·9	32·7

Guntur	19·6	7	26·6	32·1
Nellore	11·2	27	38·2	34·2
Cuddapah	12·5	17	29·5	76·2
Bellary	11·4	16·6	28	16·1
Karnul	16·8	6·2	23	20·7
Chingleput	16·6	36·8	53·4	32·4
North Arcot	12·8	20·7	34·5	31·2
South Arcot	27·6	24·7	52·3	27·2
Tanjore	17·6	38·8	56·4	33·1
Trichinopoly	18·2	28	46·2	27·3
Madura	21·7	19·3	41	18·2
Tinnevelly	11	22·9	33·9	22·3
Coimbatore	8·5	16·7	25·2	19·7
Salem	22	28·5	50·5	38·9
Canara	120·2	15·3	135·5	121·2
Malabar	91·2	23·9	115·1	111·3
Madras	14·2	34·7	48·9	52·4

12. The season in Tinnevelly, Coimbatore and Salem was favorable, though in a qualified sense. In the first-mentioned district the late wet cultivation was extensively carried on.

13. In the upper taluqs of Canara the first rice crop was in some degree affected in consequence of unseasonable rain. With this exception both Malabar and Canara enjoyed a good season.

14. The marginal statement shews the rain fall in each district in comparison with the preceding year. The return for Ganjam is obviously incorrect. In the other districts the recorded fall of rain corresponds with fair exactness with the results of the year reported in each.

15. Cholera prevailed to some extent in Karnul, Tanjore and Madura. In the last-mentioned district it was followed by a virulent fever, which, in some taluqs, was very fatal, especially in the villages near the hills. In other respects the sanitary state of the people does not present any matter for special notice.

Number of children vaccinated.

Rajahmundry	14,042
Guntur	5,474
Madura	24,088
Cuddapah	13,520
Salem	21,118

Collector's report, paragraph 10.

16. Vaccination was practised with considerable success in some districts, though it is still viewed with suspicion in many parts of the country. Its extension is watched by Collectors with increased attention. The Collector of Madura found, that, in some parts of the district, chiefly among the Roman Catholic villages, the people evinced a great anxiety to have the children vaccinated, and that private vaccinators were employed and paid by them. On the other hand some classes, the Collector observes, manifested great opposition entertaining some superstitious dread of this prophylactic.

Cuddapah.
Guntur.
Coimbatore.
Madura.
Canara.

17. Epidemic diseases prevailed to some extent among the cattle in some districts. The losses of the Ryots in Coimbatore from this cause were very great last year, as reported in paragraph 19 of my letter on the settlement of the revenues for Fasli 1267. Considerable loss has been again experienced in this district in the year under review, so much so that a working bullock cannot now be had, the Collector states, "except at double the price it was sold for some three or four years previously." In Madura, partly from mortality and partly from the numbers exported during the last few years, the prices of cattle have been materially affected and many persons among the natives have been forced in consequence it is stated to give up their carts and carriages.

Collector's report, paragraph 16.

Collector's report, paragraph 8.

Statement No. 2 and Enclosure A.

18. PRICES.—Apart from the buoyant condition of the land revenue, which will be duly considered in the sequel, the state of the prices of grain forms a remarkable feature of the year. In paragraph 26 of the review for last year, it was shewn that the then current prices were considerably higher than those of the preceding year as well as of the average of the previous 10 years. In the year under report there has been a further rise to the extent of about 20 per cent. above the standard of last year. This is illustrated in the following table;—

	Average of 10 years from Fasli 1258 to Fasli 1267 inclusive.	Fasli 1267.	Fasli 1268.	Increase in Fasli 1268 above the average of 10 years.	Per centage.	Increase above Fasli 1267.	Per centage.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Paddy 1st sort	99	133	158	60	61	25	20
„ 2nd „	90	122	143	53	59	21	17
Jawari	121	153	184	63	52	31	20
Bajra	106	149	173	67	63	24	16
Raggi	106	144	165	59	56	21	15
Horse gram	132	183	217	85	65	34	19

Collector's report, paragraph 10.

19. It will be seen that there has been a rise in every description of grain. The increase has also been general. In Tanjore, about the time of the floods in November, the pressure from want of grain was very great and prices then stood at famine rates. In addition to its own losses in produce, that district had exported largely to the adjoining districts, where the harvests had failed more or less during late years, and inconsequence had to replenish its own supplies from the Godavery delta and other places. All the Collectors notice the very enhanced state of the grain market and point to its sustaining effect in the realization of the revenue under the vicissitudes of the season.

20. As second sort rice forms the general staple of consumption, it will be proper to notice here its position in the grain market separately. The following table furnishes this information;—

Districts.	Fasli 1262.	Fasli 1266.	Fasli 1267.	Fasli 1268.	Increase in Fasli 1268 above 1267.	Per centage of increase.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Ganjam	40	66	75	81	6	8
Vizagapatam	43	83	95	101	6	6
Rajahmundry	52	81	82	85	3	4
Masulipatam	55	85	94	116	22	23
Guntur	75	102	109	126	17	16
Nellore	64	99	114	140	26	23
Cuddapah	72	117	126	156	30	24
Bellary	68	95	105	147	42	40
Karnul	0	100	118	139	21	18
Chingleput	60	105	134	140	6	4
North Arcot	48	85	117	133	16	13
South Arcot	60	86	137	156	19	14
Tanjore	58	87	109	161	52	48
Trichinopoly	69	93	121	174	53	44
Madura	70	109	159	168	9	6
Tinnevelly	80	131	152	170	18	12
Coimbatore	71	136	180	191	11	7
Salem	59	106	144	173	29	20
Canara	0	106	122	130	8	7
Malabar	75	120	140	164	24	17
Madras	62	106	135	145	10	7

21. A succession of unpropitious seasons during the last six years, and large exportations of rice from this Presidency to Europe have apparently exercised an influence, with other causes of a more general and permanent character, on the high market rates of grain which now prevail. The increase of cultivation of late has not yet produced an appreciable effect on the general market, though pressure from enhanced prices may have been alleviated, in some degree, in some localities, as in Tanjore already noticed, where supplies of rice were brought from the improved district of Rajahmundry.

22. The condition of the class who subsist on wages may be said to have improved with the advancing state of the country in other respects. Not only is labor offered with increasing freedom where the best remuneration is to be had, but surplus labor seems to find employment nearer home than before. On this subject the Collector of Madura makes the following remark;—"The number of emigrants to Ceylon during the year was less than in the preceding year, and I doubt not that the daily increasing demand for labor from the extension of railways and public works, and, I hope, of cultivation, will tend to increase the rate of the wages of the laborers and induce them to seek for employment at home rather than in more distant markets. In the meantime, doubtless, we are reaping many advantages from emigration in the habits and wealth that our people bring back with them."

From Collector, paragraph 22.

	Persons.
Fasli 1267	42,850
Do. 1268	22,490
Decrease	20,360

23. With the extension of cultivation, the inducements to emigrate to distant parts will diminish, but Ceylon, from its nearness to the mainland, and facility of access, will at all times afford a ready and desirable market for the laborer. The Collectors of the Southern districts have always borne testimony to the advantages derived from the improved habits and accumulated gains of the return laborers from Ceylon.

24. LAND IN OCCUPATION IN FASLI 1268.—The extent of land in occupation in the year under report, exclusive of waste remitted, comprised 1,36,39,430 acres, being an increase of 6,98,400 acres above the preceding year, of which 5,04,502 acres were unirrigated, and 1,93,898 irrigated land. The increase arose from three concurring causes, viz. good rains, high prices and reduction of the former rates of assessment. The last mentioned cause has given a remarkable stimulus to agricultural operations, and though the season throughout was not uniformly favorable, and great and trying vicissitudes were experienced by the Ryots in some districts in its course, the sustaining power of an enhanced market has been largely felt. The districts, in which additional land occupied was considerable, are mentioned in the margin.

Statement No. 3.

	Acres.
Guntur	68,128
Nellore	32,482
North Arcot	9,942
South Arcot	36,721
Tinnevelly	41,159
Trichinopoly	21,707

Note.—The waste remitted in Fasli 1267 was 7,20,083 acres.

25. The extent of land in occupation mentioned above is exclusive of 4,24,514 acres of land not cultivated, which, though forming part of the Ryots' holdings for the year, it was found necessary to remit, partly in consequence of the necessities of the people from a succession of bad season, and partly because the recently introduced rule, which requires that the assessment of all land in actual occupation, whether cultivated or not, shall be charged to the Ryot, is not yet fully understood by the Ryots themselves, who have been so long accustomed to retain in their holdings, land not required which others would be glad to take up. It is also exclusive, as is usual in drawing up this statement, of the districts of Canara, Malabar and Madras, for which, owing to peculiarity of landed tenure, the extent of land under occupancy is not shewn.

Statement No. 4.

26. The actual cultivation in the Ryotwar districts exceeded that of the previous year by 6,98,400 acres with an increase of revenue amounting to Rupees 22,08,970. The particulars are as follows;—

	Fasli 1268.		Increase above or Decrease below Fasli 1267.	
	Extent.	Assessment.	Extent.	Assessment.
	Acres.	Rs.	Acres.	Rs.
Unirrigated	1,06,97,189	133,81,267	+ 5,21,072	+ 4,51,440

Guntur.
Nellore.
Bellary.
Madura.
Coimbatore.
Salem.

27. The increase in the unirrigated lands occurred in the districts noted in the margin. In Bellary, although the actual cultivation exceeded that of the preceding year by about 1,00,000 acres, the assessment was less by Rupees 85,276, owing to the recently reduced rates of assessment having been brought into operation in this year throughout the whole district.

28. In the irrigated lands the increase was swelled by upwards of five lacs of Rupees in Tanjore, where the benefit of the rise in the current prices of grain above 10 per cent. accrues

Note.—The Collector of Tinnevelly states that the price of the early sown rice was very high, but that extensive cultivation having brought down that of the descriptions sown later in the season, the commutation rate for the year was on the whole a trifle less than in the previous year.

	Rs.
Guntur	39,855
North Arcot	1,45,165
South Arcot	73,777
Salem	52,592
Nellore	1,80,367
Chingleput	82,518

29. The decrease in garden lands is no indication of a falling off in this description of cultivation, but proceeds from garden land having been abolished as a distinct class in the late revision of the assessment in Bellary, all land being now brought to account in that district as either unirrigated or irrigated.

30. Of the second crop assessment an increase of Rupees 1,25,296 occurs in Bellary owing partly to increased cultivation of second crops, and partly to the assessment of second crops being now separately exhibited in the accounts. The remainder is found in the following districts in the proportions stated;—

	Rs.
Rajahmundry	74,889
Chingleput	36,446
North Arcot	13,289
South Arcot	33,158
Trichinopoly	36,941
Madura	29,438

31. The additional assessment is derived from irrigation being applied to land not hitherto irrigated. The increase is inconsiderable.

32. The remissions on the actual cultivation and the sundry items, forming additions to the land revenue, are to be considered next.

Statements Nos. 6, 7 and 8.

33. Remissions.—The remissions aggregated Rupees 45,45,276 against Rupees 54,43,968 in the preceding year. They are of three kinds. Firstly, such as are contingent on season or occasional as termed in the accounts. Secondly, permanent reductions of the assessment, termed fixed remissions, and retained in the accounts only pending a final revision of the land tax, and thirdly, allowances, chiefly of a stipendiary character, such as salaries of village officers. The second head of account is gradually disappearing as explained in former reports, and both this and the third class of deductions are not remissions in the sense of a temporary relaxation of the ordinary demand on the Ryots. This definition applies only to occasional remissions or those contingent on season, and to these only is it necessary to draw attention.

34. This class of remissions amounted to Rupees 22,47,638, being a diminution of Rupees 8,47,521 on the sum remitted in the previous year. The decrease is owing to the more favorable character of the season. Allowance for withered crops and such as have been destroyed in consequence of excess of water, have always formed large items of remission in seasons of adversity. It has also been customary on such occasions to make an allowance for portions of fields not cultivated. The remissions in last year on account of the last mentioned item and for withered crops amounted to the sum of Rupees 17,98,206. In the present year the sums given up under these heads aggregated Rupees 9,00,418 only. Deductions for second crops not grown and cowle remissions fall under the contingent head. These amounted to Rupees 1,52,861 and Rupees 5,08,397, respectively, in the year under review. The cowle remissions exceeded those of the previous year by Rupees 1,00,242, owing to a large extent of waste land having been taken up, chiefly in Bellary and Guntur, the result of the recent reductions of the assessment in these districts.

Kaul

35. The late reductions of the assessment places it in the power of the revenue officers to discontinue several items of remission, such as portions of fields not cultivated, &c. Loss of crops in seasons of extreme adversity, affecting the means of the Ryots for the operations of the ensuing year, must always constitute a ground for indulgence.

36. The Board are aware of the desire of Government that cowle remissions should cease. The Collectors have been apprised of this, but as the Manual of Rules, according to which the administration in each district is carried on, contains a specific provision authorising a temporary remission on the occupation of waste land, the rule on this subject can only be gradually changed and in the case of land overgrown with trees, &c., requiring an outlay of money, sometimes large, for its reclamation, the Board apprehend that the rule must be retained, at least for some years, until sufficient capital is formed to admit of its abrogation.

37. A large increase of about two lacs of Rupees appears under the third head of remissions, viz. payments to stipendiary officers. The salaries of the village servants fluctuate in some degree with the amount of revenue, but the greater part of the increase on the present occasion is owing to certain customary fees out of the Melvarum or Government share of the produce forming part of the emoluments of those officers, having been newly exhibited in the accounts, first included in the demand and afterwards deducted as an item of remission.

Statement No. 9.

38. The sundry items, which appear as additions to the land revenue, are enumerated in statement No. 9. They amount to Rupees 23,33,637, being Rupees 5,38,463 above those of the preceding year. The increase occurs chiefly under the heads of quit-rent on inams, including the water tax under the Krishna and Godavery annicuts, of Karnums' russums, &c., and jungle rents, &c. The increase in the first mentioned item occurs for the most part in the Rajahmundry and Masulipatam districts, and arises from a more extensive use of annicut water by holders of lands not paying the full assessment. It also includes Rupees 38,962 water tax transferred to this head from that of quit-rent on shrotriems and inams. The second head embraces the customary fees payable to the village officers in Chingleput newly brought to account as already mentioned. Of the increase in jungle rents, &c., a sum of Rupees 2,03,671 is the value of timber supplied from Coimbatore to the dock-yards in Bombay during late years, and only now finally adjusted in the accounts of the Collector

Increase.	Rs.
Quit rent, &c.....	1,76,714
Karnums' russums, &c...	1,31,465
Jungle rents, &c...	2,62,536

Statement No. 10, settlement of Amani villages.
" No. 11, cultivation of surgar cane, cotton and indigo.
" No. 12, average assessment per acre.

39. The statements noted in the margin, do not call for much remark. The cultivation of sugar-cane exhibits a slight increase in Rajahmundry from 3,067 acres in Fasli 1267 to 3,698 acres in the year under report; with this exception the cultivation of this product in the districts generally may be said to be stationary. In regard to Rajahmundry the Collector thinks that the high prices to be obtained for all descriptions of grain may have drawn away the Ryots from the cultivation of the cane. "This cause," he observes, "has to some extent operated to deter the Ryots from embarking in a more expensive, and perhaps more doubtful, kind of cultivation." The fluctuations in indigo and cotton depend very much on season. The rains of the year under report having been favorable there is a considerable increase in the cultivation of cotton in the districts of Guntur, Cuddapah, Bellary and Karnul, the total increase in all the districts aggregating 1,09,563 acres. In Tinnevelly the cultivation of this product was stationary. In indigo there is a failing off in the cultivation to the extent of 33,173 acres: the fluctuations in the different districts are ordinary with nothing to indicate that the decrease in question arises from any permanent cause affecting the demand for this article.

40. The particulars of the settlement of the land revenue have been reviewed in the foregoing paragraphs. The general result, including peshcush, as shewn in the following tabular

Karanams' Shrotriems
Putéms

statement, is an increase of Rupees 35,62,225 above the final settlement of the preceding year ;—

	Fasli 1267.	Fasli 1268.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Peshcush of estates...	49,79,023	49,77,504	.....	1,519
Quit rent of shrotriem, &c., villages... ...	5,40,380	4,83,124	.....	57,256
Rents for more than one year...	2,26,349	2,19,951	.....	6,398
Rents for one year...	1,11,135	78,443	.....	32,692
Ryotwar including Canara, Malabar and Madras...	3,16,15,069	3,52,60,950	36,45,881	
Amani or division of the produce... ...	98,190	1,12,399	14,209	
	3,75,70,146	4,11,32,371	36,60,090	97,865
			Net increase...	35,62,225

41. The small decrease in the peshcush occurs in Masulipatam and Salem. In the former district it amounts to Rupees 606, and forms the compensation given for the resumption of fines on cattle trespass under Act III of 1857. In the latter district the amount of decrease is Rupees 912, and was allowed on account of land taken for public purposes.

From Government, 19th January 1859, No. 77, in Con. 21st January 1859, No. 265.

42. The increase in the ryotwar villages will be considered very gratifying. Notwithstanding a permanent remission of the assessment during the last five years, amounting to about 26 lacs of Rupees, the land revenue of the year under report exceeds that of Fasli 1266, the highest on record, by Rupees 26,19,352, and deducting the further sum of 9 lacs, the difference in price in the villages in Tanjore settled on the olungu principle, which the Government in Extract Minutes Consultation, under date 22nd July 1859, R. D., No. 979, consented to give up, the ryotwar land revenue is permanently enhanced to an amount exceeding 17 lacs of Rupees.

In Con. 26th July 1859, No. 3727.

43. The mitigation of the assessment has primarily contributed to produce this result. Coming at a time when the market prices of grain had risen to, and remained continuously at, rates greatly exceeding the usual standard, the holders of land have enjoyed a fair opportunity of extending their operations, of which they have not been backward in availing themselves, although every step in advance has been met by considerable disappointment and hindrance in consequence of a succession of adverse seasons. The results of the year, however, viewed in connection with the steadily advancing progress of the last few years, shew a very marked improvement in the condition of the revenue, and the Board have much pleasure in adding that the reports, received from the Collectors from time to time as to the state of affairs in the Fasli (1269) now in progress, leave no doubt that the improvement gained is really sound and of a permanent character.

44. It must not be forgotten that the Krishna and Godavery annicuts, each in it slocality have had a large share in bringing about this satisfactory state of things. In Masulipatam the number of villages irrigated from the annicuts, is stated to have risen from 297 last year to 359 in this. Similar details are not given for Rajahmundry and Guntur, and owing to joint rents obtaining in the former district, and to both districts having enjoyed irrigation before the annicuts were built, though the water supply has been rendered more certain and perfect by those works, it is difficult to state, with any approach to precision, what amount should be really put down to the annicuts. Roughly estimated the reports of the Collectors of the three districts mentioned, seem to shew that nearly three lacs of the increase in the revenue of the year may be ascribed to the works in question, but this estimate includes much land that was irrigated before, though imperfectly. Whatever the exact amount may be, the effects of the annicuts on the revenue and the condition of the people have been unquestionably great.

45. Sundry sources of Revenue.—The settlement of the sundry sources of Revenue amounts to Rupees 122,36,343. The particulars are shewn in the following abstract statement ;—

	Fasli 1268.	Compared with Fasli 1267.
Abkary...	28,01,541	+ 28,310
Moturpha	10,82,791	+ 5,028
Salt...	58,96,654	+ 1,99,808
Sea Customs...	14,53,445	+ 2,45,267
Frontier duties	1,96,665	+ 7,413
Stamps...	8,05,247	+ 50,278
Total.....	122,36,343	+ 5,36,104

Increase.
Rajahmundry... Rs. 28,650
Tanjore... 8,932
Decrease.
Masulipatam... 14,062

46. The increase in the Abkary occurs in Rajahmundry and Tanjore. It arose in the former district from increased offers, the farm having been put up for five years on the termination of the three years' lease in Fasli 1267, and in the latter district it is owing to the resumption of the rent enjoyed by the late Rajah of Tanjore. In Masulipatam there was a decrease, the offers for rent having fallen short of the sum realised under amany in the previous year. The variations in the other districts do not call for remark.

47. The increase in the Moturpha is inconsiderable.

48. The particulars of the salt transactions are as follows ;—

	Fasli 1268	Compared with Fasli 1267.
	In. Mds.	In. Mds.
Quantity in store at the beginning of the Fasli...	85,66,702	+ 10,63,799
Quantity manufactured during the Fasli.	61,41,003	— 17,06,633
Total.....	1,47,07,705	— 6,42,834
Sales.		
Home consumption...	26,21,013	+ 80,689
Inland do.	31,30,481	+ 62,316
Export by sea.	8,98,680	+ 4,06,887
Supply to the French Government... ...	70,669	+ 22,468
Total sales.....	67,20,843	+ 5,72,360
Remainder.	79,86,862	— 12,15,194
Wastage written off under the sanction of Government.	8,77,027	+ 2,41,673
In store at the close of Fasli 1268... ...	71,09,835	— 14,56,867

49. There was thus an increase in the sales of salt generally, but swelled by augmented sales for export by sea, principally on private trade from Nellore, Chingleput, South Arcot and Tanjore.

50. The sales at the several Government stores in the provinces vary with the private stocks in the interior which traders have to replenish. The districts in which the principal variations occur are noted in the margin. The sales in South Arcot were large partly in consequence of the diversion of the trade from Chingleput, where the quantity in store was low. The Collector of Chingleput also thinks that the strict surveillance exercised by the Police in Salem and South Arcot, over certain wandering tribes, who are traders in salt, had the effect of restricting those classes to the stores

	Increase. Rupees.
Rajahmundy...	11,718
Nellore...	80,284
South Arcot...	1,45,636
Tanjore.....	43,859
Tinnevelly.....	50,541
Canara	47,249
	Decrease.
Guntur...	26,770
Chingleput.....	69,082
Madura.....	25,704
Madras.....	8,640

in South Arcot. The increased sales in Tinnevelly arise partly from salt having been sold for export to Canara. In Madras the sales of salt for transport by the Railway are increasing and the net decrease in this Collectorate in the year under review is owing to a considerable diminution in the quantity exported by sea.

	Sales.
Fasli 1265.....	
„ 1266... ... ... Rupees	3,79,391
„ 1267..... ... ... „	3,75,670
„ 1268... ... ... „	3,08,937
„ ...	2,82,245

51. The sales of salt in Guntur have gradually fallen off since the reduction in the places of manufacture and sale. The inconvenience thus caused and the measures proposed to be adopted for its removal will form the subject of a separate communication.

52. The quantity of salt wastage, exhibited in the tabular statement above, is very large. This is owing to the wastage of former years, although sanctioned to be written off, having been retained in the accounts of some districts, till peremptorily ordered by the Board to be struck off.

53. The wastage for the year under report amounts to 3,41,881 Indian maunds, 31½ seers, being 6·45 per cent. on the quantity stored. In Chingleput and Nellore the wastage is large arising partly from certain salt sold this year having been a long time in store, and partly from losses in consequence of heavy rains. The sanction of Government is solicited for writing off the same.

54. The gross revenue from salt with the net financial result is exhibited in statement No. 15. The gross receipts, it will be seen, amounted to Rupees 59,02,874, from which deducting charges amounting to Rupees 9,92,029, the net result is Rupees 49,10,845, or Rupees 2,90,342 above the net result of the previous year, owing, as before explained, to increased sales of salt and partly to a diminution of charge.

	Charges.
Fasli 1267... ... ... Rupees	10,80,075
„ 1268... ... ... „	9,92,029
Less...	88,046

55. The fluctuations in the salt charges proceed principally from one general cause, viz. the quantity of salt contracted for by Government and the prices paid for it as in Malabar and Canara, and the quantity manufactured, for which the cost of manufacture has to be paid, as in the other salt districts. The quantities required necessarily vary, sometimes very considerably, with reference to stocks in hand and the character of the season for manufacture whether favorable or otherwise. The fluctuations in the charges in the several districts in the Fasli under review are shewn in the margin. There is an increase of Rupees 1,22,008 in five districts and a decrease of 2,10,054 in the remainder. The increase occurs chiefly in Malabar and Canara, where large quantities of foreign salt were contracted for at high prices, owing mainly to enhanced rates of freight. The increase of charge in Ganjam, Vizagapatam and Rajahmundry, as well as the decrease in the other districts are ascribable to the general cause just mentioned, viz. the quantity manufactured in the season and whether the whole cost of manufacture was paid in the same Fasli or in the following. It often happens, as in Ganjam, Vizagapatam and Rajahmundry on the present occasion, that a portion of the cost of manufacture is not disbursed and charged till the following year.

					Net decrease...		88,046

In Con. 27th Sept. 1859, No. 4834.

56. In paragraph 10 of Extract Minutes Consultation, dated 26th September 1859, No. 1301, Government express a wish that the salt charges may be examined somewhat more in detail. The settlement returns do not furnish these details, and as the search for them in the periodical statements received from Collectors would take up much time, and inaccuracies might after all occur, owing to the difficulty of collating petty items from so many accounts, the Board have issued instructions to those officers to supply what is wanted in the annual statements which accompany the report on the settlement.

57. The increase in the Sea Customs arises mainly from the increased rates of duty levied under Act VII of 1859.

58. Increase of business is assigned generally as the cause of the increase in the revenue from stamps.

59. The extra items of revenue, such as cultivation after the closing of the settlement, concealed cultivation, interest on arrears, &c., are enumerated in statement No. 16.

Demand, Collection and Balance. Statement No. 18.

60. The particulars of the Demand Collection and Balance of the current revenue are as follows;—

Extra revenue and interest.....		17,768

From Govt. 10th Dec. 1859, R. D., No. 1669, in Con. 12th Dec. 1859, No. 6176.

61. Of the balance of peshcush Rupees 15,000 are due by the Bibi of Cannanore, and as the Goverment are aware, will be speedily liquidated. Of the remainder a portion is outstanding pending enquiry into certain claims for compensation, but the whole is in course of adjustment.

62. The ryotwar balance is large in appearance only. The bulk of it occurs in Tanjore, where, under the orders of Government, dated 22nd July 1859, R. D., No. 979, passed with reference to the peculiar losses which the landholders had to endure in this year of trial, a sum of Rupees 9,18,808 will be struck out of the accounts. This sum, as the Government are aware, formed a part of the additional demand in the olungu settled villages consequent on high prices without produce to represent it. The remaining portion of the ryotwar balance is scattered over the other districts in small sums and is expected to be realised.

Ryotwar balance.....	11,59,932	
Balance in Tanjore.....	10,14,090	
		1,45,842

In Con. 26th July 1859, No. 3727.

63. The abkari and other items of balance shewn above will be disposed of in due course.

Arrears of preceding years.

64. The arrears of former years with the adjustment effected during the year under report, whether by collection or remission, are shown in detail in statements Nos. 19 and 20. Looking to columns 28 @ 31 of the latter statement, it will be seen

that the present outstanding balances of arrears amount to Rupees 6,87,811, of which Rupees 5,71,161 is classed as either doubtful or recoverable, and Rupees 1,16,649-7-10 as irrecoverable.

The last mentioned amount consists of the following items;—

	Rs.	A.	P.
Ryotwar, &c., ...	1,00,953	15	3
Abkari, ...	81	5	8
Moturpha, ...	5,409	6	10
Extra revenue and interest, ...	10,204	12	1
	1,16,649	7	10

65. The amount found to be irrecoverable in each district is exhibited in column 30 of statement No. 20. Some of these balances are of old standing and past recovery. Some appertain to lands, as in Rajahmundry, taken up for channels, embankments and roads. The whole have been carefully scrutinized by the different Collectors, and whether from death, poverty or other causes, it is found that no portion of them can now be realised. Under these circumstances the Board beg to recommend that sanction be given for writing off the amount, viz. Rupees 1,16,649-7-10.

Collections in Faslis 1267 and 1268 compared.

Statement No. 21.

66. The entire collections of Fasli 1267 amounted to Rupees 4,89,35,707. Those of the year under report aggregated Rupees 5,37,00,845 or Rupees 47,65,138 above the preceding year. In the report of last year it was observed that, in the realization of the revenue, process of distress had been enforced to the amount of Rupees 8,327, of which Rupees 17 only was the value of land sold. In the year immediately under notice the value of property sold on this account amounted to Rupees 13,901, of which Rupees 51 only is the value of *land* sold.

Statement No. 22.

Statement No. 23.

67. The particulars of the charges are shown in statement No. 23. They aggregate Rupees 57,67,675, being a decrease of Rupees 1,48,079 above the charges of the preceding year, of which Rupees 1,20,886 belong to the head of Collectors' salaries, &c., and Rupees 27,193 to that of extra charges. The former is almost entirely nominal and arises from adjustment of account, and the latter is the result of a large falling off in the salt charges, the causes of which have been already explained.

68. In closing this report the Board have much pleasure in expressing their satisfaction with the conduct of the several officers subordinate to their authority.

REVENUE BOARD OFFICE,
Fort St. George,
20th February 1860.

I have the honor to be,
Sir,
Your most obedient servant,
(Signed) J. D. SIM,
Secretary.

Rev Dept.

No 950.

Proceedings of the Madras Government.

Under date the 8 June 1860

Read the following

letter from the Secty to

the Bd of Revenue

Submitting the Board's annual report on the settlement & collection of the Revs of this Presidency for Fasli 1268/A D 1858/59 / with sch[edules] & statements drawn up according to the forms finally approved by Govt.

(Here enter 20 Feb 1860 No 909)

In the letter recorded above, with its enclosures, ~~a copy of twenty three statements according to the forms recently authorized by Govt~~, the Bd of Revenue report upon the settlement and collection of the revenues of the Madras Presidency for the Fasli year 1268 A.D. 1858/59

2. The season though not good, is described as

as having been much better than the preceding one - As a general rule the rain fall was deficient in the Northern Districts; in many of the Southern Districts those to the south it was abundant or in the early part of the year, but deficient in the latter part. In the North, it is stated, the lands irrigated by the works depending on the Godavery & Kistnah anicuts, presented a marked contrast to other irrigated lands, bearing fine crops, while elsewhere the yield was very deficient. In Tanjore and Trichino-poly the North East monsoon was productive of much damage; in the former district especially, much property, in corn and cattle, was destroyed, and even some villages were swept away -

Board's paras 4-14

Krishna

P. 14.

15-17.

3. The Board remark that the Ganjam rain report is "seriously incorrect". It is to be regretted that they did not ascertain and rectify the cause before laying the Return before Govt.: there was ample time to do so while the paper was under disposal in their office - They will be good enough to do so now.

4. The sanitary condition of the people seems to have been fair on the whole - Vaccination is making good progress in some Distts. The enhanced price which

cattle

cattle fetch in Coimbatore may be partly attributable to the extended cultivation, and not wholly to losses from disease.

5. The year under report was remarkable for a great rise in the price of grain. The Bd estimate this increase at 20 per cent above the prices of the preceding year, which themselves were much higher than the average of the previous ten years.

6. The terms "land in occupation" in para 24, and "actual cultivation" in para 26, signify in fact the same thing. The former term is used to exclude the waste remitted, and the latter includes the waste not remitted. It was therefore

18 - 21.

The only difference is that the "actual cultivation" includes in the former column, the assessment of second crop and additional assessment.

and this in the opinion of the Govt is its proper signification

Patta

were repetition to give both the statements. The term "land in occupation" is usually taken as including all land in the Patta, tho' excluded from the settlement. It appears from Para 25 that little less than four and a quarter lacks of acres of land in occupation were deducted at the settlement. It is gratifying to find, however, that notwithstanding the unfavorable character of the season, the "actual cultivation" was on larger by nearly 1,00,000 acres than that of the previous year.

The greatest increase in cultivation was in Tinnevelly, North

Arcot,

Arcot, and Nellore.

7. The following table extracted from the Board's enclosure No. 3 gives the particulars of the land in occupation.

	Extent	Assessment
Land in occupation at the commencement of the year	135,94,131	320,83,414
Land given up during the year	8,18,759	17,65,534
Remainder	127,75,372	303,17,880
Land taken up during the year	12,78,572	32,07,410
Total	140,53,944	335,25,290.
Deducted at the Settlement	4,24,514	10,01,931
Remainder	136,29,430	325,23,359
Particulars of the Settlement		
Actual cultivation	"	313,85,088
Waste charged	"	11,38,271

33 & 34

8 The remission in the current year on account of waste and shavi, two items out of what are usually termed "contingent yearly remissions" as distinguished from "fixed remissions" and "deductions from the collections" amounts to a little over nine lacs of rupees compared with nearly eighteen in the preceding Fasli. The net decrease in the whole of the contingent remissions as compared with Fasli 1267 amounts to nearly eight and a half lacs of Rupees. And this although

34. 36.

there

there is upwards of a lac
of rupees more Haul remis-
-sions than last year.

9 In their review
of the revenue admi-
-nistration of that Taslé
the Government recorded
some remarks on the
subject of Haul
remissions, and they
now request the care-
-ful attention of the
Board to those remarks.
Then as now the in-
-crease of remission
under this head was put
down as the result of
recent reductions of assess-
-ment. The Districts affected
this year are two of
the four then referred

to

26th Sept 1859 No 1301
Para 7.

to, and the Governor in Council
sees nothing in the arguments
adduced by the Board to alter
his sentiments then expressed.

10 "Jungle rents" is not the
head under which to put an
item of the kind mentioned at
the end of this paragraph viz. tim-
-ber supplied to the Bombay
dockyards. A more appropri-
-ate heading should be adopted.
No explanation is given of
the cause of the delay in the
receipt of the value of this
timber. Had the orders of Go-
-vernment been duly fol-
-lowed such delay could not
have taken place.

11. The increase in the settle-
ment of the Raiyatwar Districts is
very gratifying as proving the
full success of the late re-
-ductions in the assessment
in various Districts. Those re-
-ductions have amounted in the whole
to 26 lacks; and yet the

entire

30.

22nd March 1855 No 349
R.D. Para 4.

P. 42.

Raiyatwar

entire settlement of the Ryot-
-wari Districts in Fasli 1260, ex-
-ceeded by 23 lacks the highest
in any year previously to the reductions
which was Rs 19,49,081 in Fasli 1262.
The Board ascribe this in-
-crease primarily to the
lowering
~~mitigation~~ of the assessment, and
the Government fully believe
that they are right in doing so,
though other causes also have
been in operation, as for ex-
-ample the general increase of prices of agricultural produce noticed by the Board in
-ample the improved irriga- in paragraph 63, and
-tion especially in the Goda-
-very and Kistna Districts, as noticed
by the Board in paragraph 64.

12. The total demand on
account of "sundry sources of
the Revenue" exceeded that
of the previous year by Rs
5,36,104, and that of the year
before by nearly double that
sum. There is an increase
in every item, but the great
bulk of the total increase is
in salt nearly two lacs, and
in Sea Customs 2,45,267 Rs.

Para 45.

Referring

Referring to what is said in para-
-graph 46 as to the Abkári in Raja-
-mundry and Tanjore, the Go-
-vernment request to be in-
-formed as to the period for
which this branch of Revenue
was leased in those Districts. It
has been ordered by Government
that such Farms should be
for not less than five years. +

~~14. The increase in the~~
~~salt revenue is to any good~~
~~sign. Improvements however~~
~~are still to be made in some~~
~~Districts of which mention~~
~~mentioned in this para, is not~~
~~Government will be prepared~~
~~to adopt remedial measures~~
~~as soon as the necessary in-~~
~~formation is before them. The~~

13. The reason assigned for the in-
-crease in salt wastage, viz.
that in some districts the
wastage of former years had
been retained in the accounts,
though sanction had been
already

+ Nov. 27/55.
No. 1294. Para 7.

P. 52.

already granted for writing it off, is discreditable to the Districts concerned, and care should be taken to prevent a recurrence of such carelessness. In accordance with the recommendation of the Board, the Governor in Council grants sanction for writing off the wastage of salt amounting to I.M. 34,081.

P.53.

14 The gross receipts on account of salt as shewn in ~~this~~ para 54 (1) and in Statement No. 15, differ from the amount entered in para 45, ~~supra~~ in the former, there it is given as Rs. 58,96,654, in the latter as Rs. 59,02,874. The Board will be good enough to explain this discrepancy.

P.54

In reviewing the Report for Fasli 1257, the Government noticed (para 10) the large increase in the charges of the Department; the cause of that increase was explained

explained to be the increased manufacture. In Fasli 1268, the charges were less by 8,000 Rs. than in that year, and the net Revenue was larger by Rs. 2,90,000.

15. The practice mentioned at the end of para 54 as existing in some Districts, of not disbursing or charging a portion of the cost of manufacture till the following year is irregular and on various accounts objectionable; the price should be paid immediately on receipt of the salt. The attention of the Collectors should be called to this, and now that there is a Deputy Collector in charge of the Salt Department in every coast District, except Malabar where no salt is made, it should be his duty to see that the article is promptly paid for.

But

15. 16 Out of the whole demand of the Revenue for Fasli 1268 amounting to 536,42,538 Rupees 496,11,960 Rs was realized within the Fasli, and Rupees 20,2,052 subsequently up to the 30th November 1859. The balance still remaining at the date last mentioned amounted to Rupees 12,18,526, of which Rupees 11,59,932 was Ryot-war. The Board notice, however, (para 62) that not less than Rs 9,0,000 of this sum has been already remitted by Government in Tanjore†. The Government have more than once directed that arrears once ordered to be struck off shall not be again brought forward, but in the present case the order was in some degree conditional, depending on the acceptance by the defaulting Mirasdars of the change of revenue system ordered at the same time. ~~There could no doubt that the change~~ will

P.60.

†22nd July 1859. R.D. No 979. Para 12.

P.62

Under the late orders from time to time affecting the Tanjore & Pollams the Board are to report the details of the operations of striking off the arrears, which should be finally completed.

51

~~will be thoroughly accepted in~~ every case, and the amount therefore will be remitted, as soon as this is finally ascertained, the ~~operation of striking off the arrears should be finally complete~~ ~~ed.~~

17. This deduction being made, there remains a balance from all sources of Rs 299,710 up to the 30th November. Subsequent collections up to 31st March 1860 have reduced this sum to Rs 2,31,036. The Governor in Council trusts that the orders passed in the last annual review (Para 15) as to the investigation of arrears at the Jamabandi, have been duly acted on during the settlement for the current Fasli ~~This is certainly a balance, and will be probably all realized.~~

and that the result of that investigation will come before Government in the Annual Reports on that year.

18. The arrears for former years are shewn in detail in Statements 19 and 20. They amounted

amounted at the commencement of the Fasli to Rs. 62,40,320. Of this sum there were collected within the Fasli Rs. 40,88,085 and Rs. 379,263 were remitted, thus leaving at the close of Fasli 1268 a balance of 17,72,172. Subsequent collections and remissions up to the 30th November 1859, reduced this sum to 607,012; of which 571,162 are classed as "Recoverable and doubtful" and 1,16,649 as irrecoverable; a little above one lack of this amount being Ryotwar balance.

19 On the recommendation of the Board the Honorable the Governor in Council grants permission for writing off the accounts the amount thus stated to be irrecoverable viz Rs. 116,649 the districts among which it is distributed being as in Column 30 of the Board's Statement No. 20.

The

20 The following table shews the details of the arrears for former years, set down as "Recoverable or doubtful."

Items	Rupees.
Peshkash	9,109
Ryotwari	5,11,262
Abkari	16,559
Moturpha	4,734
Extra Revenue and Interest	29,419
	5,71,163

26th Sept. 1859 No. 1301 paras 22, 23, 24.

P. 24

21. In the order quoted in the margin Government desired that no time should be lost "in "making the necessary enquiry and reporting the result" with regard to these old arrears which they regarded "as a great evil and "as affording the means of much "abuse and extortion." The Government are not informed what has been done in pursuance of that order, but they resolve again to impress on the Board the importance of the operation then enjoined, and to desire that no time may be lost in completing it.

The

22. The Board's Report treats as usual principally of the settlement of the Revenue for the year, and the collections on account of that Settlement and of former settlements, realized during the year and after its close. The actual collections within the year from all sources, which in reality constitute the actual revenue of the year, are only incidentally adverted to; they are found in Statements 21 and 23, but the figures in the two documents do not agree. The actual collections of all kinds, current and arrears, within the year under Report, are given at Rupees 537,00,845; but in Column 7 of Statement 21, in Col 7 of Statement 21, ~~in~~ 2 of Statement 23, the amount is given at Rupees 538,04,464. Similarly the actual Receipts of the preceding Fasly 1267, are given in the former Statement at Rupees 489,33,707; and in the latter at Rupees 490,29,588. The Board will be requested to explain these differences, and to submit corrected Statements.

23. According to either of the present Statements the actual revenue of the Fasli year 1268 was nearly five and a half millions sterling; and was nearly half a million in excess of that of the previous year. The Government consider it desirable that the annual Revenue Report should give more complete information as to the actual revenue and the charges, in comparison with those of previous years. They request that for the future a Statement in the following form may be added to the enclosures of the annual Report, being numbered 24.

Fasli Years	Revenue demand in all items			Receipts under all items			Arrears remitted	Balance remaining			Charges	
	Current	arrears	Total	Current	arrears	Total		Current	Arrears	Total	Amount	Per Centage on Col 7
1	2	3	4	5	6	7	8	9	10	11	12	13.

A Statement in this form for the Fasli 1260 should be now submitted. The Government believe that the Board have at hand the means to fill up such a ~~this~~ Statement for many years past, and if so it will be useful to have it from ~~the~~ Fasli 1230, being just before the return to Ryotwar settlements. But if this cannot readily be given, the Statement should at least give all the years from Fasli 1260 inclusive.

24. In the comparative Statements in paras 26, 45, 48 of the Report, the figures for the earlier year of comparison are omitted. This is inconvenient, and as there is ample space, the Government request that the Board will, hereafter, in all such statements, give the figures for both the years compared, with two separate columns for

Para 26

for increase and decrease.

25. In closing these remarks the Government must point out to the Board that though their Proceedings bear date February 20th, they were not received in print at the Government office till the 13th April. Such a long interval ought not to occur between the date and the delivery of papers.
