71-72	
Dated 10 - 5 - 1861.	

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
10th May 1861.*

No. 71. Read the following letter from H. WOOD, Esq., Collector of South Arcot, to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated Villapcorum, 20th April 1861, No. 11 :—

SIR,

1. I have the honor to forward for the consideration of Government, an original letter from the General Manager of the East India Iron Works. This letter is in reply to one from me declining to make any concession in favor of firewood cut by the Company in the *Tirunámalai* jungles, the Order of Government dated 21th December 1860, having reference only to the jungles situated in the Talúqs noted in the margin.*

2. As however the present application is based on grounds similar to those which obtained the concession above referred to, the Government may perhaps be inclined to allow a like remission in respect of firewood cut in the *Tirunámalai* jungles.

From H. WOOD, Esq., Collector of South Arcot, to the General Manager, East India Iron Company, Beypoor, dated Cuddalore, 26th March 1861, No. 124.

SIR,

1. In reply to your letter of the 27th February last, I have the honor to observe that I am not aware that the jungles of *Tirunámalai* in this District have ever been rented to the Iron Company. If however you possess any document to this effect I shall feel obliged by your furnishing me with a copy of it:

2. In the lease which lately expired the privilege of cutting fuel was restricted to the jungles situated in the Talúqs noted in the margin,† and in the Order of Government dated 21th December 1860, No. 2,511, it is stated that this privilege is to be confined only to the jungles leased by the Iron Company.

From W. MAYLOR, Esq., General Manager E. I. Iron Company, to H. WOOD, Esq., Collector of South Arcot, Cuddalore, dated Beypoor, 5th April 1861, No. 278.

SIR,

1. With reference to your letter No. 124 of the 26th ultimo, I have the honor to inform you that I am not aware that this Company was ever required to pay rent for the jungles in the neighbourhood of *Tirunámalai* in the South Arcot District, and I feel much surprised to find that it is now proposed to levy a tax on all the firewood that may be cut and removed from such jungles for the use of our *Tirunámalai* works. I regret to say that we cannot afford to pay such a tax, and I have sent instructions to our Manager at *Tirunámalai* to suspend all operations and not to cut any more firewood until the tax is removed. It now rests with the Government to determine whether we shall carry on or abandon our *Tirunámalai* station.

2. I am disposed to think that Government can have but a very inadequate idea of the severity of such a tax upon a Company like this. The proposed tax of 4 Annas per bandy load of 740lbs on firewood may possibly appear insignificant to any person practically unacquainted with Iron smelting with wood fuel; it is however equivalent to a tax of at least ten Rupees per ton of crude iron produced, because the ore is smelted with charcoal each ton of which requires five or six tons of wood. The whole of our *Tirunámalai* produce has hitherto been exported to England in the shape of pig iron, but with a small production and an expensive establishment the result of our operations has been far from favorable.

3. Five or six years ago, previous to the establishment of our Works at *Tirunámalai*, the people were wretchedly poor, robberies were frequent, and but little of the jungle was cleared. Such a state of things as you will be aware is now quite reversed. We established an English School, instructed the people, and brought them into contact with a more experienced class of Natives, and as fast as we cleared the jungle the land was at once brought under cultivation. I need not however dwell further

Proceedings of the Madras Government, Revenue Department,
10th May 1861.

upon these points, because the great advantages of such Companies as ours in a country like this must be obvious to every one, suffice it to say that it is a great mistake, in my humble opinion, to cripple our operations at the present time when, by the introduction of some of the discoveries of modern science and a curtailment of expenditure, there is at least a prospect that our shareholders may reap some well merited reward for their long continued perseverance. Under any circumstances such a tax would yield but a trifling revenue to Government, but it will be fatal to the interests of this Company.

4. I beg that you will kindly inform me of the definite decision of Government upon this question with as little delay as possible, because we have an experienced European Manager and a Native Staff now unemployed until I receive this information, and it is highly desirable that their services should be disposed of as quickly as possible.

No. 72.

ORDER THEREON, 10th May 1861, No. 1,013.

The Governor in Council resolves to request the Conservator of Forests to report *without delay* on the general condition of the Tirunimalai jungles, and the effect which compliance with the application of the Iron Company is likely to have on them.

(Signed) J. D. SIM,

Secretary to Government.

- According to the application the wood seemed to
form a charcoal work in a series of lines on our
front, which are growing very young. I am willing
to trust the expediency of giving the wood company
just the same than other parties before any thing
is taken. The concession of forest land better be
conceded on the probable effect on the
supply of timber in the jungle. The

I certainly thought that
our former action would
be the whole question - as regards
this concession - I should
have presumed that the
G.S.C. that such was our
intention -

To delay & cause expense
would evidently lead to
much loss - & injury to
the concessionary -

The moment the
a receipt of the concessionary - now
that - I have succeeded
I think they believe that they
would be ready to pay as
others do. -
