*Proceedings of the Madras Government, Revenue Department,
24th July 1861.*

No. 345. Read the following Proceedings of the Board of Revenue, dated 27th May 1861,
No. 2,658 :—

Read the following letter from W. BALMAIN, Esq., Superintendent of Stamps, to W.
HUDLESTON, Esq., Secretary to the Board of Revenue, Chepauk, dated Fort Saint
George, 22nd May 1861, No. 922.

SIR,

1. I have the honor to submit the Statement of Establishment proposed for the Stamp
Department, as called for in the Proceedings of the Board of yesterday's date.

2. The total present cost of the Stamp Office is Rupees 753 a month, and the portion of
the Treasury Establishment to be transferred is 35 Rupees, while the total proposed cost is
Rupees 860. The additional Establishment required for the Mint, including the Mint Master's
allowance, is Rupees 372, making a total now submitted for sanction of Rupees 444.

3. I have deemed it necessary to make some modification of the amount of Establishment
to be transferred from the Treasury, and hope the alteration may be approved. Instead of
having the seven workers on Rupees 7 each belonging to both Departments, which might cause
inconvenience and dispute between the two Offices, I have attached four permanently to the Treas-
ury, and three to the Stamp Department, as proposed in paragraph 3 of my letter of February 25th.
On further experience moreover, I have found the work connected with the receipt of cash on
account of private documents sent to be stamped so heavy, that it entirely takes up the time of one
writer, and it will be necessary to retain on the Treasury Establishment the person now doing
the duty on a salary of Rupees 21 a month. Thus of Rupees 84, Rupees 35 only will be avail-
able for adding to the Stamp Office.

4. The reduction of one Translator on Rupees 25, and the re-distribution of the Stamp
Storekeepers have been entered as proposed by the Board.

5. Before actually carrying out the transfer of the value stamping to the Mint, I should
wish to be informed of the method in which the Board propose that the private documents should
be treated. At present as a rule all documents are stamped and returned to parties on the day
when given in, and if there is any particular urgency, a paper is stamped (out of order) and
returned within an hour, but if the money is to be paid in at the Treasury, the documents counted
and sent to the Mint, thence to be returned to the Stamp Office to be counter-stamped and
delivered to the parties. It is evident that as a rule, documents *cannot* be returned stamped the
same day. All papers given into the Treasury by 3 o'clock each day may be sent to the Mint,
there they will be stamped and returned for the distribution by the next afternoon. I anticipate
that this procedure will cause some dissatisfaction.

6. Some provision will have to be made for the despatch to the Mint of papers to be
stamped. A covered cart with good locks and duplicate keys will probably be most convenient.
The daily issue will be from three cooly loads and upwards, and it would be troublesome to have
to secure them in the form of cooly loads.

7. In submitting the Statement of proposed Establishment, I would beg to draw the
attention of the Board to the fact that it was calculated to meet a requirement of only from
three to four times the old issue, and that if the demand for Stamps continues at its present
rate, it may be necessary again to take the matter into consideration.

1. Ordered to be submitted to Government, with reference to the Proceedings of Govern-
ment, dated 4th October 1860, No. 1,782, and with the Board's
recommen-
In Cons. 5th October 1860, No. 5,039. dation that pending the sanction of the Supreme
Government, the entertainment of the proposed Establish-
ments, and the transfer of the Stamping Department to the Mint be permitted at once. The
changes is imperatively necessary to allow of the daily increasing demand for Stamps being met.

2. The scale of Establishment now proposed has been very carefully considered, and the Board feel confident that it is not more than is absolutely necessary to render the Department efficient. The only point which calls for particular explanation is the allowance which is proposed to be granted to the Mint Master in consideration of the additional labor and responsibility that will be thrown on him by the change of system. The Board do not doubt that the reasonableness of the claim will be admitted by Government, and they trust that Government may be pleased to accede to the Board's recommendation.

3. Including this item of Rupees 150, the total additional monthly charge involved in the change of system is only Rupees 444, while the estimated increase of revenue from Stamps is six and a half lacs of Rupees per annum.

4. It needs scarcely be said that an increase of expenditure would be equally necessary were the old system retained, for the Establishment is altogether inadequate to meet the demands on it.

5. As to the arrangements for the Stamping of private documents, the slight delay which will be unavoidable under this change cannot be allowed to outweigh the many important advantages which will be secured by it, and the Board think that a little foresight on the part of the Mercantile Firms who will be mainly affected, will readily obviate any inconvenience.

6. The Act does not contemplate the stamping of private documents already drawn out, as the rule but as the exception, and when Stamp papers of all the prescribed values and on suitable material can be readily obtained, the Board do not doubt that the practice of drawing documents on unstamped paper, and then sending them to be stamped immediately before execution will rapidly diminish.

7. The slight delay in Stamping Blank forms which are required in large numbers should cause no inconvenience whatever to business men, if timely attention be paid to the state of their stock. The change of system, and the necessity for making timely arrangements to obviate delay should be notified widely for the information of all concerned.

8. For the carriage of the papers from the Treasury to the Mint, and back again, a light two-wheeled cart, on the plan of the Mail carts formerly used in Towns in England will be found most convenient. For horsing it and providing a driver, the Board request the Superintendent to place himself in communication with the Presidency Postmaster, and ascertain the system adopted for the accelerators at the Presidency. The same system will probably be found the best for the Superintendent's purpose.

9. For this portion of the expense he will submit a Supplemental Estimate for sanction.
(A true Copy and Extract.)

(Signed) W. HUDLESTON, Secretary.

No. 346. Proceedings of the Board of Revenue, dated 8th June 1861, No. 2,999.

Read the following letter from W. BALMAIN, Esq., Officiating Superintendent of Stamps, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, Chepauk, dated Fort Saint George, 7th June 1861, No. 968.

SIR,

With reference to your verbal communication of yesterday, I have the honor to forward a revised Statement of proposed Establishment for the Stamp Department.

1. Ordered that the revised Tabular Statement received with the above letter be submitted to Government in substitution for that which accompanied the Board's Proceedings, dated 27th May 1861, No. 2,658; and with a request that that formerly sent may be returned.

2. The difference between the two consists in the inclusion in the present Statement of the whole of the former Establishment for the Stamp Department at the Presidency, both in the Superintendent and in the Sub-Treasurer's Office, while in the former only part of the Establishment at the Treasury was shown, as although the work formerly performed at the Treasury

will no longer be so, Mr. Balmain considered that the services of some of the Gollahs who have hitherto worked indifferently at either Treasury work proper, or Treasury Stamp work as occasion might require would still be needed for Treasury work proper, and also that the transactions connected with the receipt of cash into the Treasury for stamping private documents was so heavy as to occupy one writer entirely, whom therefore he proposes to retain.

3. On consideration it appeared, however, to the Board to be better to make a separate application for any addition to the Treasury staff that may be requisite under the circumstances stated by Mr. Balmain, and to take credit for the whole of the sanctioned Establishment for Stamps in drawing out the present Tabular Statement.

4. The net additional cost involved in the change of system as now shown is Rupees 408-4 instead of Rupees 444, as before stated, but the increase in the Treasury Department that will have to be made in consideration of the loss of the Gollahs' services, &c., hitherto obtained at times from the Stamp Establishment in the Treasury, will compensate for this apparent saving.

(A true Copy and Extract.)

(Signed) W. HUDLESTON, Secretary.

ORDER THEREON, 24th July 1861, No. 1,477.

No. 347.

1. The Board of Revenue submit an application for an increase to the Establishments of the Superintendent of Stamps and the Mint Master, to whom it is proposed to transfer the Stamping Department, and recommend that the entertainment of the Establishment may be sanctioned in anticipation of the approval of the Government of India.

	RS.	A.	P.
Present Establishment of Superintendent of Stamps	753	0	0
Stamping Department of the Treasury	98	12	0
Total	851	12	0

Proposed Establishment for the Superintendent of Stamps	888	0	0
Do. do. for the Mint Master	372	0	0
Total	1,260	0	0
Increase	408	0	0

2. The increase involved in the proposition, according to the revised Tabular Statement, is Rupees 408-4. A portion of this sum consists of an allowance of Rupees 150 for the Mint Master and an addition of Rupees 50 to the salary of the Manager of the Superintendent's Office. The Government of India have in their Proceedings in the Financial Department, dated 9th June 1860, No. 5,150, prohibited the anticipation of their decision on applications

for raising the salaries of existing offices, and immediate authority cannot therefore be given for the items alluded to. Sanction is granted for the rest of the increase amounting to Rupees (208-4) two hundred and eight and Annas four, and the charges will be met by orders on the Treasury pending the confirmation of the Government of India, to whom an application will in due course be sent (with the Supplemental Budget now under preparation).

3. The Government concur in the remarks of the Board of Revenue contained in paragraphs 5 to 7 of their Proceedings, dated 27th May 1861, No. 2,658, in regard to the stamping of private documents. The vendors in Madras should be furnished with supplies of stamped forms of documents in common uses.

4. The transfer of the Stamping Department to the Mint will be made at once, and measures adopted for the safe and regular carriage of the papers to and from the Mint. As speedy transit is of no great consequence, a hand-cart will be preferable to a horsed conveyance. There will be one or more regular despatches of papers each way daily, and special papers must be sent by special messengers, so that it is unnecessary to incur the expense of an accelerator.

5. As the Board remark in their Proceedings of the 8th June 1861, No. 2,999, a separate application should be submitted to the Financial Department for any addition that may be required to the Treasury Establishment.

6. The Accountant General will be requested to provide for the additional expenditure under notice in the Supplemental Budget under preparation.

(Signed) J. D. SIM,

Secretary to Government.
