In submitting the average Bazar statements of Prices of Grain, and Rain Report with remarks on the season for September 1867, the Secretary to the Boards of Revenue has the honor to inform the Secretary to the Government R.D. that the Collectors of the Districts noted in the margin, have remarked in their season Reports, received for September 1867, that they are unable to give in their present return, the information as to the state of the Cotton and Indigo crops, called for in the order of Government dated 29<sup>th</sup> August 1867, but that it will invariably be supplied in future. The Collectors of the Godavery and North Arcot Districts have promised to send separately the above information at an early date, but have not as yet done so. The Collector of Bellary undertakes to give this information in his season Report, and did not state the cause of the omission. He has been called upon to supply the desired information.
