*Proceedings of the Madras Government, Revenue Department,

No. 33.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Dated 4th September 1861, No. 1,761.

* Recorded in Revenue Proceedings, 13th July 1861, No. 1,398. In their Financial Resolution of the 14th June 1861, No. 7,190,* the Government of India expressly desired that in all applications for expenditure on account of establishments, or grants of money for any purpose, the fact should invariably be stated whether the money applied for could be met out of the Budget funds, or otherwise. In applications which have at different times come before Government since the introduction of the Budget system, the authorities submitting them have omitted all mention of information, so necessary to enable the Government to determine whether they are in a position to make the grant, or not; and much inconvenience and delay have been the consequence. The Government resolve, therefore, to call upon all Heads of Departments, or other authorities submitting propositions entailing any expenditure, invariably to state in their applications whether the proposed charge, or required grant is provided for in, or can be met out of the Budget, or what arrangements the applying authorities would suggest to meet the expense entailed.
