Dated <i>21 December</i> 18 <i>61</i> .		

Not to be folded or roughly handled

Remarks

Settlement.

In the Salem District, the full outturn of work was accomplished.

2 The outturn of work in Willore was affected by the withdrawal of the party as they completed the villages on which they were engaged, to head quarters for the reefs. The area demarcated is 103 square miles.

3 The party in the Kistna District accomplished 123 square miles of demarcation and 76 square miles of Classification. The former is above the estimated standard, but the latter is as much short of it in consequence of the two operations being adjusted according to circumstances.

4 In Miraval the demarcated area is very small even in

in reference to the limited strength of the party; but 185 square miles are returned as in progress and will afterwards be brought to account. The completion of villages has been delayed by the laying out of lines of channels and by the allotment of lands in exchange for incans taken up for the above purpose, it being desirable to demarcate the lands after these arrangements are completed.

5. In the Wynad party most part of the month was occupied in travelling to Wynad for the resumption of operations.

6. Less than half the Survey full strength was employed in the field in the Salem District, some of the Ammins being engaged in office work and a

a large number ^{were} sick. The work was also retarded by the non-attendance of the villagers and the time spent in travelling.

7. In consequence of the receipts there is no work returned for the Godavery party and a trifle also for the Krishna party.

8. The Bellon party is under organization and ^{only} made up to about half of the full strength.

9. The Wynad party recommenced work near the end of the month.
