*Proceedings of the Madras Government, Revenue Department,
19th February 1861.*

Read the following papers :—

No. 254. Proceedings of the Board of Revenue, dated 5th January 1861, No. 42.

From P. GRANT, Esq., Collector of Malabar, to W. HUDLESTON, Esq., Acting Secretary to the Board of Revenue, Fort Saint George, dated Calicut, 12th December 1860, No. 243.

SIR,

1. In reply to Proceedings of Government, Revenue Department, and their Order thereon, dated 29th November 1860, No. 2,268, I beg to inform you, that the Deputy Paymaster at Cannanore has ample means of duly securing any large sums which may, from time to time, be sent to him.

2. He states that he will certainly require an Accountant and Cashkeeper and a Shroff to aid him in the disbursement, &c., of the money, as his present Establishment is small, and the work heavy, and that their salaries will require to be about Rupees 50.

* Dated 11th instant, No. 1,063. 3. The Deputy Paymaster's letter,* in original, is forwarded for perusal.

From Captain J. R. G. MAGRATH, Deputy Paymaster, Malabar and Canara, to P. GRANT, Esq., Collector of Malabar, Calicut, dated Cannanore, 11th December 1860, No. 1,063.

SIR,

1. I have the honor in reply to your letter No. 6,358, dated 7th instant, forwarding Proceedings of Government received from the Board of Revenue to state for information that I can with equal facility keep in my custody a lac of Rupees per mensem as half a lac, which I now do, having sufficient chests and a Military guard over them, and additional security is afforded from my Office being in the vicinity of the European Barracks; should however the Native guard require to be strengthened, that, I presume, could be easily done, and which would not involve any expense.

2. With reference to the second point on which Government require information, I beg to state that I should require two extra servants, an Accountant and Cashkeeper and a Shroff. The salaries required for these two individuals would amount to about 50 Rupees a month. These extra servants are indispensably necessary, for my present Establishment is so small, and the work so very heavy that it is with great difficulty business is prevented from falling into arrears.

Ordered to be submitted to Government with reference to their Proceedings, dated 29th November 1860, No. 2,268, Revenue Department.

(A true Extract and Copy.)

No. 257. ORDER THEREON, 19th February 1861, No. 386.

1. In the Order of November 29th, No. 2,268 the Government asked two questions respecting the proposed arrangement for payments at Cannanore, on the abolition of the branch Treasury at Tellicherry.—

(1.) Whether the Military Paymaster had the means of securing the large sum of money which will come to him.

(2.) Whether he would need any additional servants, and if so what.

2. The Collector, after communicating with the Paymaster, now reports that that Officer has ample means of securing the additional funds. Indeed this addition will be inconsiderable. The cash now sent to the Paymaster yearly for Military payments is nearly eight lacs, as stated in the Board's Proceedings of October 31st (paragraph 4), or six and a half lacs as stated by Mr. Grant in his letter recorded above. His additional receipts under the new plan, will be about one and a half lacs, or from one-fourth to one-fifth of the present receipts.

Proceedings of the Madras Government, Revenue Department,
19th February 1861.

3. To the second question the Deputy Paymaster replies that he will require two servants, viz, an accountant and cash keeper and a shroff, the monthly cost of the two being about 50 Rupees. The Government do not quite understand what is meant. It would seem from the servants asked for, that the Paymaster contemplates keeping the cash of the Civil and Military Departments distinct. This would be a great mistake, similar to that which obtained up to a few years ago in the Taluqs, but which has been abolished. At every well regulated Treasury there is but one cash chest for all funds, and one cash account.

4. Looking at the smallness of the additional work, and the present amount of payments and of accounts compared with Establishment, the Government are of opinion that no additional servants are wanted.

5. The actual cash transactions of the Paymaster at present are stated above at six and a half to nearly eight lacs, but his payments of all kinds, for which he has to keep accounts, amount to above twenty-one lacs; as shown in the statement obtained from the Accountant General. One and a half lac added to this amount is quite insignificant.

6. Further, it is seen in the same statement that the disbursements of the Trichinopoly Paymaster are thirty-four and a half lacs; yet the cost of his Establishment is only 420 Rupees, monthly, being 70 Rupees more than at Cannanore. Again the Paymaster at Bellary disburses sixty thousand Rupees more than Cannanore, with an Establishment of 20 Rupees a month less; and Vizagapatam, with an expenditure only half a lac less than Cannanore, has an Establishment less by 50 Rupees a month.

* 1 Head Clerk and Accountant.....	100	7. Judging by the mere amount, then, no augmentation of Establishment seems to be needed at Cannanore; and this view is confirmed by a reference to the details* of the existing Establishment. The Establishment is complete in all its parts, viz., correspondence, accounts, custody of cash, and handling of cash, and the Government see no place in which any addition can be required for the proposed small augmentation of work, except on the supposition that it is proposed to keep the Civil cash distinct from the Military; which, as already noticed, would be a wholly faulty arrangement.

8. As it thus appears that no additional Establishment is necessary, the Government decline to sanction the application.

9. The Government now authorize and direct the adoption of the third of the three modes of proceeding enumerated in paragraph 3 of the Board's Proceedings of 31st October 1860, No. 5,013, which is that recommended by the Board. This course will be, in fact, merely to send direct to the Military Paymaster month by month those amounts which under the old system would have been sent to the branch Treasury at Tellicherry.

10. The money so deposited in the Paymaster's cash chest will be held by him at the disposal of the Collector; and will only be made available for disbursement on specific instructions from him.

Secretary to Government.

2
The meeting, during the meeting
present in Ken 50 & 227.

present in the Order of the Ken
first asked two questions re-
specting the proposed annex-
ion of the Territory of Cassamun.

1st. whether the Vaymote has
the means of securing the large
sum of money which will come
to him.

2nd. whether he will need
any additional servants, & if
so what -

2. The Com. after commu-
nicating with the Vaymote,
has reported that that officer
has ample means of securing

the additional funds. Indeed the
addition will be immaterial.

The cash now ~~under~~ ⁱⁿ this year
for military purposes is nearly eight
lacks, as stated in the Board's Book
of Oct 31. (Para 4); or $6\frac{1}{2}$
lacks, as stated by Mr. Jones in
his recent telegram. The additional
to be made will be $1\frac{1}{2}$ lacks;
or from one fourth to one fifth
of the present receipts.

3. To the same question the
John Haynes replies that he will
require two services, viz. an accountant
& Cash-keeper, & a staff, the monthly
cost of the two being about 50 Rs.

I don't quite understand what is
meant. It would seem from the
services asked for, that the President
contemplates keeping the ~~receipts~~
Cash ~~in the hands of the~~ of the Comptroller &
Auditor, & ~~some~~ ^{some} distinct. This
would be a great mistake, similar
to that which obtained a few
years ago in the Treasury, but now
abolished. At any well regulated
Treasury there ~~should~~ ^{is} but one
Cash chest for all funds, & one cash
account.

4. It is a matter of course
that being asked the question,
that the President will ask for an
additional Establishment. But looking at
the smallness of the additional

would, & the present amount of payments
of accounts embodied in the
I doubt if any additional amounts
at all are really wanted.

5. The actual cash transactions of
the payments as presented are stated at
at from $6\frac{1}{2}$ to nearly 8 lacs; but
his payments of all kinds, for which
he has to keep accounts, amount to
about 21 lacs. One & a half lacs
added to this is nothing.

6. Further, it is seen in the
same statement from the Acct.
Genl. that the disbursements of
the Indian Paymaster are $34\frac{1}{2}$
lacs; yet his Estimate is only 420
Rs., being 70 Rs. more than

2) Cannonone's Repair, in the same statement,
the payment at different districts
about 6000 Rs. more than Can.
- amount, with an establishment
- amount of 20 Rs. a month
left - and Vijayabala
with an establishment of half a
lacs less than Cannonone, has
an establishment of 50 Rs. a month.
7. Judging by the same
amount, then, I should say
that no augmentation is needed
at Cannonone, & this view
is confirmed by a reference
to the details of the existing
Establishment as shown in the ac-

comparing Statement A.

The Establishment as there is
no complete in all its parts, viz

Construction, accounts, custody
of cash, & handling of cash.

There is no place in which any ad-

dition can be required for the
proposed

small augmentation of

work, as up to the supposition

that it is possible to keep the

cash distinct from the

working; which, is already

noticed, and be a little fault,

arrangement.

8. On the whole, it seems

to me that no additional
establishment be given.
