*Proceedings of the Madras Government, Revenue Department,
4th April 1861.*

No. 24. Read the following Proceedings of the Board of Revenue, dated 22nd March 1861,
No. 1,507:—

Read the following letter from A. PURVIS, Esq., Collector of the Godavery District, to
J. D. SIM, Esq., Secretary to the Board of Revenue, Fort Saint George, dated Alamur
1st March 1861, No. 27.

SIR,

1. I have the honor to bring to the notice of the Board that certain merchants and residents of Cocanada and the adjoining Town of Jaggernadahapuram, deeming it of great importance that a Municipal Association should, if possible, be introduced into these Towns, and thinking a good example might be of use, have raised among themselves the sum of Rupees 400, with the view to the same being spent in making some roads about the place. They have requested me to bring the circumstance to the notice of higher authority, and to solicit sanction to the grant of an equal sum towards the same object.

2. The work more immediately contemplated when the subscriptions were raised was the improvement of the square at Jaggernadahapuram, and the making a road round the same. The work was one in the propriety of executing which I fully concurred, and is now in progress. The funds in hand will hardly admit of the work being executed in so efficient a manner as is desirable, and other roads are greatly in need of improvement.

3. Under these circumstances, and as an attempt of the kind deserves every encouragement, I beg strongly to recommend that I may receive authority under the Government order of the 20th June 1859, No. 813, to disburse a sum of Rupees 400 from the local Funds in hand which amount to between 14 and 15,000 Rupees. I can, I think, engage that the money will, under the supervision of a Committee of gentlemen interested in the matter, be laid out to the best advantage.

1. Resolved that the above letter be submitted for the orders of Government.

2. The Collector will explain from what source the large amount of local Funds mentioned in his letter, viz., between 14,000 and 15,000 Rupees has been derived. The balance at the close of 1859-60 was only Rupees 429. He will also state what arrangements are being made for the profitable outlay of the sum in hand.
