Proceedings of the Madras Government, Revenue Department,
16th April 1861.

No. 257. Read the following letter from Messrs. LINE & Co., to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated Madras, 10th April 1861:—

SIR,

1. As Agents for the Cotton Supply Association in Madras, we have been requested by C. J. Barter, Esq. of Tuticorin, to apply to Government for information on various points connected with the cultivation of Cotton in Tinnevelly.

2. By the help of this information Mr. Barter proposes to draw up a report which he thinks would be interesting to the Association. His long residence in the Districts and connection with the Cotton trade would we think make his reports valuable.

3. We have the honor to enclose Memoranda drawn up by himself showing the information required, and shall be glad if His Excellency in Council will comply with his wishes as far as His Excellency considers desirable.

TINNEVELLY.

Quantity of ground under indigenous Cotton cultivation in this District during the official year 1849 to 1850 and again during 1859 to 1860, *specifying each Táluq separately*, with the quantity of unoccupied or uncultivated land capable of its growth with the Collector's full reasons for its not being under cultivation.

Access to Doctor Wight's, Mr. Fenny's and Mr. Cuxton's correspondence on the subject of Cotton and now in the possession of the Collector of Tinnevelly with all invoices, account sales, &c., of Cotton shipped by Government from their farms.

MADURA.

Quantity of ground under indigenous Cotton cultivation in this District during the official year 1849 to 1850 and again in 1859 to 1860, *specifying each Táluq separately*, with the quantity of unoccupied or uncultivated land capable of growing Cotton with the Collector's full reasons for its still being uncultivated.

COIMBATORE.

Quantity of ground at present taken up for Bourbon Cotton cultivation in the several Táluqs, *giving each Táluq separately*, with the quantity of unoccupied or uncultivated land capable of growing this Cotton and Collector's full reasons for its being so, with suggestions why other Táluqs have not taken up the cultivation of this description of Cotton.

Quantity of ground at present taken up for indigenous Cotton throughout the District.

No. 258. ORDER THEREON, 16th April 1861, No. 851.

1. Ordered to be communicated to the Board of Revenue, who will instruct the Collectors of the Districts named to supply Mr. Barter with the statistical information wished for by him, so far as their records may enable them to do so.

2. The Collector of Tinnevelly will also be authorized to permit Mr. Barter to have access to the correspondence and papers in his possession, connected with the late Cotton farm, and to take copies and make extracts.

3. With regard to the reasons why Cotton is not more extensively grown, on which Mr. Barter wishes for explanation and information from the Collectors the Government will pass no order. But they do not doubt that if Mr. Barter applies to the Collectors he will find them willing to aid his inquiries so far as may be in their power.

(Signed) J. D. BOURDILLON,
Secretary to Government.
