Proceedings of the Madras Government, Revenue Department, 2nd June 1862.

No. 12. Read the following letter from Lieutenant-Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, Northern Circle, to Lieutenant-Colonel W. H. HORSLEY, Secretary to Government, Public Works Department, dated Chepauk, 11th April 1862, No. 263/G. 33:—

1 Letter from the Collector of Godavery, No. 1, dated 5th February 1862.
1 Estimate.
1 Specification.
1 Proceedings Board of Revenue, No. 2,076, dated 31st March 1862.
3 Plans.

SIR,

1. I have the honor to submit herewith for the consideration of Government a Plan according to which it is proposed to construct Táluq Kacheris at "Amlapore," "Nursapore" and "Ramachendrapore" respectively in the Godavery District, at an estimated cost for the first mentioned kasbah station of Rupees 6,290, for the second (Nursapore) of Rupees 6,490, and for the third (Ramachendrapore) of Rupees 6,220, making a total for the three buildings of Rupees 19,000.

2. Plans and Estimates for Kacheris at the same places were originally sent in by the District Engineer in October 1861, but the amount* which it was proposed to expend was so entirely out of proportion to the object sought, that the documents were returned from this office with a modified plan, according to which an estimate was directed to be framed.

* Rupees 34,560.

3. On receiving it I placed the subject before the Board of Revenue, who passed Resolutions upon the papers which I submitted to them, under date 31st March 1862, No. 2,076†; the tenor of which leaves me in doubt as to any other cause to be pursued than that of taking the orders of Government upon the question at issue.

† Enclosure.

4. The Collector, it will be observed, represents the erection of a Kacheri at Amlapore as a measure of urgency, and the Government will hence probably be pleased to grant authority for expenditure for that particular building to the extent of Rupees 6,290, out of the General Reserve Fund in 1862-63, leaving the question of the construction of the Kacheris at Nursapore and Ramachendrapore for future consideration.

No. 13. ORDER THEREON, 2nd June 1862, No. 1,212.

The estimates for these buildings appear to Government to be exceedingly large, and they wish to know whether this is owing in any material degree to the adoption of the standard plan. If it is, the Chief Engineer can deviate from that plan, and suggest some other of a suitable and more economical character. A Tahsildari office of the second class contains only fourteen officers above the grade of Peons, and the accommodation provided in the plan seems much too large for such a number.

(Signed) A. J. ARBUTHNOT,
Acting Chief Secretary to Government.

Referred for the
consideration of the

N° 263

N° 1212. 2d June
Submits Plans and Estimate amounting in the aggregate to _____ Rs
for constructing Tahsil Cutcherries at "Amlapore" "Narsapore" and "Ramachandrapore" in the Godavery District and recommends that the one at Amlapore costing _____ Rs may be sanctioned for execution from the General Reserve Funds of 1862/63.

With an Order

I object altogether to be used as a boundary in the attempt to make the Tahsildar catching a small Tyrean Bashaw - for these buildings for which the plan is as shewn - I had exceedingly large and they letter be reduced altogether and made to resemble a quiet domestic building substantial

owing in any material degree to the adoption of the standard plan - If it is, the Chief Engineer can decide from that plan and suggest some other suitable and more economical character - a Tahsildar

From Sec. Govt. 2d June 1862
Office of the Chief Engr. 2d Class
Public Works Dept. with Govt. Order
Board of Revenue only 16 Officers above the grade of persons such the accommodation provided in the plan seems more to large for such a Tahsildar
