Read again letter from the Collector of Vizagapatam, dated 31st July 1861, No. 820, forwarding 12 Statements of compensation due for lands taken up for 12 cross roads in his District.

(In Cons. 19th August 1861, No. 5,305.)

Read also again letter from the same Officer, dated 26th February 1862, No. 149, forwarding a revised Statement of compensation due to Zamindárs and other Proprietors on account of land other than Inám taken up for the cross roads in his District.

(In Cons. 6th March 1862, No. 1,320.)

Read also the following letter and Statement from the same Officer, dated 9th April 1862, No. 255:—

With reference to the Proceedings of the Board of Revenue, No. 1,902, dated 21st March last, I have the honor to forward herewith two Statements* showing the particulars required by the Board.

* Marked A and B.

ENCLOSURE No. 1.—A.

ABSTRACT.—Statement showing the compensation due to Zamindárs and proprietors in the Vizagapatam District from Faslis 1263 to 1270.

ENCLOSURE No. 2.—B.

ABSTRACT.—Statement showing the remission to be given annually in the Vizagapatam District to Zamindárs, and proprietors, &c., whose lands have been taken up for roads for Faslis 1271.

1. Resolved that the above papers be submitted for the orders of Government.
2. In the first letter above recorded, the Collector of Vizagapatam sought the sanction of Government for the disbursement of Rupees 25,930-3-5, to certain Zamindárs and Inámdárs as compensation due to them from Fasli 1263 to Fasli 1269, for lands appropriated in their several Estates on account of the 12 cross roads in the District, and also for the annual payment to them thereafter of Rupees 4,691-10-0, or the aggregate Sist of the land. The Board, however, considered some further information necessary in respect of the Inám lands for which compensation was proposed, but Mr. Fane reports in his second letter that he is unable as yet to obtain the particulars called for owing to the different changes attending the introduction of the new Police, and to the re-arrangement of the Tálúqs, and that as the Inám Commission is at present prosecuting its work in the District, it is desirable to defer the settlement of the remuneration due to the Inámdárs until the proceedings of the Commission are closed.

3. The compensation now proposed by the Collector, and which the Board recommend to be sanctioned, accordingly only for lands other than Inám, and comprises a present payment of Rupees 15,533-0-3, being the aggregate Sist of the lands in question from the time they

4. The excessive delay that has occurred in the preparation and transmission of the Collector's Statements is explained to have been unavoidable. The accounts it appears "were first prepared in 1857 in the Collector's Office and were sent to the Engineer's Department," but as they did not tally with the measurements in the accounts of that Department, it was proposed by the then Collector and District Engineer that "certain subordinate officers of both Departments should collectively go over the whole of the roads again, examine them, and correct together the accounts;" and that "from various causes this was not done till April 1861, since which no time has been lost in condensing and compiling the Statements."

1. The Board think further explanation necessary as to the future annual payments proposed to be made in compensation for lands occupied by roads.
2. In regard to the Zemindaris, it appears preferable to make a reduction of the Peshkush rather than to continue these annual payments.
3. But in connection with lands occupied in Inams further explanation is necessary.
4. It is presumed that none of these Inams are included in Zemindaris still held on that tenure, but if any of them are so, and are not excluded from the assets of the permanent settlement, it is evident that Government must deal with the Zemindar, not with the so-called Inamdar.
5. But in regard to Inams excluded from the Zemindary assets or in villages not Zemindary, it requires to be explained what is the nature of the service in the case of Service Inams, and on what grounds the Inam is deemed other than personal in regard to Charity Inams.
6. In giving compensation for the past, present occupants of Inams may without objection be dealt with as if holding on an unquestionably good tenure; but when Government is to be committed to an annual payment for the future, something more requires to be known of the facts of the case.

7. The Board are disposed to think that in all these cases of Inams, it would be preferable to commute the annual payment for a further present payment (in addition to the compensation for the past) at so many years' purchase of the annual payment. The Board will be glad to have the Collector's opinion on this proposal. He must bear in mind that under the operation of the Inam Commissioner the enfranchisement of an Inam from its contingent risks of lapse or resumption under the old rules or practice, involves the future payment to Government of a Jodi, and the present assignment of an annual payment by Government to the Inamdar might tend to complicate this arrangement.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 21st March 1862.

Read the following letter from E. G. R. FANE, Esq., Collector of Vizagapatam, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, Madras, dated 26th February 1862, No. 149:—

1. Referring to the Board's Proceedings, dated 26th August 1861, No. 4,630, I have the honor to request the Board will obtain sanction for payment of the compensation to Zemindars and Proprietors, &c., on account of the lands, other than Inam, taken up for the roads amounting in the aggregate to Rupees 13,134-4-10, as per Statement accompanying. The eventual annual payments may, as proposed by the Board, be made by a reduction in their Peshcush.

3. The Inam Commission is now going on in the District, and as it is desirable that the compensation should be paid to the proper parties, I shall defer the settlement of that portion of the remuneration until the Proceedings of the Commission are closed; meanwhile the accounts connected with have been referred to that Department for their information.

ENCLOSURE No. 1.

ABS.—Statement showing the compensation payable to Zemindars and others in the District of Vizagapatam, on account of land taken up by the cross roads made by Government from Faslis 1263 to 1269, as also the amount to be paid annually commencing from Fasli 1270.

The Collector is requested to forward with the least possible delay a Statement showing for each Zemindary, &c., the total extent of land taken in it other than Inam, the annual Sist due upon it, the number of years for which compensation is due for last produce, and the total amount of compensation payable up to Fasli 1270, as well as the amount by which the Peshcush of each Estate is to be reduced from Fasli 1271, the information contained in the Statement already submitted with the above letter being too meagre to admit of any check in this Office.

The Board, however, considered some further information necessary in respect of the Inam lands for which compensation was proposed, but Mr. Fane in his second letter that he is unable to do so, and that he is called for owing to the different changes attending the introduction of the new Police, and to the re-arrangement of the Taluks, and that as the Inam Commission is at present prosecuting its work in the District, it is desirable to defer the settlement of the remuneration due to the Inamdars until the proceedings of the Commission are closed.

4. The excessive delay that has occurred in the preparation and transmission of the Collector's Statements is explained to have been unavoidable. The accounts it appears "were first prepared in 1857 in the Collector's Office and were sent to the Engineer's Department," but as they did not tally with the measurements in the accounts of that Department, it was proposed by the then Collector and District Engineer that "certain subordinate officers of both Departments should collectively go over the whole of the roads again, examine them, and correct together the accounts;" and that "from various causes this was not done till April 1861, since which no time has been lost in condensing and compiling the Statements."
