---

1. The Governor in Council has observed in the late Annual Revenue reports from certain Districts that Collectors have not confined their attention to reporting on the operations of the Public Works Department within their own limits, but have also proceeded to comment at large upon the system on which the Government have directed that Department to be administered.

2. In so doing they have exceeded their province, and they will be instructed by the Board of Revenue to confine their comments in future to a narrative of facts and to the quantity and quality of the work executed, as such particulars are quite sufficient to enable the Government to judge of the successful working or otherwise of the system and of the necessity for any changes therein.
