Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 11th July 1862.

No. 173. Read the following letter from D. F. CARMICHAEL, Esq., Acting Agent to the Governor, to A. J. ARBUTHNOT, Esq., Acting Chief Secretary to Government, Fort Saint George, dated Vizagapatam, 27th May 1862, No. 421 :—

SIR,

1. In their Proceedings dated 19th February 1862, No. 268, Judicial Department, the Government reiterated their offer to contribute an amount equal to that collected by each Municipality that might be organized by the communities of the chief towns throughout the Presidency, for sanatory and other public purposes.

2. I have the honor to submit herewith—

1. A report (in print) of the Vizagapatam Association.
2. A do. of the Report of the Bimlipatam Association.
3. A do. translate of the Report of the Vizianagram Association.

The first and third are for the calendar year 1861. The second is for the official year ending April 30th last. I request instructions as to what should be the uniform practice in future.

3. The Vizagapatam Association is of considerable standing. It was founded by Mr. Reade in 1857. Its proceedings have frequently called for favorable notice from Government. The residents cheerfully acknowledge its benefits, and it has the cordial support of all classes. The account current printed at the end of the Report shows our receipts for the year at Rupees 16,669-10-1, but deducting items 1, 2, 6, 8, 12, 13, 14, 15, 16, our real collections amount to Rupees 11,003-9-6, and I have the honor respectfully to request a Government grant to that extent. It will be seen that our principal receipts are for house assessment, market fees and ferries, which latter we rent from the Government at 150 Rupees a month, paying our own Establishment.

4. It may perhaps be objected that the fund realized by the sale of the swamp land (item 9) is in effect a contribution from Government, whose land it is. But the answer to this is that the ground lay perfectly valueless (besides being a serious nuisance to the townspeople) till the Association drained it and made a road across it (*vide* disbursements under "roads") at an expense which has not been covered by the sale of the ground thus improved. As for the "chucklers' ground," (item No. 10), we had to pay compensation to the chucklers to an extent far in excess of the sum realized by the sale of the site. These people have been accommodated on a strip of land generously made over to the Association by the Waltair Proprietor.

5. At Bimlipatam, where the Association has not been twelve months at work, the collections up to 30th April last come to Rupees 4,402-5-4, for which an equivalent is likewise solicited from Government. At Bimlipatam there were great murmurs about the proposed house assessment. It is the wish of Government that all these taxes should be perfectly voluntary. I therefore went over there, and after holding a public meeting of the inhabitants, found that the thing could not be pressed. The people were not by any means averse to the Association as such, but deprecated only this particular form of taxation. It was therefore agreed to enhance slightly the existing rates of the bandy tax, which falls principally upon the shippers of Oil Seeds and Jaggery, and ultimately therefore upon the consumers in European markets. I left Bimlipatam, quite satisfied that, by this arrangement and by the adjustment of some difficulties about opening up certain new thoroughfares which the Committee, were desirous of pressing forward, matters will hereafter proceed unanimously enough.

6. I then went on to Vizianagram. The Association there was only commenced in the spring of 1861, and the collections to the end of December last amounted to Rupees 2,842-12-9. They consist of the returns of a single tax, as at Bimlipatam, that on bandies passing in and out of the town. This year an assessment on houses has been settled and is being carried out. I heard of no opposition. Both at Vizianagram and Bimlipatam, great improvements are being made to the towns. The Committee at Vizianagram consists of native gentlemen only, with the Rajah as Honorary President. I suggested that the senior Assistant Agent and another European should be added.

7. The total sum, then, for which sanction is respectfully requested, is Rupees18,248-11-7, viz :—

	Rs.	A.	P.
For Vizagapatam...	11,003	9	6
For Bimlipatam	4,402	5	4
For Vizianagram...	2,842	12	9
	18,248	11	7

No. 174. ORDER THEREON, 11th July 1862, No. 1,513.

1. With this letter, the Acting Agent in Vizagapatam forwards three Reports of the Municipal Associations of Vizagapatam, Bimlipatam and Vizianagram; two being for the calendar year 1861, and one for the official year ending 30th April 1862.

2. The Governor in Council has perused these interesting Reports with much satisfaction, and he considers the Associations deserving of every reasonable support. *A sum of Rupees 18,248-11-7* in all is applied for as grants to the three Associations. The local fund in the Vizagapatam District being very trifling, sanction is granted for the abovementioned amount being met, if practicable, out of the Public Works funds. On this point definite orders will be issued in the Public Works Department. It must be understood, however, that when the heavy cost for new improvements shall cease, and the funds begin to have a capital, all aid from Government to these Associations will be withheld.

		Rs.	A.	P.
* Vizagapatam Association...		11,003	9	6
Bimlipatam	do. ...	4,402	5	4
Vizianagram	do. ...	2,842	12	9
Total...		18,248	11	7

3. In future, the Board of Revenue will see that due provision is made in the annual Budgets for grants to these and similar Associations.

4. The Government consider it desirable for the sake of uniformity that the future annual reports of the several Municipal Associations should invariably refer to the official year, and they accordingly request the Board will arrange for this being done.

(Signed) A. J. ARBUTHNOT,
Acting Chief Secretary.

REPORT OF THE

SUB COMMITTEE OF THE

VIZAGAPATAM MUNICIPAL ASSOCIATION

FOR THE YEAR ENDING 1861.

1. The Sub Committee have much pleasure in submitting their report of the working of this Association during the past year,—being the 4th of its existence.

2 The resources of the Association were as usual 3 in number (I) Town (2) Market (3) Ferries. The annexed table (A) shews the demand, collection, and balance, current and arrears, during the above period, of the several sources mentioned.

3. From the foregoing, it appears that Rupees 9061-7-7 were collected up to the 31st December last, on account of the Association. If to this be added the benevolent grant of Rupees 2000 0 0 made by Government under date the 29th November 1861. No. 2242. and Rupees 5608-2 4 realized from other resources, and mentioned in the sequel, the total receipts of the year under review will be Rupees 16,669-10-1

4. The Association has with these funds accomplished during the year much towards the improvement of the Sanitary condition of the Town; the establishment has also been revised most beneficially.

Town.

5. In the Town, several streets have been widened, running east and west, so as to freely admit the sea breezes. In different parts of the Fort and Chengulroypetta, stone and brick drains to the extent of 547 yards have been sanctioned, and advances made, 287 yards of which have been completed, and the remainder is in progress.

6. The causeway on the west of the Town is completed (gravelling excepted), and will be thrown open to the public very shortly; this will save the necessity of the Fort people passing through a densely crowded Bazar to go to Waltair. A quantity of land was reclaimed by this causeway being thrown up, and it was duly sold at auction; it fetched Rupees 1013-1-1. and the sum carried to account of the Association as shown in the account current attached.

7. Two wells that were in the centre of the main street, and great hinderances to the traffic entering the Town from the landing place, were removed; and thereby the main street much widened: to prevent any inconvenience to the people 2 other wells were sunk within 100 yards of them.

8. During the prevalence of Cholera last June and July, some expense was incurred in removing houses, white washing &c. and in the general sanitary improvement of the fishermen's quarter in the Town, the whole having resulted in the fish village, being perhaps the cleanest part of the Town. The Offg. Inspr. Genl. of Hospitals Doctor Smith has publicly said "that he rarely met a fish village in England as clean as this".

9. A new road is contemplated and has been partially opened out on the Sea face of the Town, commencing from the ice house near the landing place and extending to the north, parrallel with the Civil Dispensary a distance of 1777 yards; it is to be 6 yards broad, and will give the public an additional means of recreation, and eventually means of communicating with Waltair without passing through the Town.

10. During the year 26 additional public privies permanent and temporary have been erected, making in all 34; another dozen will suffice, and these the Association hope to erect during the present year.

11. On the requisition of the Civil Surgeon for a subscription to the Civil Dispensary, the Government having limited their monthly donation to 50 Rupees, the Committee have granted a monthly sum of 15 Rs.

12. The large Tank called Dyk's tank near the Sepoy lines, the resort of all travellers and bandy men, and from whence is the sole supply of water for that class of people, having been pronounced unhealthy from accumulation in it of quantities of filth and mud, was deepened by three feet at a cost of Rs. 796-2-11 and has been a very successful undertaking. Trees have been planted on its banks and also a couple of Troughs were built for the use of the cattle watering there.

13. In different parts of the Town, huts have been removed and the streets been widened; which measure it is hoped will improve the health of those localities as much as it has their appearance.

14. In the month of May, it was found necessary to revise our Establishment, and to bring it under better management, and instead of 4 Bill Collectors on 5 Rs. each, one Goomashta and two Peons were put in, the former on 7 Rs. and the 2 latter on 4 Rs. each per month.

Market.

15. The Market rules were revised during the year, and the rates made lighter for both Carts and Bullocks. Two Tannahs were established; one at Teecavaneepoliem and the other at Gollalapoliem, a Goomashta and distributors of Tickets were attached to each of those places.

16. The following establishment was entertained from 1st April 1861.

1	European Superintendent.....	10	0	0
2	Goomashtas at 5 Rs. each.....	10	0	0
2	Ticket distributors at 2½ each.....	5	0	0
1	Peon.....	5	0	0

17. Having by this means found out pretty accurately what the market ought to produce, the Association determined to rent it out, and in September last it was put up to public competition, printed notices were circulated through the different parts of the Town, inviting tenders, and in November the most favorable bid was accepted, the Association retaining the European Superintendent in the market on a slightly increased salary to preserve order in the market and to guard against any unjust exactions or demands that might be made in the market, by the servants of the contractor.

Ferries.

18. A landing place at the Western Ferry has been built at a cost of 220 Rupees through the Engineer's Department of this District to facilitate the passage of bandies over the Ferry.

CONCLUDING REMARKS.

19. The Committee have had in contemplation various other improvements of the Town, but unfortunately their means are, not equal to their wishes, a sum of money, 2000 Rs. was borrowed last year at 5 per cent, but would have remained unpaid to this time had not the Government generously stepped in with a gift of 2000 Rs. with this the Committee were not only enabled to pay off the remainder of the debt in question but with the small balance and the present monthly assetts have been able to undertake the repairing of an old house formerly occupied by the Taluk Post; as this house will be sufficient for both the sittings of the Association and for the public reading room, the rent 35 Rs. a month of their present place of meeting will be saved.

20. The Account Current of the Association for the year is hereto annexed.

REPORT OF THE

Bimlipatam

MUNICIPAL ASSOCIATION

FOR

THE YEAR

1861.—62.

Vizagapatam:

PRINTED BY W. BERRY, AT THE LONDON MISSION PRESS.

1862.

To,

D. F. CARMICHAEL Esq.

ACTING COLLECTOR,

Vizagapatam.

SIR,

Adverting to my letter of 22nd April I have now the honor to submit a report of the Association's proceedings since its establishment.

2. Before however entering upon the subject I wish to express the great regret felt by the Committee that the present statement should be of a most meagre and unsatisfactory character. Our comparative failure hitherto is to be attributed to two causes: first, the absence in this town of a Gentleman possessing full Magisterial powers and thus assisting, by the exercise of his authority in promoting those public works of utility and necessity, which it is the main design of Municipal Associations to carry out and in the 2nd place our Association has not met with the cooperation of the Native community. At first they shewed a certain amount of interest in our proceedings, and the committee for many months hoped that by a patient and forbearing policy the assistance of the inhabitants might be secured. But that hope has proved delusive. Hence the present sorry result.

3. The Aassociation was inaugurated on the 9th February 1861 at a public meeting presided over by Mr. Fane, at whose suggestion a committee was formed on the spot, composed of two European and eight Native Gentlemen with permission to add to their number; at a subsequent meeting on 13th idem, the committee was further increased by four, two European and two Native Gentlemen and a Sub Committee was appointed to report on the steps to be taken for carrying out the purposes of the Association.

4. On 20th of same month the Sub Committee's report was furnished and approved. Its main features were that a plan should be made of the town, the streets named, the

4402-5-4, of this amount Rs. 2428-1-10 has alone been expended Rs. 923-7-1 being cost of the establishment and Rs. 1504-10-9 the expenditure in public works. Thus we have a balance on hand of Rs. 1974-3-6 which with the collection of the Cart tax for the ensuing 12 months will make an amount of something like Rs. 6,000 available for the year 62-3 and with this sum of money assuredly great improvement may be effected in the town.

11. Whilst therefore I commenced this letter by expressing regret that the present report should not be satisfactory, I end with the expression of a very confident if not certain hope, that with the extension of your confidence and support the statement we should be able to submit in another 12 months, will shew good and substantial results.

Municipal Assoctation Office. *Bimlipatam* *3rd May* 1862.

I have the honor &c &c.
(Signed) GEO. RIEPLY,
President of Committee.

D. F. CARMICHAEL,

Acting Collector.

REPORT OF THE

Vizianagram

MUNICIPAL ASSOCIATION.

FOR

THE YEAR ENDING

1861.

Vizagapatam:

PRINTED BY W. BERRY, AT THE LONDON MISSION PRESS.

1862.

REPORT OF THE

VIZIANAGRAM

MUNICIPAL ASSOCIATION.

HONORARY PRESIDENT.

SREE VIZIARAM GAJPATIRAZ MAHARAZ.

MEMBERS.

1. SREE PENUMATSA JAGANNADHARAZ.
2. DASIRAZ NARSAIYA PANTULU.
3. BABAMIYAH.
4. AJEESHARIFF.
5. MR. GEO. JOHNS.

Report of the Sub Committee of the Municipal Association of Vizianagram for the year 1861.

1. The Association was first organised on the 10th of March 1861 and the work performed by them during the year is as follows. A Cart Tax alone has been levied, the assessment on Houses not being as yet fully settled.

2. The Association having been only recently established, it was not possible for them either to fix the House Tax, or to open up any other source of Income. There was therefore no fixed estimate of any source whatever so as to allow the submission

of a Statement of Demand, Collection and Balance, but the Receipts and Disbursements of this year are herein exhibited.

3. A small tax of various rates viz. one Anna, six pice, three pice, and one pice, has been fixed upon Bullock Carts and loaded Bullocks that come in and go out of the Town of Vizianagram, and this done without giving cause for complaints. A small establishment of Gumastahs &c. is entertained and located on all sides of the Town for the levying of the tax. The Collections made under this head amounted to Rs. 2842-12-9 up to the end of December, of this Rs. 1968-1-11 have been spent on various works and for other purposes as per Account Current attached, Rs. 500 out of the surplus money have been laid out at interest at 9 per Cent.

4. The execution of these works has conduced much to the comfort and health of the inhabitants, as well as of visitors, and every body is very well pleased in consequence.

5. Hereto there were made roads only in the Main Streets of this Town, and the want of them in others also has been much felt by the people, especially in the rainy season, as it was with very great difficulty that they could walk through them, Bandies &c. having hardly any access into them, while on the other hand, the accumulations of filth and dirt were so great that diseases and discomfort have been the inevitable consequences thereof. The Sub Committee therefore being very anxious about remedying the evil as early as possible, has been able to make regular roads in 14 Streets, the road being 6 yards broad, and metalled with gravel 4 inches thick. and also provided with drains on both sides. The Sub Committee have further adopted measures for the speedy completion of the remaining Streets in the ensuing year.

6. The formation of the said roads has proved very beneficial to people. They are traversed by the people with great satisfaction. The Streets are now kept clean, and are free of any nuisance, while Bandies &c. are passing freely through them.

7. The said roads are also furnished with bridges made of stone for the passage of water at such places where they are found necessary, the particulars of which are entered in the Account Current. These bridges are of course intended to protect the roads from being washed away.

8. It came to the notice of the Sub Committee that the existence of Pricklypear in, and at the end of some of the Public thoroughfares, as well as in the hedges of people's enclosures has been in various ways hurtful to both man and beast, and the Sub Committee being convinced of the injurious effects of this obnoxious plant, caused it to be cut down and buried a great depth under ground with lime water sprinkled over it. The Town is now completely cleared of the Pricklypear, and the people in general having derived much benefit from its removal, are happy at what the Association has done.

9. There being no building belonging to the Municipal Association for the meeting of the Sub Committee, the Rajah the Honorary President has been kindly pleased to grant them a Bungalow together with chairs and tables, while at the same time Sree Penumatsa Jagannadaraz gave them a Choultry and room for their Office use. These grants have saved the Association the expence and necessity of renting a House for the said purposes.

10. The Maharajah of Vizianagram has resolved to have Public Privies erected in all the four sides of the Town of Vizianagram at his own expence, and has actually commenced with the work. Four Privies

are already under preparation, and as the number will be increased by His Highness himself, it precludes the necessity on the part of the Association, of writing further on the matter.

11. There is in the heart of the Town a large piece of Inam land which goes by the name of "Moonsheepolam". It was contemplated that if the ground could be obtained by the Association, and a Public market built there, it would not only be the means of increasing the traffic, but by the meeting of all the Bazars at one place, it would be very convenient to the people in general, and the Committee having mooted the subject to the Maha Rajah, His Highness expressed his high satisfaction at the prospect of improving the Market, and kindly agreed either to grant the owner another land in lieu of the above one, or to pay a value calculated upon what it would fetch the owner minus Cuttoobady. It is in the view of the Committee therefore to negotiate with the owner of the land, and to obtain it and build a market thereon in the next year, and they hope by the will of Providence to see it done soon.

12. There is a Tank called "Wooracherva" situated immediately behind the bank of the "Aiya Conaru" towards the East of the Vizianagram Town. This tank irrigates a very trifling tract of Inam land but it is so filthy and its water so stagnant in all the seasons of the year that the foul odour evaporating therefrom is intolerable, and in short it may be said to be the seat of diseases, surrounded as it is chiefly by houses. The Committee have therefore resolved to put a stop to the nuisance, and as even the Authorities had formerly sanctioned the appropriation of the ground occupied by the Tank in question for building purposes, they propose filling it up with earth and allowing houses to be erected thereon in the ensuing year.

13. The drains on either side of the principal roads in the Town not being made of stone they are liable to be silted up every year, and consequently require to be repaired frequently. So should the Association have sufficient funds from the House tax and other sources to meet the expence next year, they intend to make the drains with stone.

Dated 27 May

Rec'd 7th June 1862

No 1097 / No 421

Enclosures 3

No 1513-11 July

Submits 3 Reports of the Municipal Associations of Vizagapatam Bimlipatam and Cocanada for 1861-62 and requests that a sum equivalent to that collected by the above 3 Associations

For Orders. These reports are very interesting and the Committees deserve every encouragement - Orders are requested as to whether the full amount sought shall be granted. Whether original order (24 June 59) offering a contribution equal to any sum raised by the people. Govt intended the grant to come out of the Local Funds but this Fund in Vizagapatam is very low - Last year & the year before the Collr only asked for 1000 Rs which the Govt gave. The present application is for Rs 18,249 - This is a

Proceedings of the Madras Government
Under date the 11th July 1862

Read the following letter
from the Acting Agent in
Vizagapatam.

Submits the reports of the Municipal Associations of Vizagapatam, Bimlipatam and Vizianagrum and solicits Rupees 18,248:11:7 may be sanctioned, a sum equivalent to that collected by the above Associations.

Here enter 27th May 1862
No 421

1 With this letter the Acting Agent in Vizagapatam forwards three Reports of the Municipal Associations of Vizagapatam Bimlipatam and Vizianagram, two being for the Calendar Year 1861, and one for the official year ending 30th April 1862.

2 The Governor in Council has perused these interesting

interesting reports with much satisfaction, and he considers the Associations deserving of every reasonable support.

A sum of Rupees 18,248-11-7 * in all is applied for as grants to the three associations. The Local Fund in the Vizagapatam District being very trifling, sanction is granted for the above mentioned amount being met, if practicable, out of the Public Works funds. On this point definite orders will be issued in the Public Works Department. It must be understood however that when the heavy cost for these improvements shall cease and the Funds begin to have a Capital, all aid from

* Vizagapatam Association

Bimlipatam Do	4402.	5.	4
Vizianagrum Do	2842.	12.	9
Total	18248.	11.	7

from Government to these Associations will be withheld.

3. In future, the Board of Revenue will see that due provision is made in the Annual Budgets for grants to these and similar Associations.

4. The Government consider it desirable for the sake of uniformity that the future annual reports of the several Municipal Associations should invariably refer to the official year, and they accordingly request the Board will arrange for this being done.
