I forward a letter from the Consul at Batavia to whom I wrote some time ago on a variety of matters connected with Natural History &c -

Mr Anderson after bringing up a quantity of Cinchona Plants from Java, carried up one or two cases from Peradenia which were intended for the Java Government - he has taken them to Calcutta & believe to the Garden at Darjeeling - under

the politeness of acclimatising them there, & then sending them to Batavia - in the meantime however we are in the position of having received a consignment of plants from Java for which we have made no return, and are dependent altogether upon the fancies of an officer over whom we have no control - I spoken therefore that a case or two of varieties of Cinchona should be carefully packed and sent to the Governor of Java (as it a letter stating your explanation of the delay which has taken place) by the route indicated

with reference to the specimens of Natural History - will you please the enclosed to Mitchell at the museum, and desire him to write to the gentleman mentioned in the letter proposing an exchange of shells with the museum - and he may as well at the same time try & ascertain from them whether they could not furnish us with specimens of Brannus birds &c &c - in fact let him throw himself frankly into correspondence with them, as well as with other collectors - I have no doubt that we shall be in receipt

I exchange with a great
number of establishments
as I receive the Lancet &
Chart - only tell Mitchell
to send me back the letter
of the Consul. - Let me
also know his name
it strikes me as Mr Lachlan
but let me know what
it actually is

Yours very truly
