Proceedings of the Madras Government, Revenue Department, 12th September 1862.

No. 183. Read the following Proceedings of the Madras Government in the Public Works Department, dated 23rd August 1862, No. 2,015:—

Read the following Endorsement of the Deputy Chief Engineer, Southern Circle, dated Madras, 15th August 1862, No. 115.

Read the following letter from Captain W. T. F. FAREWELL, Acting District Engineer, Coimbatore, to Lieutenant-Colonel J. OUCHTERLONY, Deputy Chief Engineer, Southern Circle, dated Coimbatore, 26th July 1862, No. 142.

SIR,

1. With reference to Proceedings Madras Government, No. 1,097, dated 19th May 1862, communicated in Chief Engineer's Order No. 1,175, dated 29th idem, I have the honor to report that I am unable to obtain the services of a competent Surveyor to assist in surveying private properties on the Neilgherries, and therefore request you will be good enough to assist me in securing the services of a trustworthy, good Surveyor, who thoroughly understands using the Theodolite for this duty; at the same time I would note that I fear the salary proposed, of Rupees 128 including Lascars, is not sufficient to induce any trustworthy and intelligent Surveyor as required, to take an appointment like this on the hills, where the necessaries of life cost double what they do in the plains. It must be remembered that the Surveyor will be obliged to keep a pony and a regular marching establishment.

2. Paragraph 4 of the Government Order above quoted particularly directs the cost of the Survey be ultimately recovered from the proprietors of the lands surveyed, under these circumstances, I am of opinion that it is advisable to offer a higher salary, and make the pay of the appointment 178 Rupees per mensem as noted in the margin.
