the selection of an appropriate site, and for the preparation of a plan and estimate of the building.

2. Under the circumstances set forth in paragraphs 10, 11, and 12 of the Board's Proceedings, it does not appear necessary to prescribe any rule regarding the landing of these articles in separate boats, but they should invariably be specifically entered in the Boat Notes, and should be placed apart from the other articles in the boat.

3. With reference to paragraph 8 of their Proceedings, the Board will be requested, in communication with the Commissioner of Police, to consider whether the practice of storing combustible articles to a dangerous extent is so general as to require to be regulated by law. It is observed that under the Arms Act (XXXI. of 1860) no ammunition (under which is included percussion caps, sulphur, saltpetre, and gunpowder) can be kept or offered for sale except under special license.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 15th April 1863.

Read the following letter from J. H. BLAIR, Esq., Collector of Sea Customs, to the Secretary to the Board of Revenue, dated Madras, 27th March 1863, No. 388:—

1. Adverting to the Collector of Vizagapatam's proposal that Gunpowder, Sulphuric Acid and other combustibles by Coasting Steamers, should be landed in a separate boat after due notice has been given to the Custom-house, I have the honour to direct the Board's attention to it, as a rule which I respectfully suggest should be adopted and applied to combustibles landed, not only from Coasting Steamers, but to all Ships, as it will be an extra safeguard.

* See paragraph 3 of Board's Proceedings, No. 1,918, of the 17th instant.

2. I have forwarded a copy of this letter to the Chamber of Commerce, requesting their opinion in the matter.

The Board request the Collector to forward, for their information, the Chamber of Commerce's opinion of his proposal, when received.
