Remarks on the Season.

Northam. Rain fell in these Districts. In several parts of Ganjam severe Thunderstorms occurred; Paddy, Raggy, Singily, Sugarcane &c^{es} had been sown in most parts of this District and cotton in Chicacole. In the Godavery District the early dry crops were being sown. In the Krishna District the Pusa crops as Jowar, Sugar &c^{es} had

had been sown and the fields were being ploughed for dry and wet crops. In Bellary the ploughing of dry lands and the cultivation of Pimpasa crops and of Sugga and Jonna in garden lands were in progress. Prices of grain were high in all the Districts. Small-pox prevailed in all but Vizagapatam which was generally healthy.

Ceded Districts. There was a fair fall of rain in Simsb and Bellary but in Raddapah it was partial and the crops depending on ponds and wells and the Indigo crops were suffering from want of water. In Bellary and Simsb the cultivation for the early crops was in progress. Cholera prevailed in these Districts, small-pox was also present in all but Bellary. Cattle were suffering in parts of Raddapah.

East Centre. Slight showers of rain fell in these Districts.

In Madras dry grains were sown. In North Arcot the crops were generally not in a good condition. In South Arcot dry cultivation was in progress. The prices of grain was rising in North Arcot. Cholera prevailed in these Districts except in South Arcot which was generally healthy.

Canary. There were light showers in these Districts.

In Tanjore sowing for the early wet crops and dry grains had already taken place. In Trichinopoly rice and Paddy cultivation was in progress in the irrigated Taluqs and the cholera crops were harvested. These Districts were generally healthy.

4
Southern. There were partial showers in these Districts. In Madras Cholera and Sugar cane were being cultivated; the crops in some places had been reaped. In Tirunelveli the rice cultivation was progressing. Raggy and Cholera were being cultivated. Small-pox and fever prevailed in Madras and small-pox in Tirunelveli.

West Centre. Rain fell in these Districts. In Coimbatore the Puzak lands were left uncultivated; the Cholera crops were in a good state in places where there was a full supply of water in wells. The Cotton crops were suffering from want of rain. In Salem Paddy, Ambo, Veragu and Indigo had been sown. Cholera had been reaped, Prices of grain had risen. In parts of this District fever, ague and Cholera prevailed.

West. There were heavy showers in these Districts. In South Canara the cultivation of the low lying rice lands was being carried on in places where there was an abundant supply of water. In Malabar the sowing operations had been concluded and the aspect of the garden produce of all kinds was satisfactory. Small-pox and murrain were slightly prevalent in South Canara.

The following statement shows the cultivation of Indigo and cotton with their market prices up to June 1862. These are compared with the same periods in 1870. The collection of cotton and Indigo have not as yet sent their returns of cotton and Indigo cultivation in June 1862.

RECEIVED.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 14th May 1862.

(In Cons. 17th February 1862, No. 915.)

1. The improvement of the Kalasamudram Tank by the extension of its supply by throwing an anicut across a stream, having been estimated* for by the Department Public Works, and appearing to be a profitable undertaking, was submitted to Government, and sanctioned.† Connected with the increased capacity of the tank, was a question of reclaiming some waste land, by a remission of half the assessment, which was advocated by the Sub-Collector. It appeared to me that the question was one of detail, and for future consideration, after a local report. There being no data to come to any conclusion thereon. I am now in possession of data to assist in forming a judgment on the remission required, and beg to reply to the Board's order of 3rd March 1862, No. 1,435.

2. Out of 20 acres, which were waste at the date of the transmission of the estimate for the tanks repair, 10 acres have been taken up without any proviso regarding reduction, and the question is restricted to the number of fields as per detailed Statement subjoined :—

No.	Acres.	Coontas.	V.	Tarwarry assess- ment.			Net assessment.

88	1	27	9½	23	6	3	17	8	8
Total...	9	24	11	168	3	4	126	2	0

3. The Sub-Collector "is still of opinion that a remission of one-quarter of the net assessment should be made, nor does he think that the peculiar circumstances of any one plot call for more remission than another." He reports "that the Ryots request half of the Tarwarry assessment to be remitted, leaving a net sum of Rupees 84-1-8 to be realized. He would grant them one-quarter of the sum of Rupees 126-2-6, the net assessment (Rupees 31-8-7) leaving Rupees 94-9-11 to be collected, and remarks, that though the Ryots have not absolutely agreed to take up the land at this rate, he has no doubt whatever that they will do so, and even if not, the difference will be but 10 Rupees."

4. From the Statement now produced it appears that the average assessment of the waste land was rather less than Rupees 20 per acre by the *Survey assessment*; in reality it is about Rupees 15 per acre *net*, after deduction of the one-quarter established remission.

1017, May 1862
P 2 June Dr

C. C. Carter

The Tarwar assessment being Rupees.....	168-3-4	Rs. A. P.	
			= 84 1 8
Net assessment being Rupees.....	126-2-6	126	2 6
		= 31	8 7
		Net...	94 9 11
			9 1/2 acres at Rupees 84

leaving a total difference of Rupees 10 between the proposed remissions. 9 1/2 acres at Rupees 84 gives an average of Rupees 9 per acre.

5. The land now waste being reported to be overgrown with brushwood, I see no objection in the Ryots' request being complied with. The Board will observe that there is considerable difference between my former objection to remit half of the net assessment, and my present proposal to remit half of the Tarwar assessment. I shall request the Sub-Collector in future to refer only to net assessment, seeing that the remissions have been deducted in the new form of A Register, and as it is unnecessary to hamper correspondence or accounts any longer with the original Survey unmodified rates.

1. The entire Nunjah Ayacut of the Tank in question appears to be 49 Acres, of which 28 Acres were cultivated, and 21 Acres lay waste, consequent on the deterioration of the water supply.

2. Out of the 21 Acres of waste on which it was proposed to make a remission of assessment, 10 Acres appear to have been already taken up, without any such relief, and 9 1/2 Acres of cultivable land remain waste.

3. The average assessment on this last area at the survey rate is about Rupees 20 per acre. After deduction of the permanent remission, it is reduced to about Rupees 15 per acre.

4. The Ryots seek the remission of one-half of the survey assessment, which would make the rate about Rupees 9 per acre, and the Collector advocates this course.

5. The Sub-Collector proposes to remit one-quarter of the net assessment formed by deducting the permanent remission, and his proposal would leave the land charged with about Rupees 9 1/2 for 9 1/2 Acres, or about Rupees 10 per acre.

6. Before coming to any conclusion on these several proposals, the Board resolve to call upon the Collector to submit a Statement showing the assessment on the entire Ayacut of 49 Acres, distinguishing the 28 Acres that were originally cultivated, the 10 Acres that were subsequently taken up, and 9 1/2 Acres which are still lying waste, and to which, as the Board infer, the Collector proposes to limit his present proposals. They request an early reply to this requisition.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 16th June 1862.

Read again letter from the Collector of Cuddapah, dated 26th April 1862, No. 48.
(In Cons. 29th April 1862, No. 2,521.)

Read also the following letter from the same Officer, dated 31st May 1862, No. 72:—

I have the honor, as requested by the Board in their Proceedings, dated 14th May 1862, No. 3,093, to furnish a Statement showing the assessment on the entire Ayacut of 49 acres under the Kalasamudrum Tank, distinguishing the 28 acres originally cultivated, the 2 and 10 acres subsequently taken up, and the 9 1/2 acres still lying waste, on which reduction is claimed by the Ryots.

The average of the whole Ayacut is about Rs. 11 0 0 per acre net.
of the originally cultivated... .. 9 0 0 per do.
of that subsequently taken up... .. 13 8 0 per do.
of that requiring remission... .. 15 0 0 per do.

My remission would reduce this last, to the average of the originally, and perennially cultivated land, viz., Rupees 9 per acre.

ENCLOSURE No. 1.

ABSTRACT.—Statement showing the assessment on the entire Ayacut of the Kalasamudrum Tank in the Kadiri Taluk.

Considering that the land has long lain waste, and needs to be cleared and levelled before it can again be brought under cultivation, the Board consider the reduction proposed by the Collector to be not excessive, and authorize him to give it effect. He will of course understand that this sanction refers to the land included in the acres 9-24-11 only, and not to what had been previously taken up since the project of repairing the Tank came under consideration.

JUDICIAL DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from W. J. RAYNOR, Esq., Officiating Civil Paymaster; to the Honorable T. PYCROFT, Chief Secretary to Government, Fort Saint George, dated 16th August 1862, No. 1,160.

Revenue Department.
With reference to paragraph 12 of G. O., dated 18th July 1862, No. 1,136, I have the honor to observe that charges on account of the Magisterial Department come under B. I, Land Revenue, against which head only the increase sanctioned for the Joint Magistrate's establishments at the several Stations mentioned in the Order can be passed by this Office. It will be necessary therefore to obtain the sanction of the Government of India for the transfer of a sum of Rupees 774 from the savings under "Law and Justice" to B. I, Land Revenue, to meet the increase in question to the end of the current year. Meanwhile, the charge can be passed against the unexpended balance of the grant under the latter head.

ORDER THEREON, 30th August 1862, No. 1,419.
It will be pointed out to the Civil Paymaster that the charges connected with Cantonment and Military Joint Magistrates, who perform no Revenue duty, appertain to F. III, Law and Justice, Criminal Courts. The increased expenditure sanctioned in the Order of the 18th ultimo, No. 1,136, on account of Joint Magistrates of these classes, has been correctly made payable against the savings indicated in paragraph 12 thereof, and it would be irregular to pass such items against B. I, Land Revenue.

2. The observation of the Civil Paymaster that "charges on account of the Magisterial Department come under B. I, Land Revenue" must be taken with some qualification. Collectors and Sub-Collectors, Assistant and Deputy Collectors, Tahsildars, and Sub-Magistrates exercise Magisterial powers, in addition to the performance of Revenue duty; and as an adjustment of charge, the amount of their salaries, establishments, &c., is divided in a certain proportion between the Revenue and Magisterial Departments. Since the Magisterial body has been separated from the Police Department, by which a reduction of the Revenue establishments was effected, the proportion debited to the Magisterial Department, has been put at one-fifth the cost of the Revenue establishments. The one-fifth proportion for the current year amounts to Rupees 7,40,831, and is exhibited in the Budget under F. IV. Law and Justice, Criminal Courts. Thus no Magisterial charges are debited to Land Revenue. In place of monthly dividing each Pay Abstract submitted by Revenue Officers between "Land Revenue" and "Law and Justice" in the prescribed proportions, the Audit Office probably pass the entire amounts against the former head, but this is a mere arrangement for convenience. The adjustment is, in such case, made once for all in the annual accounts, and thus the principle is maintained of charging Magisterial expenditure against Law and Justice—not against Land Revenue.

3. Besides the one-fifth proportion transferred from Land Revenue, under "Criminal Courts" are taken all other purely Magisterial charges—such as the expenses of the Magistrates of Police in the Town of Madras—the salary and establishment of the Assistant Agent, Vizagapatam, to be stationed at Jeypore, with little or no Revenue duty—the allowances of the Military Joint Magistrate at Ootacamund—batta to witnesses and prosecutors, &c., &c. The Cantonment and Military Joint Magistrates, referred to in Proceedings 18th ultimo, No. 1,136, have been granted allowances and increased establishments for purely Magisterial work, and the excess of expenditure strictly appertains to F. IV, Law and Justice, Criminal Courts.

4. The Accountant General is requested to state under what head in the Budget, 1862-63, provision has been made for these establishments, as they stood on the 1st May last.

FINANCIAL RAILWAY DEPARTMENT.
 PROCEEDINGS OF THE MADRAS GOVERNMENT.
 Read the following Proceedings of the Board of Revenue, dated 9th July 1862, No. 4,419.
 Read letter from J. FRASER, Esq., Acting Collector of North Arcot; to W. HUDLE-
 STON, Esq., Secretary to the Board of Revenue, Madras, dated Chittoor, 11th June
 1862, No. 102.

1. I have the honor to forward State-
 ments as per margin, showing the particulars
 of land in the Carvetinagaram Zemindary taken
 for the construction of the North West Line of
 Railway, and the sum which I recommend to
 be paid for the same.
2. The land falls under Classes A, B & C.
 It is not possible to distinguish between Classes A, B at present; but as both are provided at the
 cost of Government, this does not signify as regards the payment to be made.
3. The compensation has been calculated on exactly the same principles, and from the same
 data, as it was by Mr. Whittingham in the case
 of land for the South West Line of Railway.
 The extent of cultivable land taken, its Tirwa,
 and the compensation to be paid, are shown in the following table:—

	Class A. and B.			Class C.

4. The compensation has been calculated at ten years of the Sist Tirwa, or assessment on
 the land, as was done by Mr. Whittingham, and paid to the Zemindar on a previous occasion.
 Its total amount, including the items of Sadirwarid and Madiri Kasuvu, which were explained
 by Mr. Whittingham in paragraph 8 of his letter already quoted, is

5. The amount to be deducted from the Zemindar's Peshkush is next to be considered.
 The assessment of the land taken, including both cultivated and waste, is Rupees 5,289-13-3;
 and I request sanction for the permanent remission of this sum.

6. Under the head of waste are included 52-4-4 cawnies of land utterly unfit for cultiva-
 tion. For these the Zemindar claims remission in his assessment to the amount of 429-9-8, or at

the rate that would be paid for cultivable soil. This is preposterous: as the land, whatever its quality, has been surrendered by the Zemindar, I propose to allow him remission at the rate of one Rupee per cawny, as it is fair to allow him something for the loss of what was undoubtedly his property.

7. The lands were taken in Fasli 1265, after the crop was off the ground; and the annual deduction in the Peshkush should therefore commence from Fasli 1267. For five years, or to the end of the current Fasli, the sum payable is Rupees 26,419-2-3.

8. The Zemindar claims interest at 12 per cent., both on the amount of compensation due to him, and on the amount of annual deduction to be made from his Peshkush, which he has continued to pay in full up to the present date.

9. The amount that would be so payable at 12 per cent. per annum is Rupees 30,697-1-4. If at 5 per cent., it amounts to Rupees 12,752-15-1.—vide Statement No 9; and I leave the settlement of this matter entirely in the hands of Government. I may state that the Zemindar is not responsible for the delay that has taken place in the settlement of his claims.

10. There is still a small item unsettled. It is one in which land is in dispute as to whether it lies within his Zemindary, or a Shrotriem village in Chendragheri Taluk. The amount is only 25 Rupees of compensation, and 24 Rupees 1 Anna deduction in Peshkush, and can be arranged after the boundary dispute is settled.

ENCLOSURE No. 9.

ABSTRACT.—Statement showing the amount of interest on the amount of compensation recommended to be paid to the Zemindar of Karvetnugger in the District of North Arcot.

1. The Board observe that on the previous occasion to which the Collector refers, payment had been made by the Collector to the Zemindar in anticipation of sanction, and before the question of compensation was submitted to them. The rights of the individual Ryots were therefore left at the mercy of the Zemindar, so far as the purchase money for the proprietary right was due to them, and the Board see no reason for repeating an operation so full of risk to individual rights.

2. The Zemindar is entitled to compensation for loss of income from the assessment on the lands, from the date of their occupation, with interest on the arrears, and the Board accordingly resolve to recommend for the sanction of Government a permanent reduction in the annual Peshkush of the Estate to the extent of Rupees 5,289-13-3, being the full assessment on the land taken up, and that the Collector be authorized to disburse to the Zemindar the sum of Rupees 26,419-2-3, in satisfaction of the five years' arrears to the close of Fasli 1271, and Rupees 6,317-12-2, being interest at 12 per cent. per annum on the arrears for that period. As this rate of interest is charged by Government on all arrears due to them by Zemindars, the Board consider that it must be allowed to the Zemindar in the present instance. The total sum thus recommended for present payment to the Zemindar is Rupees 32,796-14-5.

3. The compensation for the proprietary right in the land taken up is due to the occupying Ryots so far as land in occupation is concerned, and to the Zemindar for the waste. This distinction has not been maintained by the Collector, nor is the mode of calculating the compensation which he has adopted suitable to both cases alike.

4. In the case of the waste, as the assessment represents the whole of the Zemindar's profits, it may fitly be adopted as the basis of the calculation, and ten years' purchase of it is probably a liberal settlement of the claim.

5. But in the case of the Ryots the assessment cannot be adopted as the basis on which to calculate the compensation. This question must be settled with reference to the Ryots' net profits, after deducting the cost of cultivation, and what compensation should be fixed must in each instance depend on the character of the land, and on the rates prevailing locally for the purchase of land of the same quality.

6. The Collector will be requested to re-consider his proposals with reference to the foregoing remarks, and will bear in mind that the parties are entitled to interest on the amount of such compensation as he may eventually propose.

7. He should have stated in his present letter, whether the necessary provision for the proposed payments was made in his Budget Estimate, and will now be requested to supply this information.

ORDER THEREON, 30th August 1862, No. 465.

With the foregoing Proceedings, the Board of Revenue lay before Government, the statements submitted by the Acting Collector of North Arcot, showing the particulars of lands in the Cavetnugger Zemindary taken up for the construction of the North West Line of the Madras Railway, and the sum which he recommends should be paid as compensation for the same.

2. The extent of cultivable land, its assessment, and the compensation to be paid is shown to be, under:—

Extent.	Assessment.	Compensation.
Class A and B, Rs. 373 3 1	Rs. 4,034 15 4	Rs. 40,319 9 4
Class C..... „ 1 9 1	„ 8 4 3	„ 82 10 6
	Total...	40,432 3 10

The Collector requests sanction for the disbursement of this amount, which has been calculated at 10 years of the assessment on the land, as was done and paid to the Zemindar on a previous occasion.

3. Of this sum Rupees 40,432-3-10, the Zemindar is entitled to Rupees 26,419-2-3, as compensation for loss of income from the assessment on the lands from the date of their occupation or from Fusly 1267 to 1271, with interest at 12 per cent. per annum on the arrears for that period, Rupees 6,317-12-2, making a total sum of Rupees 32,796-14-5 to be paid to the Zemindar.

4. Agreeably to the recommendation of the Board, the Governor in Council authorizes the sum of Rupees (32,796-14-5) thirty-two thousand, seven hundred and ninety-six, Annas fourteen and Pice five, being paid to the Zemindar at once, on his executing a receipt in full of all demands, which the Government Solicitor will be instructed to draw up in a simple form, on account of the land.

5. The Zemindar is also entitled to a remission in his Peishcush annually of Rupees 5,280-13-3, being the assessment of the land taken up, including both cultivated and waste. As recommended by the Board, the Government sanction a permanent reduction to the above extent in the Peishcush of the Cavetnugger Estate, commencing with Fusly 1272 (1862-63.)

6. The compensation for the proprietary right in the land taken up, which is due to the occupying Ryots, should be calculated by the Collector in the manner suggested by the Board in paragraphs 5 and 6 of their Proceedings, and reported separately for the sanction of Government.

7. With respect to the land under Class C, the Government desire that rent calculated at the usual rate be collected with arrears from the Madras Railway Company.

8. It will not be necessary to make a separate application for the small sum due on account of the land in dispute, referred to in the last paragraph of the Acting Collector's letter. On the settlement of the dispute, the money may be paid and entered in the Statements periodically submitted, without any special reference to Government.

Northern. There was a good fall of rain in Ganjam, but in the other Districts it was slight. In Ganjam Paddy and Raggy were being transplanted; Sugarcane, cotton and Gingely were in good condition. In Vizagapatam the cultivation of wet lands where there was sufficient rain had been commenced. In the Godavari District want of rain had impeded the transplantation of Paddy in localities not under the influence of the ancient channels. In the Distrials District the greater portion of the crops

crops were not in good condition from want of rain. In
Tamil the Pusa and the dry crops were withering from
the strong westerly winds and the Indigo crops suffering much
from want of rain. Prices were high in these districts except
in Tanjore and Pudukkottai. Small-pox was prevalent in all;
and cattle suffered much from murrain.

Central Districts. Slight showers fell in these districts. In
Cuddalore the crops had suffered much, and there was
a large falling off in the sowing of Indigo and Cotton in con-
sequence of drought. In Kumbakonam the early crops were though
wet and garden lands were in a thriving state. Cholera
prevailed in Bellary and Kumbakonam.

East Coast. Rain fell in these districts. In Madras ploughing
had commenced. In North Arcot Raggy and Khar Samba had
been cultivated and Sugarcane and Betelnut plants
out in localities irrigated by wells. In South Arcot
the Cumbas crops were progressing, no cotton or Indigo
was cultivated in July, but the old plants of
last year had grown well owing to the late rain.
Prices continued high in Madras. These districts were
generally healthy.

Canary. There were partial showers in these districts.
In Tanjore the Khar Samba cultivation was progressing
and preparations were being made for the Samba
and Peshawar cultivation. In Pudukkottai the

Khar Paddy cultivation was being briskly carried on in the
irrigated villages and Peshawar seed beds were being
prepared for transplanting. These districts were generally
healthy.

South. There was a slight fall of rain in these districts.
In Madras Cholera, Raggy and Cumbas crops were progress-
ing and Raggy, Gingily and Corai crops were being har-
vested. In Tanjore the Khar Samba crops were in tolerably good
condition. Prices had risen in these districts. Madras
was healthy, but in Tanjore small-pox prevailed
and cattle suffered much from murrain.

West Coast. Slight showers of rain fell in these districts.
In Coimbatore the Cholera crops were harvested and Raggy
cultivation was in progress. In Salem Paddy, Cumbas
Cholera and Verago crops were being sown in some
ranges, and in others had failed. Prices were rising
in these districts. Cholera was prevalent in Coimbatore.

West. There was a good fall of rain in these districts. Generally
the crops were in good condition. The prospects of the
garden produce of all kinds were satisfactory in
Malabar. Small-pox and fever had made their
appearance in South Canara.

REVENUE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Proceedings of the Board of Revenue, dated 29th August 1862:—
Read Government Order, dated 23rd August 1862, No. 1,792.

(In Cons. 25th August 1862, No. 5,412.)

1. The Budget Estimates of receipts and charges in the Revenue Department, as submitted to Government by the Accountant General, correspond with those forwarded by the Board to that Officer, with some alterations in the classification of heads. The amount estimated on account of the pay of the village establishment has been properly excluded in the Accountant General's Budget, as no provision was made in the North Canara Budget on that account. A Supplemental Budget will be submitted for this and the establishments of other Districts, as already reported in the Board's letter to Government, dated 23rd August 1862.

2. The Accountant General having included the cost of Police Guards, &c., the Budget estimates as submitted by him are complete, and the Board have no remarks to offer on them. They accordingly resolve to return the estimates received with the Order above recorded in view to the necessary sanction being obtained from the Government of India.

ORDER THEREON, 4th September 1862, No. 1,876.

Referred to the Financial Department together with copy of the letter from the Acting Accountant General, dated 14th August 1862, No. 159, in view to the necessary application being submitted to the Government of India. The Government observe that the provision made in the Budget under "Law and Justice" for the Moonsiff and his establishment, is on the old scale. They have raised it from Rupees 2,040 to Rupees 3,430 to provide for the increase under the revised scale sanctioned by the Government of India in the Order, dated 9th May 1862, No. 2,376.

JUDICIAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from A. PURVIS, Esq., Magistrate of the Godavery District; to the Honorable T. PYCROFT, Chief Secretary to Government, Fort Saint George, dated Gokavarum, 6th September 1862, No. 328.

I have the honor, in continuation of my previous letters on the subject of the disturbances in the Rumpa country, to report that Lieutenant Robertson, the Assistant Superintendent of Police, has to-day returned to this place from a most successful expedition into that part of the District.

2. The effect on the ill-disposed of the first visit to the country by the Superintendent, reported in my letter of the 20th ultimo, soon began to show itself, and it was on every account desirable that the feeling should not be allowed to subside, but that we should show the people that, while the law could not be resisted with impunity, we were able to protect all the well-disposed.

3. In consultation with the Superintendent of Police, it was arranged that a strong force should visit the country, both with the view of re-assuring those peaceably disposed, and, if possible, apprehending those against whom warrants were out, or who had been in arms against lawful authority.

4. Lieutenant Robertson met, on the present occasion, with no opposition of any kind. Two of the principal disturbers of the peace had been brought in just before he started, and he has, with but one exception, been successful in seizing all the principal men wanted. The country is now perfectly quiet and I have every confidence that it will continue so.

5. These results are, almost wholly, I may say, due to the well considered plans and exertions of Captain Bloomfield the Superintendent of Police, and of his Assistant Lieutenant Robertson. I feel that I cannot speak too highly of the conduct of the Police generally, or of the admirable manner in which they have been handled by their Officers.

6. Both Captain Bloomfield and Lieutenant Robertson speak very highly of the exertions of the Sub-Magistrate of the Talook Alamuri Appalaraz who accompanied the Police on both occasions. This is not the first time this Officer has done similar good service to the State, and I propose bringing his good conduct under the special consideration of Government in a separate communication.

7. I am bringing the question of the best course to be followed for the future in reference to the tract of country under notice, under consideration, through the Board of Revenue.

ORDER THEREON, 19th September 1862, No. 1547.

The Governor in Council notices with high approval the conduct of the Superintendent of Police, Captain Bloomfield, of the Assistant Superintendent, Lieutenant Robertson, and of the Sub-Magistrate, Alamuri Appalaraz.

2. The Government will await the report of the Magistrate on the measures to be taken for the future administration of the Rumpah country. The Board of Revenue are requested to lose no time in sending up the report with their own remarks.

3. The Magistrate will forward direct to the Government a sketch of the Rumpah territory, showing the chief places and lines of communication, so far as there are any.

FINANCIAL DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Extract from the Proceedings of the Government of India, in the Financial Department, dated 29th March 1862, No. 5,250.
From Baboo SREE NAUTH GHOSE, Assistant, East Indian Railway, Rajmehal; to C. H. LUSHINGTON, Esq., Secretary to the Government of India, Financial Department, Calcutta, dated 15th February 1862.

I most respectfully beg the favor of your submitting this my application for a gratuity, for the kind consideration of His Excellency the Governor General of India.

After a faithful service of upwards of 10 years in the Government Savings Bank, as the enclosed copy of a certificate from J. I. Harvey, Esq., the Secretary of the Bank, will testify, I was thrown out of employ in consequence of the abolition of the Military Branch of the Bank. I had to remain unemployed for some months before joining the present temporary post at the Office of the Resident Engineer to the East Indian Railway Company at Rajmehal. A certificate, in original, from whom, as to the date of my employment, I beg also to enclose. But the Secretary to the Government Savings Bank, hearing of my having obtained an employment, omitted my name from the revised list of discharged Officers recommended for gratuity, without being aware, perhaps, of the precarious nature of the appointment, or the interval after which it was obtained.

I beg, therefore, humbly to urge that as I had to remain unemployed for some months, and instances are not rare of persons joining permanent appointments even in a Government Office a day or two after (and sometimes before) drawing the gratuity allowance, His Excellency will be pleased not to debar me from a benefit now accorded to all who, after a service of several years in a Government Office, have the misfortune of remaining unemployed for some months.

His Excellency may be pleased to consider that if the Secretary's recommendation had been submitted to him only six months after the loss of my appointment (instead of one year) there would have been no bar to my receiving a gratuity; and that the fact of a temporary employment under a private Company after eight months, cannot disqualify me, therefore, from availing of the usual award.

Under the above considerations, His Excellency may be kind enough to do justice to me, otherwise the loss of so many years' Government service will be keenly felt.

In conclusion, I humbly pray that the original certificate when no longer required may be returned to me, together with the favorable orders of His Excellency.

Certified, that Sree Nauth Ghose was employed as a Ledger-keeper, Dispatcher, and subsequently an Examiner in the Military Branch, Government Savings Bank, for a period of 10 years, 5 months and 13 days, from 6th May 1850 to 19th October 1860; that he is active and well-behaved, and that his intelligence and business-habits were highly satisfactory.

He has lost his situation owing to the abolition of the Military Branch on the 19th October 1860.

CIVIL PAY MASTER'S OFFICE, FORT WILLIAM, THE 8TH MARCH 1862.

On a reference to the Books of this Office, Baboo Sree Nauth Ghose appears to have been continuously employed in the Government Savings Bank, from 6th May 1850 to 19th October 1860. He drew a monthly salary of Rupees 50 at the time of his discharge.

FINANCIAL DEPARTMENT, FORT WILLIAM, THE 29TH MARCH 1862.

RESOLUTION.—The Governor General in Council observes that the name of Baboo Sree Nauth Ghose appears in the statement submitted by the late Sub-Treasurer, of the Clerks, &c., who were discharged on the abolition of the Military Branch of the Government Savings Bank, but that Officer did not recommend the grant of a gratuity to the present applicant, on the ground that he had received *employment under the Railway Company*. It is now stated by the applicant that he obtained this employment *eight* months after the abolition of his office, which fact, His Excellency in Council thinks, entitles him to a gratuity, seeing that, under the Rules, a gratuity is grantable, if a servant is out of employ for six months after his discharge.

But, His Excellency in Council observes, the Sub-Treasurer's reason for excluding Sree Nauth Ghose from his recommendation for a gratuity raises a question, as to whether *private* employment within the usual six months or after, can be held to debar a servant from any claim to a gratuity. From the tenor of the Orders passed in this Department, on the 26th February 1858, in the case of Mr. E. D'Souza, Head Clerk and Examiner in the Chief Engineer's Office, Madras, His Excellency in Council observes, that a servant of Government can be debarred from a gratuity only when he is provided with Government employment within the usual six months, so that his employment whether in a *Government Office after* that time or in a *private Office within* or *after* that time, cannot bar his claim to gratuity. The present applicant was, therefore, clearly "out of employ" in the sense in which the terms are used in the Rules, at the time that Mr. Harvey applied for gratuities for the Assistants of the Savings Bank, and should have, then, received his gratuity. His Excellency in Council is accordingly pleased to sanction the grant to him of a gratuity of four months' pay.

Ordered, that a copy of the above Resolution be sent to the Civil Pay Master, Bengal, for information and guidance, and that a separate letter be written to Sree Nauth Ghose, informing him of the Orders passed.

Ordered, also, that a copy of the Resolution be sent to the Departments, the Local Governments, the Administrations, and the Officers of Account and Audit, for information and guidance.
