Dated	24-10-1916

Not to be folded or roughly handled

*Proceedings of the Madras Government, Revenue Department,
24th October 1862.*

No. 306. Read the following letter from Colonel W. I. BIRDWOOD, R. E., Chief Engineer, to the Secretary to Government, Public Works Department, dated Chepauk, 25th August 1862, No. 2,765:—

SIR,

1 Copy of Proceedings of Board of Revenue No. 5,300, dated 12th August 1862.

1. I have the honor to submit for the early orders of Government, the accompanying Proceedings of the Board of Revenue, dated 12th August 1862, requesting that arrangements may be made for allowing the sale of Salt to be carried on at Beypore in the coming season.

2. The Collector of Malabar was at first in hopes that accommodation for the Salt could be got on the Railway premises, but after communicating with the Railway authorities on the subject he fears that suitable and sufficient space for the purpose cannot be obtained, he therefore requests that permission may be given for the erection of a Golla 300' x 30' x 12', capable of containing 500 Garce of Salt, at a cost of about 4,000 Rupees and that "a second similar building, "or one large building in which the materials of the one now proposed could be used," be erected next year if found advisable.

3. Under these circumstances, and considering the necessity of providing immediate covering for the Salt, if the sales are, as desired by the Board of Revenue and Collector, to be carried on this year, I recommend that authority be granted for proceeding with the work at once from the General Funds at the District Engineer's disposal (which can be supplemented from the Reserve Fund, if found necessary) an estimate being in the meanwhile prepared and forwarded for sanction.

4. With respect to the site for the proposed building, the Collector considers that a piece of ground near the river at Beypore, at present occupied by temporary sheds, is the best suited for the purpose, and as the Railway Engineer appears willing to remove the sheds, I recommend that, in accordance with the Collector's wishes, the Railway authorities at the Presidency be requested to let Government have the ground in question, such compensation being paid as after a valuation of the property by the District Engineer and Railway Engineer may be determined on.

Referred to the Revenue Department.

(Signed) W. I. BIRDWOOD, Colonel, R. E.,

Secretary to Government, P.W.D.

Chepauk,
26th August 1862.

No. 307. ORDER THEREON, 24th October 1862, No. 2,273.

The purchase of the Railway Store shed at Beypore for a Salt Depot having been sanctioned by the Order in the Financial Railway Department, dated 17th October 1862, No. 579, the erection of any new building is unnecessary.

(Signed) T. PYCROFT,
Chief Secretary.

Under the circumstances brought to notice, the Governor in Council grants authority for proceeding at once with the proposed Salt Soda at Mysore.

The requisite plan and estimate will be called for from the Public Works Department, whence also orders will issue on the question of funds referred to in para 3 of the foregoing letter.

The consulting Engineer for Railways will be requested, through the Financial Railway Department, to take the necessary steps in view to the ground referred to in para 4, being made over to Govt at an early date. The question of compensation notices at the end of the same para will, on receipt of the consulting Engineer's reply.
