*Proceedings of the Madras Government, Revenue Department,
12th December 1862.*

2. These Tables will apply more immediately to Forests which are worked as a Government monopoly. For Forests in which receipts consist of a royalty on the cutting of timber by the public, and in which the expenditure consequently is for conservancy only, the items in Table I may be modified according to the judgment of the Local Officers, so as to exhibit a clear view of the financial results of Forest management for each year.

3. For this latter class of Forests, Statistics equivalent or analogous to those in Table No. II. may, it is also requested, be afforded if possible, so as to furnish materials or to suggest points for comparison of the merits of the monopoly, and open systems as regards the development of the resources of the Forests.

Secretary to the Government of India.
