Proceedings of the Madras Government, Revenue Department, 24th December 1862.

No. 355. Read the following letter from Lieutenant-Colonel J. OUCHTERLONY, R. E., Deputy Chief Engineer, Southern Circle, to Colonel W. I. BIRDWOOD, R. E., Secretary to Government, Public Works Department, dated Madras, 6th December 1862, No. 135 :—

SIR,

1. With reference to G. O.* Nos. 1,730 and 2,092 dated 18th July and 2nd September 1862, I have the honor to submit herewith an estimate amounting to Rupees 13,000 for cutting a Canal from the Vedarniem Salt Pans in Tanjore to the "Adipar" at Topetoray, accompanied by Plans, Sections, illustrative sketch Map and Specification.

* Revenue Department, No. 1,834, dated 16th September 1862.

1 Plan.
1 Abstract Estimate.
1 Report by Mr. Fraser, dated 5th March 1862.

2. It will be observed by the accompanying Extract from the Proceedings of the Board of Revenue No. 7,740, dated 25th November 1862, that that body warmly support the scheme, and concur with me in opinion that it is one fraught with promise of such abundant profit to the State and advantage to the District, that it ought to be at once commenced upon if Government are in a position to allot the amount out of the Reserve Fund. If not the expenditure could go on for the present out of the General Funds at the disposal of the District Engineer.

3. I beg leave to bring to the special notice of Government the creditable manner in which this project has been got up in all its details; and I cannot help expressing my regret that we shall shortly be debarred the advantage of Mr. Fraser's services in carrying out a scheme the details of which he is so thoroughly master of.

Referred to the Revenue Department for consideration, with reference to the Orders in that Department, dated 12th July 1862, No. 1,520.

Redemption to Tipperary about
It seems to me a very important
work - I do not doubt that the
good and prudent part of the Fenian
with mankind in spite of bad
prejudices - The opening of the
Suez Canal has made a great demand
for salt all along the Coast and
especially at such large towns
as Tarragona & Trieste hitherto -
The salt manufactured
at Keyport is I believe
of very inferior quality -
