REVENUE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

The following papers are ordered to be recorded, dated 31st December 1862, No. 2,700 :—

Proceedings of the Board of Revenue, dated 22nd November 1862, No. 7,682.

Submitting with reference to the Proceedings of Government, dated 18th October 1862, No. 2,231, letter from the Collector of Cuddapah stating the punishment inflicted on the Shroff who embezzled Rupees 125.

Proceedings of the Board of Revenue, dated 26th November 1862, No. 7,772.

Submitting for information a letter from the Collector of Madras reporting the result of the sale of the Abkarry Farm of his District.

Proceedings of the Board of Revenue, dated 26th November 1862, No. 7,782.

Approving the Collector's proceedings in the matter of the intended sale of a village in the Padamatur Poliem, and requesting him to report further on the subject.

Proceedings of the Board of Revenue, dated 26th November 1862, No. 7,789.

Observing that the Court of Wards have received with much regret the communication from the Collector on the conduct of the Saptur Minor, and await the further report.

Proceedings of the Madras Government in the Financial Department, dated 28th November 1862, No. 835.

Communicating a Resolution of the Supreme Government regarding the submission of monthly report of transfers from one item to another of a major Budget head.

Proceedings of the Madras Government in the Public Works Department, dated 2nd December 1862, No. 2,877.

Passing orders on the report of the Deputy Chief Engineer, Northern Circle, regarding the line to be adopted for carrying Trunk Road No. 6 across the Musunuru Valley drainage in Nellore District.

Proceedings of the Madras Government in the Public Works Department, dated 3rd December 1862, No. 2,885.

Passing orders on the report of the Deputy Chief Engineer, Northern Circle, regarding the destruction of a great part of the bund of the Urlee Rungasagarum tank in the Kemedi Estate in Ganjam during the late floods.

Proceedings of the Board of Revenue, dated 12th December 1862, No. 8,101.

Submitting for information a letter from the Collector of Ganjam affording explanation regarding certain entries in the return of dismissals of public servants.

Proceedings of the Madras Government in the Ecclesiastical Department, dated 12th December 1862, No. 347.

Sanctioning for entry in the Budget for 1863-64 two estimates for certain additions, &c., to the Burial grounds at Palcole and Nursapur in Godavery.

From the Secretary to the Board of Revenue, dated 20th December 1862, No.—

Explaining with reference to paragraph 2 of the Order of Government dated 15th December 1862, the cause of delay in submitting for sanction a letter from the Collector of Malabar to the value of French paper purchased by him.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 26th November 1862.

Read the following letter from V. H. LEVINGE, Esq., Collector of Madura, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated Bodinaicknoor, 17th November 1862, No. 251:—

1. I have the honor to report that the Government Vakeel of the Zillah Court of this station informed me that a moiety of the village of Yenadi belonging to the Padamatur Poliaput, originally granted for the maintenance of the Padamattur Zemindar, having been attached by a Precept issued from the Civil Court for the Razinamah amount, due by the late Padamatur Zemindar, the Defendant in Original Suit No. 43 of 1850, on the file of the late Sub-Court, is ordered* to be sold by public auction on the 10th January 1863.

2. Though it will be observed from the marginal correspondence that the Board and Government leave the final disposal of their reversionary right in the Jeevatham villages composing the Padamatur Poliem to the Inam Commissioner, yet with a view to prevent, in the meantime, their interest being thus invaded and injured, I thought it necessary to put in a protest against the attachment in question, copy of which is submitted herewith.

ENCLOSURE No. 1.

ABSTRACT.—Copy of Order of the Civil Judge of Madura for sale of a moiety of Yenadi village attached by a Precept issued from the Civil Court for the Razinamah amount due by the late Padamatur Zemindar.

ENCLOSURE No. 2.

ABSTRACT.—Draft of a Motion to be put in the Civil Court of Madura against the sale by public auction, of a moiety of Yenadi village, belonging to the Padamatur Poliaput.

1. The Board approve the Collector's proceedings, which will be reported to Government and communicated to the Inam Commissioner for information, with reference to the Government Order dated 22nd July 1862, No. 1,568, Revenue Department.

2. The Collector will without delay report the result of his motion.

PROCEEDINGS OF THE COURT OF WARDS, dated 26th November 1862.

Read the following letter from V. H. LEVINGE, Esq., Collector of Madura, to W. HUDLESTON, Esq., Secretary to the Court of Wards, dated 10th November 1862, No. 245:—

I have the honor to report, for the information of the Court of Wards, that the aunt of the Minor Zemindar of Saptur was murdered in the house in Madura in which the family resided by her relatives, by cutting her throat from ear to ear. In the inquiry held into the matter, the Minor though warned by the Sub-Magistrate and by me to state the truth, and though knowing that she had been carried away a corpse with her throat cut, repeatedly stated that she had left the house perfectly well, and that she had afterwards died of Cholera; but on being appealed to by the Manager to state the truth as he had been falsely accused by others of having committed the murder, the Minor then stated she had committed suicide: as the Minor has arrived at years of discretion, and was perfectly well aware he was intentionally giving false evidence, he has been charged under Section 193 of the Indian Penal Code; he has been admitted to bail, and the Government Vakil has been directed to defend him. The trial will take place on the 1st December.

The Court have received this communication with much regret, and await the Collector's further report of the result of the trial of their Ward.

FINANCIAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Extract from the Proceedings of the Government of India in the Financial Department, dated 20th October 1862, No. 761A.

Read letter from W. BALMAIN, Esq., Officiating Deputy Auditor and Accountant General, North-Western Provinces, Allahabad, to Sir G. COUPER, Bart., and c. B., Secretary to Government of the North-Western Provinces, No. 2,724, dated Allahabad, 6th September 1862.

With reference to para. 53 of your letter, No. 1,614 of August 22nd, regarding the form of report of alterations of Budget Grants, and of changes in salaries, establishments and contingencies within such Grants. I have the honor to submit the following observations for the consideration of the Honorable the Lieutenant-Governor.

2. The Resolution of the Government of India, of November 15th, 1860, empowered the Local Governments to expend at discretion the Budget Grants under heads of charge for each of the several Departments, for example, Grants under F II, F III, but it was required that all such alterations of distribution should be reported at once with all details. The extract of the letter to the Government of Madras, now under consideration, seems to continue the same power of alteration, i. e., within the prescribed limits, but substitutes a monthly statement instead of the separate and immediate reports. The above refers to transfers of Grants to meet charges.

3. The extract further includes alterations and increases of charges within prescribed limit of Grants which will have to be based on savings or reductions effected.

4. There will still remain cases of transfers of Grants from one principal Budget head to another, as from F III, to B I, or from F II, to F III, which will continue to require the sanction of the Government of India before being carried out, such alterations being considered not within prescribed limits.

5. The instructions in the extract seem to contemplate the submission of one monthly Statement from the Local Government; and of another direct from the offices of Account and Audit, but they should be identical in the entries and could both be most conveniently prepared where the Grants and the charges are checked in detail. I beg however to remark that the Civil Paymaster's Office is the one in which the statement is to be prepared. The entries in the statements can only be made after the Orders of Government have been passed, and these might, I would suggest, be communicated to the Civil Paymaster, as well as to this office. My registers of proposed provisions for charges submitted for sanction, could not be acted on, till His Honor's orders had been issued in each case.

6. If the above is a correct view of the instructions issued, there will be two statements to be furnished monthly.

1st. Of transfers of Grants within prescribed limits sanctioned by the Local Government and reported for information.

2ndly. Of alterations and increases in charges within the prescribed limits sanctioned by the Local Government and also reported for information. Proposed transfers of Grants under principal Budget heads submitted for the sanction of the Supreme Government, will continue to be submitted separately as at present, unless it is deemed advisable that these also should be sent up periodically, as no action can be taken in these cases, till the receipt of orders from Calcutta, it is, I think, desirable that they should be forwarded as received without delay.

From J. D. SANDFORD, Esq., B. A., Under Secretary to the Government of the North-Western Provinces; to W. BALMAIN, Esq., Officiating Deputy Auditor and Accountant General, North-Western Provinces, Allahabad, No. 1,826, dated 20th September 1862.

Financial Department.

I am directed to acknowledge the receipt of your letter, No. 2,724, dated the 6th instant, in which you submit your opinion in regard to the form of report of alterations of Budget Grants, and of changes in salaries, establishments and contingencies within such Grants.

2. The Lieutenant-Governor supposes from your 5th paragraph that you mean that the Civil Paymaster would be the proper person to prepare both statements referred to, sending one to this office for the Secretary's signature, and forwarding the other direct to the

Government of India from his own office. His Honor has no objection to this arrangement. Here will of course be no difficulty in communicating the orders of Government to that Officer to enable him to fill up the entries in the statement, as well as to your office.

3. The Lieutenant-Governor agrees with you that report of proposed transfers of Grants under principal Budget heads to be submitted for the sanction of the Supreme Government, should be forwarded separately as heretofore, and that it is desirable that such proposals should be forwarded as received, and not embodied in a periodical statement.

No. 1,828a.

ORDER.—Ordered, that copies of the foregoing be forwarded to the Secretary to the Government of India, in the Financial Department, Fort William, in continuation of No. 1,615a, dated the 22nd of August last.

FINANCIAL DEPARTMENT, FORT WILLIAM, THE 20TH OCTOBER 1862.

RESOLUTION.

The Governor General in Council approves of the course suggested above for the submission to this Department of monthly Reports of transfers from one item to another of a major Budget head, and of special Reports, as occasion arises, of proposed transfers from one major Budget head to another, and observes that orders in respect to the remaining point in the above letter were issued in a Resolution, dated 30th September last, No. 519a.

Ordered, that a copy of the above be sent to the Local Governments, the Deputy Auditors and Accountants General, and the Civil Paymasters of Bengal, North-Western Provinces, Punjab, Madras and Bombay, for information and guidance.

Ordered, also, that a copy of the above be sent to the Auditor General of India, for information.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from the Deputy Chief Engineer, Northern Circle:—

Forwarding two reports on the line to be adopted for carrying Trunk Road No. VI across the Musunuru Valley Drainage, also three estimates, viz., one of the probable cost of the line proposed by Mr. Dykes, the two others of the expenditure necessary for the construction of the road on Captain Best's line either as an embanked or submerged causeway, in the Nellore District.

(Here enter 10th November 1862, No. 463.)

ORDER THEREON, 2nd December 1862, No. 2,877.

1. The Collector of Nellore in a letter dated 16th December 1861, No. 53, brought to notice the incomplete state of Trunk Road No. 6, which has been bridged and metalled up to the village of Mungamurru, but between that place and the next village (Musunuru) occurs the drainage basin, three miles wide, which in the opinion of Mr. Dykes, offers an almost insuperable obstacle to the road being taken across at any reasonable cost, composed at present of black Cotton soil and ten feet of water during the monsoon, the fall being fourteen inches in twenty-four hours after the ground has been saturated. The manner in which Mr. Dykes proposes to remedy the difficulty is to take the road by a line which would be clear of floods round the Mungamurru basin westward, and the advantages are shown to be that thereby a good communication will be secured with the port of Ramapatam, and that a District road could be constructed either from Brahmanakraka or Joladanki into the country to the westward where Cotton would be largely grown, if the existing demand for it continues and the means of its transport to the coast were thus facilitated.

2. The Government are now placed in possession of the views of Captain Mullins, late District Engineer, and Major Greenaway, the present Acting District Engineer of Nellore, on the proposition of the Collector, and from the reports of these Officers they learn that Mr. Dykes' objections are not borne out by the facts of the case. The depth of water in the basin according to the testimony of the Engineer Officers, is said never to be so great as ten feet, although probably that is the depth of the nullahs that intersect the basin; and the fact that there are no strong currents across the line of road is shown to be established by the present dimensions of the mounds of earth composed of Cotton soil which were thrown up seven or eight years ago by the late Road Department near the different nullahs for the purpose of ascertaining whether the intended level of embankment would prove sufficient. Moreover, from careful personal enquiries made as to the extent of floods, and from the numerous flood marks on trees in the valley, there is said to be satisfactory evidence of the fact that nothing serious need be apprehended from the currents across the line.

3. It is further seen that there are objections to Mr. Dykes' route. In the first place its adoption will entail an increased distance of about nine miles, which latter is the length of the direct line from which Mr. Dykes proposes a divergence. In the next place the line of road suggested by that Officer will interfere with extensive cultivation, and it appears that even a more extended divergence of the same to the west, will not obviate the evil. Further, in point of cost the Collector's proposition does not bear a favorable contrast with those of the District Engineers to be presently noticed. It is stated that the road, if taken in the direction suggested, would have to be embanked for upwards of four miles, and as metal would have to be carted from an inconvenient distance, the cost of the road will be greatly enhanced. The estimated cost of the line proposed by the Collector is Rupees 74,000. The increase of distance will necessarily entail an increased annual allowance for maintenance, computed at Rupees 1,600, and it will further have the effect of limiting the use of the line to the monsoon only, so that in fact, as pointed out by the Deputy Chief Engineer, it will be comparatively useless for nine months of the year. The advantages of Mr. Dykes' line are that it crosses with less drainage than the other, and that the drainage across it is less concentrated; but the objections to it already adverted to above, preponderate over these advantages, and the Government are unable therefore to entertain Mr. Dykes' proposition. This being determined it remains to be considered how the road is to be constructed along the direct line selected by the late Captain Best.

Communication re

Resolution of the Collector

Capt. regarding the subinfeudation

of the land by the Collector

from one estate to another of

a major General

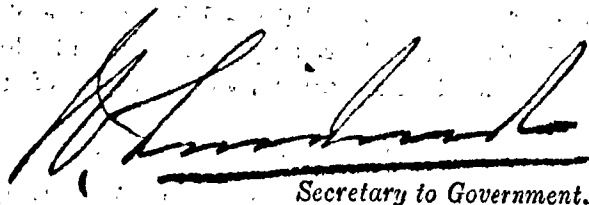

Printed by the Government

RECORDED.

4. Captain Mullins' proposal is to carry a road across by means of an embankment providing bridges and two long road dams for the escape of water. Major Greenaway proposes that 2,500 yards of the road should be a submerged causeway provided with under-sluices for the passage of ordinary floods. The cost of Captain Mullins' scheme is estimated at Rupees 64,830, and that of Major Greenaway's at Rupees 46,780. The advantages and drawbacks of the two schemes are thus summed up by the Deputy Chief Engineer. Major Greenaway's scheme is the cheaper of the two. It is less liable to accident in the event of excessive floods; but it will entail the submersion of a considerable length of road for perhaps a long time, and the cost of repairing damages which the road must necessarily suffer therefrom. Captain Mullins' road, on the other hand, will be above high water level except at the causeways; but the latter would be still longer under water during floods, and Colonel Ludlow is not decidedly in favor of either scheme; but prefers Major Greenaway's plan and recommends it for adoption. The Government having considered both plans, and Colonel Ludlow's opinion thereon, has decided that it would be better and more economical in the end to build two bridges instead of the inefficient substitutes proposed; moreover, it appears that Captain Mullins' estimate for a causeway will be but little under the cost of the construction of such bridges (300 and 275 in yards in length).

5. Government therefore request the Deputy Chief Engineer will call upon the Acting District Engineer to submit the necessary plans and estimates, and the subject will then be reconsidered.

PROCEEDINGS OF THE MADRAS GOVERNMENT

Read the following letter from Colonel W. I. BIRDWOOD, R. E., Chief Engineer, Department Public Works; to the Secretary to Government, Public Works Department, dated Chepauk, 27th November 1862, No. 4,406.

Proceedings of Government, Public Works Department, No. 1,946, dated 15th August 1862.
Enclosures 8.
1 Copy of Proceedings of Board of Revenue, No. 7,441, dated 12th November 1862, with 7 accompaniments.

of Masulipatam at a cost not exceeding Rupees one hundred to be defrayed from the sale proceeds of the property. The Collector now brings to notice that only a mud wall and a gap or very inferior sort of entrance gate can be constructed for this sum, and he therefore supports a recommendation made by the District Engineer that substantial walls and a good gate way should be erected at a cost of Rupees 591, minus the one hundred Rupees above adverted to.

2. The Collector also requests that the Burial ground at Nunsapur should be enclosed in a similar manner at a cost of Rupees 505 with a view to the existing graves being protected from desecration, the Cemetery being full, and there being no other spot contingent thereto in which bodies can in future be interred.

3. At both places there are tombs upwards of 200 years old, and the Board of Revenue, through whom the papers have been forwarded, entirely approve of the work being carried out, and have empowered the Collector to obtain and submit an Estimate for enclosing a fresh Burial ground at Nunsapur.

Forwarded have been examined and corrected in this Office

ground at N. apur. The two Estimates herewith forwarded have been examined and corrected in this Office, an omission of provision for excavating the Estimate for the Palode Burial ground increased from Rupees 505 to Rupees 560. The walls and for building a Do. Narsapur " increase from Rupees 505 to Rupees 560. rick in chuam coping has also been supplied, in each Estimate, and their respective amounts has in consequence been increased to the extent noted in the margin. I accordingly request permission to enter both works in the outgoing Budget of 1863-64, in order that they may be carried out as soon as possible after the commencement of the next official year.

Chief Engineer.
CHEPAUK,
1st December 1862.

Secretary to Government
Revenue Department

Sir,
With reference to para 2 of the
orders of Government dated 15th (December
1862) N^o. 2603 I am directed by the Board
of Revenue to explain that the letter
therein alluded to remained undisturbed
of for so long a period owing to a mis-
take in their Reference Department
having mistaken it for a reply to the
Board's Circular regarding the introduction
of French & Goa Paper in substitution
for the Common Country paper. The letter
was thus lost sight of, as Reports
on general subjects are not usually
taken in hand till all the
Collectors
