PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from Colonel W. I. BIRDWOOD, Deputy Chief Engineer, Southern Circle, to Lieutenant-Colonel W. H. HORSLEY, Chief Engineer and Secretary to Government, Department Public Works, dated Chepauk, 23rd January 1862, No. 9,705:—

SIR,

* No. 266, dated 11th January 1862.

† No. 164, dated 23rd December 1861.

1. In submitting the accompanying Proceedings* of the Board of Revenue, communicating a letter† from the Collector of South Arcot, bringing to notice the falling off in the Salt sales during the month of November 1861, owing to the "bad state of the approaches to the several Depôts," occasioned by the heavy fall of rain in that District, I have the honor to state, for the information of Government, that the District Engineer has been requested to forward an Estimate for repairing them, together with a sketch map showing the direction of the different lines. These documents will be submitted to Government on receipt.

2. I beg to add that Captain Foord has also been directed to commence, on emergency, any temporary repairs that he may consider absolutely necessary to the roads in question, and which I trust will meet with the approval of Government.

ORDER THEREON, 1st February 1862, No. 108.

1. The Government will await the receipt of the estimate referred to in paragraph 1.
2. The Deputy Chief Engineer's proceedings, as reported in paragraph 2, are approved; but that Officer should have mentioned whether the cost of the emergent repairs will be met from the ordinary repair allotment of the District. The Board of Revenue will ascertain from the Collector if the Deputy Collector in charge of the Pans had reported to him the bad state of the roads; and if so, what steps had been taken by him to have them repaired.
