*Proceedings of the Madras Government, Revenue Department,
28th February 1862.*

No. 563. Read the following Proceedings of the Madras Government in the Judicial Department, dated 25th February 1862, No. 319.

Passing orders on letter from Inspector General Madras Police,
on the subject of the resumption by Coimbatore Collector
of the Ináms of the village watchers of the District. } (Vide Judicial Proceedings, 25th February
1862, Nos. 214—218.)

No. 564. ORDER THEREON, 28th February 1862, No. 444.

Communicated to the Board of Revenue for information.

(Signed) C. G. MASTER,
Deputy Secretary to Government.

JUDICIAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from W. ROBINSON, Esq., Inspector General of Madras Police; to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated Chicacole, 7th February 1862, No. 329.

The Collector of Coimbatore was instructed by Order of Government, dated 30th May 1860, No. 672, Judicial Department, to resume the *Inams* of the village watchers of the District of Coimbatore, with a view to giving effect to the proposed reorganization of Village Police. This was done.

But in attempting to carry out the other step, it was found that while the intended measures for the improvement of the condition of the village watchers would involve a large outlay, the local Officers declared their inability to bring the fees to account as an offset until a law could be passed for the realization of the village cesses. I therefore hesitated to carry out the change as directed. I have not paid the village watchers their monthly salary. I consider that the measure must still be deferred, on the same account.

In the meantime the village watchers have neither the land nor the pay proposed. I beg with reference to the accompanying correspondence that the Collector may be authorized to restore the lands resumed with, if possible, the profit which have accrued from them since resumption, pending further consideration of the matter.

From W. ROBINSON, Esq., Inspector General of Madras Police; to E. B. THOMAS, Esq., Magistrate of Coimbatore, dated 31st December 1861, No. 2,167.

The Madras Government in their Order No. 672 of 30th May 1860, sanctioned the appointment of 1,947 Stipendiary Taliaries in Coimbatore, and directed the Inam lands set aside in 1844, for the remuneration of Village Police to be resumed.

2. This resumption was accordingly carried into effect by you, and a Stipendiary payment was at first made in lieu of the land. But financial and other difficulties arose and it became necessary to stop this payment, until provision could be made for a Village Police by the creation of Local Funds.

3. It will be long however ere a measure of this nature can be matured and carried out by Legislative enactments. The financial result of Inam enfranchisement must first be known and the new Village Police must then be included in the general revision of Village Establishments. Meanwhile the Taliaries of Coimbatore have been deprived of all means of subsistence, for on the resumption of the lands the ryots also withheld their fees. The Taliaries are naturally unwilling to work under these circumstances and the Constabulary in Coimbatore receive no aid from the Village Police.

4. I have the honor to request therefore that you will be so good as to inform me if you see any objection to re-assigning the resumed Inam lands to the former Taliari holders. If no difficulty exists the sanction of Government will be applied for.

(True Copy.)

(Signed) M. W. CARR, Captain,
Personal Assistant to the Inspector
General of Madras Police.

From E. B. THOMAS, Esq., Collector of Coimbatore; to W. ROBINSON, Esq., Inspector General of Madras Police, dated 22nd January 1862, No. 14.

With reference to the concluding paragraph of your letter of the 31st ultimo, No. 2,167, I have the honor to acquaint you that I see no objection to re-assigning the Inams to the Taliaries, as the lands are only under temporary attachment; and I request you will be good enough to obtain the sanction of Government for the same.

2. I take this opportunity of bringing to your consideration that the Inams allotted to the Taluaries in this District are very inadequate, and would therefore suggest the expediency of augmenting these emoluments.

(True Copy)

(Sigend) M. W. CARR, Captain,
Personal Assistant to the Inspector
General of Madras Police.

ORDER THEREON, 25th February 1862, No. 319.

The Government authorize the Collector of Coimbatore to restore at once the lands resumed under paragraph 15 of their Order of the 30th May 1860, No. 672.

2. Mr. Thomas is requested to report what has been the amount realised from them during their attachment, and how disposed of, viz., whether carried to account or held in deposit.

32 Putta Holdings

The three villages contain 991.2 ^{Acres} divided into 1044 takas. This represents the whole work performed for the field measurement.

Taking an average of 20 acres where feasible on account of small fields intervening of different tenures and cultivation these villages were divided into 101 blocks subdivided for measurement into 584 takas.

Map No. 1

Map No. 2.

By dividing the villages again into 20 acre blocks irrespective of small Inam and other fields that will require separate measurement by the Establishment under the Demarcation Authorities only 52 blocks are necessary subdivided again into 368 takas for measurement.

The proportionate labour required by the three methods may be stated roughly as 7.4.2 making a little allowance for the longer lines measured in the two latter methods.

The above refers solely to the Amin's field work. The saving thus effected would amount in the 2nd and 3rd methods respectively to Rs. 553 and 921 ^{Rs} per mensah for a party.

The Drangltemen's work would be

20 spare copies

affected in the like proportion, but the saving would not be so great as only the numbers of the lower ranks of draughtsmen could be reduced. It would perhaps be possible to lessen the expenditure by adopting the 3rd method Rs. 165 & Rs. 320 by the 3rd.

In computing the content of fields not very much saving can be made because the Amins themselves are employed in performing this duty to a great extent, the computers thus engaged are therefore few in number, Rs. 35 & Rs. 70 may therefore be set down as likely to be saved monthly under this head for the two methods respectively.

The total saving will therefore amount by the

2 nd Method	3 rd Method
Rs. 753 per Annum	Rs. 1311
Rs. 9036 per Annum	Rs. 15732

and may be called the eleventh and seventh of the expenditure on a party and about Rs. 9 and Rs. 16 per Sq. mile of fields to be measured.

In the event of the enlargement of Survey blocks however to 20 Acres it is desirable that they should be measured by the usual method of Chain survey and not by Khusrak.

To effect this it will be necessary to increase the

Additional Rs. the number of Surveyors and Measurers and to
 8 Surveyors 240 320
 1 do. 30
 1 do. 25
 40 Inca? Pers 25 200
 Rs. 575
 Pay of Amins 730
 Gormachahs 510
 9 Draughtsmen 165
 4 Computers 28
 1/2 Inca? Pers 25 200
 Rs. 1867. 6. 8 or Rs. 15589 per annum that may be devoted
 575...
 1292. 6. 8 to minor field measurement under the de-
 12
 509... = manation Establishment.

Mr. Puckle estimated the cost of minor field measurement at less than Rs. 2 per Sq. mile when the minimum for wet and dry fields was fixed at Ac. 2 & 4 respectively.

The sum set apart by the proposed alternative Rs. 15500 allows Rs. 15.5 per mile for 1000 Sq. miles of fields or Rs. 10 per mile for Sq. miles 1500 of Country surveyed. I imagine this would much more than suffice for the measurement of minor fields within blocks of 20 Acres.

SUPERINTENDENT REVENUE SURVEY

The remark that I should make
upon this survey is that the
offsets are too large - they are
somewhere around 300
feet or 3 chains - a great error
might be made in the measurement
by offset staff. *W*
