Not to be folded or roughly handled

(Original)

To His Excellency

THE RIGHT HONORABLE THE SECRETARY OF STATE FOR INDIA IN COUNCIL,

EAST INDIA HOUSE,

LONDON.

THE HUMBLE ADDRESS OF THE UNDERSIGNED POYACARRY AND SUGAVASI INHABITANTS, 4550, AND MORE OF THE ZILLAH OF MADRAS, AGAINST THE GRAMA MIRASSIDARS, MUTTADARS, SHROTRIEMDARS AND IZARADARS, OF THE SAID ZILLAH.

MOST RESPECTFULLY SHEWETH,

The Grama Merasedars.

That during Hyder's five years disturbance many of the village inhabitants perished and many fled from their villages leaving behind them their property consisting of lands &c. which were taken possession of by new comers, or subsequent settlers.

2. During the Mahomedan Government, Concoroyajee, the then Accountant, took forcible possession of many of the villages which were in the possession of the inhabitants and bestowed them on the Brahmins as Ooliya(*a*) Maneam and Maray.(*b*) Nevertheless the lands in the possession of each inhabitant were enjoyed by him and he bestowed Maray—to the gramatan and other village servants. In this manner as the cultivators, of each village were the lawful owners of the lands in their possession, consequently all the villages were Pasoongoor(*c*). It was only after the introduction of Puttah that the Brahmins took forcible possession of the greater number of villages. Others followed their example and by means of corruption came in possession of other villages. There are still some villages under Pasoongoor. At the period they took forcible possession, the villagers objected, but as the revenue and other accounts were kept in the Marattah language from the commencement of the British rule, the Marattah Brahmins were all combined together and filled all the revenue and other offices. Although the Marattah language is now abolished, still as all the higher posts as Serastadars &c., are filled by the said Brahmins, who are well acquainted with the secrets of Government, these with the combination of their subordinates, who also are Brahmins, have unjustly taken possession of several villages, which were cultivated by the poor villagers under Pasoongoor. In this manner the villages taken possession of by the Brahmins, especially in this Zillah, are many and extensive. By this means it will appear that the village lands in the possession of the villagers do not belong to the Merasedars who are the village servants; and that they are only entitled to Maray for their services will be seen by Barnetts' Tharapady Account of 1773 and other Accounts. The Brahmins alleging that it would be a great sin for them were they to perform such mean duties as ploughing &c., impose all the drudgery on us and by filling all the desirable Circar and village duties plunder the Government revenue. This is their only occupation.

(*a*) Service Manniem.
(*b*) Perquisites.

(c) Lands enjoyed in common; no Merassi right.

3. Under the British Rule, during the time of Mr. Collector Place, for fear of those parties who were in the habit of going to that gentleman and creating disturbances, many fled from their villages, and Izarah was given to the Merasedars for the said villages by which means they lost their all consisting of Oxen, Sheep &c., and Cowle was granted by the Collector to whomsoever he liked according to his pleasure for the villages relinquished by the inhabitants.

4. It is now about 30 years since Puttah was introduced; the gramatars falsely urging that they had total Meras Puttahs for the whole of the villages, and that they were entitled to Thoondoo(d) Teervah, Puttah Maneam, Moonsiff, village Maneam and every other power and authority in the village, through the influence of the subordinates others, and false accounts and documents executed and took forcible possession of from 1 to 10 and 15 villages each Merasedar of the villages which were in the posses- sion and engagement of the inhabitants. The subordinate officers also have, by false means, taken possession of many lands which they have made over in the names of their family connections. In this manner, by great injustice, they have taken possession of the lands of the inhabitants without any just claim or right.

5. About 30 years ago when the villages were Varaputtoo(e) under Amanee(f) there were no such distinctions as Gramatars and Poyacarries, and each cultivated as much lands as he chose and maintained himself without any trouble or inconvenience.

6. The whole of the village servants go by the general name of Merasedars, Maneam- dars and Maraydars; in like manner the head of the village servants also is called by those names. Such being the case, the present, so called, Merasedars, by mis-statements and false representations that they are the Merasedars; that the whole of the lands be- long to them and that Meras Puttahs are in their names, called the other inhabitants Poyacarries and Sugavasis, and saying that they should not only pay their perquisites, but also that they should be under their control, they have had the Puttahs entered in their names. They are no more entitled to the lands than the other village servants—as the Kur- num, Talliary, Toty, Notacaren,(g) Carpenter, Blacksmith, Calendar Brahmin, Barber, Dhoby, and others. In the same manner that Maray(h) is conferred on the other servants, Maray is conferred on the Merasedars also to attend after the village affairs. Excepting this it cannot be proved that because they attend to the village affairs they are the lawful owners of the whole of the lands. It was only subsequent to the introduction of Puttah that the titles of Poyacarries and Sugavasis were conferred; there were no such titles previous to that date; but previous to that the servants of the village were called Meras servants because they performed the duties of the village.

7. Since the introduction of Puttah, because all the village affairs are conducted by the Merasedars, on the plea that the whole of the Meras Puttahs are in their names, from fear of their power and influence, although we may be great sufferers, we are under the necessity of abiding to all their directions.

8. Although a village may contain 1,000, 2,000, or 3,000 Cawnies of land, and although the said lands may be entirely cultivated by us, the gramatars have the whole of the Motta* Puttahs entered in their names. When Puttah was first introduced in this Zillah, with a view to prevent the Merasedars from injuring the Poyacarry and Suga- vasi—Poyacarry and Sugavasi Puttahs were executed in the names of the Foyacarries and Sugavasis for such lands as were in their possession; but the Merasedars, with the assistance of the subordinate officers, persuaded the inhabitants to grant Rajenamahs for their lands, by frightening them that, if Sugavasi and Poyacarry Puttahs were to be issued in their names they would meet with opposition from the Authorities; and thus, had the Puttahs entered in their own names. Some of the Merasedars also forged Rajenamahs, and by producing them at the Kutchery deprived the inhabitants of their Sugavasi and Poyacarry Puttahs. Others, without the knowledge of the Sugavasis joined their Puttahs with those of the latter and got them entered as Cootoo Puttahs. Others again brought false charges and claims against the Sugavasis and deprived them of their Puttahs. The Merasedars set up persons to claim our Puttah lands on the plea that the same is mortgaged to them and thus deprive us of our lands. They sometimes withhold their Circar money and thus get our lands sequestrated and sold at auction when they themselves bid in; at other times they set up a person to sue them in the Civil Courts and thus deprive us of our lands with a pretence to satisfy the creditor. Subsequently, because the Merasedars carry on great imposition with regard to the lands, the Tarum(i) and the Teervah or tax, although the Collector sent Takeeds(j) or orders that the lands cultivated by the Sugavasis should be entered in their respective

(d) Excess on account of perquisites.

(e) Share given by Government to the cultivator.

(f) Sequestration.

(g) Shroff.

(h) Perquisites.

* Full.

---

names, still by the concurrence and influence of the subordinate officers and the village Kurnums or Accountants, their names were never entered; and should by chance their names be entered it will be taken out the following year. Since the publication of the Istiyar in 1859, that should any one cultivate any lands even for one year without Muchilka or agreement the Merasedars have no claim or right to the said lands, and that Government will not notice any complaints regarding the said lands, the Merasedars frighten your poor petitioners and extort Muchilkas(k) from them.

9. By Barnett's Tharapady Accounts and by the Pymash(l) and other accounts the houses, lands and gardens in the enjoyment of the villagers of each village were entered in the names of each individual. These entries are now being subverted by the connivance of the village accountant and entered in the names of the Merasedars. Should any of the villagers object, or should they wish to retain in their possession and enjoyment the said houses, lands and gardens, they must pay the duty or tax imposed on them by the Merasedar; if not they are called upon to vacate the premises and in failure the Toty(m) and Tallyary(n) are set up to prevent us from repairing the premises. Should all these fail, they forge documents as if executed by us, purporting that we agree to quit and vacate the premises, and when required, and by producing this document before the Court, get us turned out of the premises. In consequence of such uncertainty in the possession and enjoyment of our thatched dwelling premises, we are unable to keep them in proper repair and consequently are obliged to be exposed to all the inclemencies and inconveniences of the weather. In some villages, from the houses which have long been in the possession of the villagers, the premises are measured and an annual quit rent of annas 5 for every 12 feet by 12, is levied and collected. In some villages a tax under the name of Velakoo panam or light tax levied, and in other, an annual tax of 7 annas and one measure of paddy(o) is levied on each plough. By the mild and equitable Government of the English are the Poyacarry and Sugavasi inhabitants are *greatly increased* in number; and should we wish to erect ourselves dwelling houses and waste and barren lands, the Merasedars prevent us; per chance, should be we permitted to do so we cannot erect brick or tiled houses, but only thatched huts; even for these thatched huts a quit rent of from 8 annas to 2 Rs. is levied and collected.

10. With the exception of such Nunjah,(p) Punjah(q) and Thotakal or garden lands bestowed on the Gramatars as village maneaum, all the other lands are cleared of the jungles, levelled and cultivated by us the Poykaris and Sugavasis. These lands consist of from 500 to 1000 Cawnies in each village, and for the first cultivation we pay Thoondoo(r) at the rato of Rs. 7-6-5-4-3-2 and 1 per Cawny Nunjah and Rs. 4-3-2-1 and half per Cawny(s) Poonjah lands, and for the second of recultivation the same or half of it.

Whilst the Circar grant Cudiwarem at the rate of 60 or 54 Marcals per 120, Calavasum,(t) 10 Marcals and pooracalum(u) 2½ Marcals,—the Merasidars, when the price of the grain is high or when the lands yieid a fair crop, pay us only 48, 42, 36, 33, and 30 Marcals per each 120 Marcals Nunjah. Should the Punjah land yield a good crop it will average about 144 Marcals per Cawny, should the produce be ever so less in some villages Coodiwarem is allowed at the rate of only 36 Marcals per each 120 Marcals. Under no Government whatever not even under the Amanee(v) of the present Government, Melvarm(w) is taken—the duty is received only in money. Such being the case as the Merasedars forcibly take Melvarm even for Punjah Cultivation we are great sufferers and unable to obtain even a mouthful of rice. Should the Nunjah Cultivation partly fail saying that the crops are insufficient for the Circar duty, they seize upon the whole crop and if not satisfied, with this, they take the straw also. In this manner, by plundering us by heaping up grains and by selling it when it is dear the Merasedars have become very wealthy men.

11. If only a small quantity of water come to the tanks at the proper season the gramatars alone cultivate to the extent of 20 and 30 Cawnies and press the Poyacarries and their ploughs to do the work. It is only when there is good and abundant supply of water in the tanks, whether in season or out of season that we are allowed to cultivate.

(k) Agreement.

(l) Survey.

(m) Scavanger.

(n) Watchman.

(o) Rice in grain.

(p) Wet lands.

(q) Drylands.

(r) Excess tax.

(s) About 3½ acres.

(t) Remnants of grain.

(u) Gleanings.

(v) Attachment.

(w) Govt. share

(x) Watchman
(y) Scavanger.

12. Though we may cultivate, in season and out of season, Nunjah lands to the extent of from 500 to 1000 Cawnies in each village when the reaping time approaches should the water in the tanks fail, the Merasedars alone irrigate their cultivations and prevent us from so doing by placing around the tanks guards of Talliaries(x) and Toties,(y) and as we are unable to dig wells or tanks not having puttahs in our names the whole of our cultivations become savee or scorched. Should 2 or 3 persons from each house go and dig the channel and thus admit the water, such persons can irrigate their own fields also. In some villages the Merasedars appropriate to themselves the whole of the water in the tanks. Even for these Savee cultivations the Merasedars receive from us the full amount of the Circar tax and Thoondoo, but pointing out to the subordinate officers our savee lands get themselves released from the liability of the tax. Sometimes also, by bribing the Collector's officers, they join their cultivated lands with our Savee lands and get themselves exempted from the Assessment. This statement has now been proved by the proceedings of the *Tasildars, Kistnarow awd Boojungarow.* It is scarce even once in 5 years that the rains fall in season, and a good supply of water comes to the tanks to enable us to enjoy the fruits of our labor. The Merasedars being unable to cultivate the lands themselves, execute the Sugavasi Puttahs; should they find that those who have these Puttahs will not succumb to them, they will not allow the tanks to be repaired or allow them to dig river channels. They further inform them "you not cultivate the lands—the Circar do not demand any money for them."

(z) In their names respectively

13th. The Merasedars and the subordinate officers appropriate to themselves the greater part of the Maramut estimate money and only partly repair the tanks and now and then press us to do the temporary repairs; by which means the tanks become much injured and useless. If we were to have Naburgathe(z) (personal) Puttahs we would then, as is done in the Zillah of Munjacoopum, appoint some wealthy and respectable party in each village; then there would be no wastage of money; the maramut would be properly and thoroughly attended to, and the villagers take an interest in the welfare of their respective tanks. Because the maramut is now very much neglected great deal of cultivation becomes savee or scorched.

14th. As the gramatars take away our sheep and oxen and pen them in the lands they intend to cultivate, so that even when there is a sufficiency of water in the tanks our cultivations do not yield good crops for want of manure.

15th. As we have no puttahs in our respective names we do not know what classes the lands we cultivate belong to and what the proper assessment on them is; the consequence is that we are obliged to be satisfied with the statements of the gramatars; and their companious in equity—*the kurnums*; and as no receipt is granted us for the money we pay them according to their statements, should they deny or lessen the amount of payment with sorrow and grief.

(a) Garden
(b) Perquisites.
(c) Tax on second growth.

16. Both for Nunjah and Punjah lands if the duty be one rupee the Merasedars receive two if of 2 Rs. teervah Rs. 8. Whilst the tarum duty on Thotacal(a) is Rs. 3½ they receive from us from 21 to 42 Rs.;—further they receive as Soothundarum(b) one and two Marcals for every 12 marcals as well as the Madepoo Teerva(c) and Shamilat Bunger for Punjah which the Circar has abolished long ago. Should two men cultivate separately in the same No. the full amount of the duty of the said No. is separately received from each of them. In some villages they receive the duty of the land for which we have Sugavasi Puttahs in our names as well as the duty for the trees on the said lands and they themselves enjoy the produce of the said trees.

17. Because there are no Puttahs in our names for the lands, we have with great labour and expense brought fit for the plough from the commencement, and as we are afraid that the Gramatars will take possession of these lands whenever they please, because they gave less Coodivarum andthough the above Ziliah is well adapted for irrigation and although it is a flat level country, very large portions of lands are left waste and uncultivated. In villages which have Naburgathe Puttahs and in villoges which had Naburgathe Puttahs but which have been subsequently withdrawn, in each village there are from 13 to 120 Wells, the cost of each of which varies from 80 to 150 Rupees, these wells are worked by Picottahs, so that the villagers sustain no loss by Savee.* Should we wish to sink wells in our lands we are prevented from so doing.

* Dry.

(d) Application.

18. Although there is a great deal of waste lands in all the villages, up to 1858, no Durkhast(d) could be made without the consent of the Gramatars. Should by chance any one be bold enough to make a Durkhast by the combination of the subordinates and by false statements, the Collector is hindered from taking it into consideration; should the Collector take it into his consideration, the Gramatars come forward and say that they themselves will pay the Assessment of the said lands thus and throw out the Durkhast, but though they agree before the Collector to pay the Assessment for the said lands, they neither do so, nor cultivate the said lands but let them remain as they are barren and waste. The party, who has been so bold, as to make the Durkhast is not allowed any lands afterwards to cultivate but is driven out of the village and otherwise maltreated. For fear of this none of us dare make Durkhast by which much land remains waste.

(e) Notice.
(f) Agreement.

19. Relying onthe Istiar(e) of the Board of Revenue issued in 1859 that Cowle(f) will be granted without any objection to parties making Durkhast; many of us made Durkhast; but no notice was taken of these because it was stated that the Collector has ordered that when any Durkhast is made, the Gramatars should be consulted and if they should wish to retain the said lands in their possession, the same should be given to them, if not, Cowle should be given to the party who made the Durkhast. This is the plan now pursued. The Gramatars, of course, will not allow Cowle to be granted to the Durkhast party, the consent to retain the said lands in their possession and pay the Assessment according to the Durkhast. These lands they never cultivate themselves but put them on the shoulders of the Poyacarries and Sugavasis, who after bringing them fit for the plough cultivate them and pay Thoondoo &c., to the Gramatars. On account of this reason also we are kept back from applying by means of Durkhast; by this means also in each village there are lands remaining waste from 100 to 2000 Cawnies. In consequence of not being able to suffer the oppression of the Merasedars many villagers have forsaken their cultivated lands and wells and have gone to other villages, so that these lands also remain waste. In this manner also much lands remain uncultivated without any one making Durkhast for them.

(g) About 3¼ acres.

20. There are generally in each village about 100 or 200 Cawnies(g) of waste lands used as pasture lands which the gramatars appropriate entirely to themselves, and by placing the Toties and Talliaries as guards, prevent our oxen from grazing there. The consequence is, that for want of proper pasture, our oxen not only become much reduced but many of them perish also. At the ploughing season when there has been a fall of rain, we have to pay double price for the purchase of bullocks to plough our lands, it then being ploughing season and not being able to afford the purchase of bullocks, much lands remain uncultivated.

21. Should the gramatars' cattle enter our cultivation and do ever so much damage we can do nothing beyond driving them out, but should ours do so, our cattles are seized and detained till we pay the fine imposed on us.

22. The produce of the lands which are generally bestowed on us free of rent for kitchen gardens, are always at the mercy of the gramatars who seldom leave any thing for us. Further they collect a quit rent called "Light tax" for each of our houses.*

* This is a downright imposition.

23. The whole of the Tamarind, Eloopay, Gooseberry, Mangoe and Palmyrah trees, grass, the trees in the forest, the reeds which grow in the tanks used for making baskets, the fishes of the lakes and tanks &c. connected with each village are all enjoyed entirely by the gramatars. Should the jungles in each village cover a place of from 200 to 300 cawnies, the gramatars through the influence of the subordinates get the contract of them for one and two Rupees per annum and given in under-contract to us for 100, 200 and 300 Rs. per annum.

24. In each village there are 1000; 500; 300; 100; or 50 Tamarind trees which the gramatars take in contract at the rate of 4 Annas per tree. These trees produce from 2, 3, 4 and 5 Rupees worth of Tamarind each tree, which the gramatars enjoy.

25. The gramatars have taken possession of from 1 to 10 villages each and the gramatars of each village do not consist of more than one to two families, and to cultivate their maneam &c. lands, they do not possess more than from one to 5 ploughs in each village ;—whereas the Poyacarries(h) and Sugavasis(i) in each village consist of from 50 to 500 families and they have from 20 to 200 ploughs, and we, both male and female, from 5 years of age and upwards have to toil both day and night.

(h)(i) Those who do not belong to the village.

26. The Gramatars not only press us and our ploughs to plough their lands, but also press us, male and female, to transplant the plants, to weed, to water, to reap the harvest and tie them up in bundles, to place them in heaps, then carry them to the village, a distance of a mile or $\frac{1}{2}$ a mile, &c. We are further pressed by the Circar to do their business also.

27. By cutting down the Jungles, by levelling and by manuring, we have prepared the lands let to us by the Gramatars ; should they yield a good crop, on the following year they are taken away from our possession and bestowed on others at a higher rate or kept in their own possession and other waste lands bestowed on us. In this manner, ever since Puttah was introduced, by annually changing the lands, although we have with great labour brought the lands to perfection we are debarred from enjoying the fruits of our previous labour.

28. The Gramathan and the Kurnum, who is leagued with him, receive from us a certain stated portion of grain as perquisites for the Accountant, Toty, Taliary, Sheroff, Carpenter, Black Smith, Washerman, Barber, Astrologer, Potter, Panesavan,(j) Coodoomee,(k) Chitten, the Church establishments, &c. ; but the Gramathan and the Kurnum never pay these perquisites correctly to the said servants, the consequence is that we cannot engage the services of the said servants when we require them. Now it is five years since the Government has ordered that the perquisites hitherto given in kind to the Kurnum, Taliary, Toty, Sheroff, &c., should be paid in money at the rate of so much per rupee ; the Merasedars instead of acting according to the orders of Government, as usual receive the said perquisites in kind from us and pay the said servants in money. In some villages, the village servants not being properly paid their perquisites by the Merasedars many of the servants have left their villages and their maneam, maray, &c. which are now in the possession and enjoyment of the Merasedars themselves.

(j) Physician.
(k) Musician.

29. When marriage or other ceremonies take place either in the houses of the Gramatars or their friends, we are called upon to supply the necessary curds, (Tire) Butter-milk and vegetables and should we at the time possess none of these we must procure them elsewhere at our own expense, by exchange of corn, and carry and deliver them sometimes, even at a distance of 10 or 15 miles ; if it is to the houses of friends we must receive a receipt from them that such and such things have been received and then carry and deliver the receipt to the Gramatars.

30. Should we with great difficulty engage the services of a School Master to come and instruct our children with the view that if they at least were able to read they would be able to detect the above frauds and impositions, the Gramatars and Kurnums, lest should our children be able to read and write they would be able to find out their secrets, by threats and menaces drive away the School Masters ; in this manner we and our children remain in ignorance. In 1857 when Government sent Inspectors to the various villages with a view to establish Government Schools, the Gramatars thinking it would be dangerous to them were the children of Poyacarries and Sugavasis to be educated, prevented the establishment of Schools for our children by imposing on us that we would all be converted to Christianity.

31. As the Native officers and wealthy Natives at Madras, the Collectors' officers and fraudulent Gramatars in the country, thinking they can always enjoy great profit and honor and exercise great authority over us as stated above, have, in different ways, taking possession of the villages and shares ; the consequence is that all beneficial plans, and regulations of Government for the prosperity of the villages, for the increase of revenue and for the prosperity of the poor inhabitants are delayed and frustrated by the Collectors' officers who

by instructing the Gramathars in points of law prevail on them to petition Government to repeal their orders ; and the Gramathars by their threats and menaces hinder us from combining together and from bringing our grievances to the kind notice and consideration of Government. The whole of the above grievances will be apparent by a reference to the very records of the Circar. Besides, the Muttahdars, Shrotriemdars, Merasedars and native Subordinates, through their intrigues, manage to get removed from office such upright and honest men as Madura Virasawmy Pillay, Munsiff of Karunguly, who dispenses justices impartially, without receiving bribes ; therefore we are utterly unable to obtain justice.

32. In this manner being oppressed and menaced, we are afraid to bring to the notice of the authorities the manner in which the Gramatars defraud the revenue.

33. Among us, in some villages should there be two or four male members in a family, one or two of them must be sent to the Gramatar to do his menial business, for which, in return he will confer on us 1 or 2, Cawnies ; but should we not send him any one to do his menial business, even this one or two Cawnies will be taken away from us.

34. Should there be any village in a Muttah, Shrotriem(l) or Izara(m) belonging to the inhabitants, the Muttadars, Shrothriumdars and Izaradars call upon the inhabitants to bestow on them the Mirassi right ; should we refuse, we are hindered from cultivating our fields, from reaping the corn, and from thrashing it. Without giving Varum(n) they keep the corn in heaps for 6 or 7 months. Further during the time of cultivation, of irrigation and of reaping, they execute false documents, bring false complaints against us, and with the assistance of the Collector's officers, the village curnums ; and they lodge complaints against us before the Magistrates and in the Civil Courts and unjustly draw us away from our labor ; the consequence is that not being able to meet the expenses of law suits, they are enabled to take possession of the villages according to their pleasure.

(l) Free grant.
(m) Tender.
Muttahdars.
(n) Share.

35. At the commencement when the accounts of the Moottah(o) and Shrothrium villages were submitted to Government the village accountant, Shrothriumdars, and Moottahdars combined together and if the Moottah or Shrothrium village consisted of 800 Cawnies, it was falsely entered as consisting of 400 Cawnies. Further from 100 to 200 Cawnies of Taravari lands adjacent to their Moottah or Shrothrium villages have been unjustly taken possession of. In submitting the accounts of the Moottah and Shrothrium villages to the Inam Commissioner the Bareeze or tax is very much below the mark. Many of the villages and lands originally bestowed as Inam, for want of heirs or adoption are now we believe being entered in the names of parties who have no right whatever to them.

(o) Village on contract.

36. During the time of the Nabobs as well as under the British Government, it was difficult to maintain ourselves although we received Coodewarum at the rate of 54 and 60 marcals for each 120 marcals ; Calavasum 10 marcals, and Poorakalum $2\frac{1}{2}$ marcals and also plundered the corn in different ways. Such being the case how can we at present maintain ourselves, since the Mittadars, Shrotriumdars and Izaradars allow us Coodiwarum at the rate of 36, 42 and 48 marcals for every 120 marcals and that too without any Calavasum or Pooracalum. Although we, both male and female, and our oxen &c., have to toil very hard and also supply the seed at our own expense, still not being able to procure even half a belly full of rice, we are almost famished with hunger.

37. According to the Pymash account the Circar allow us Manacooly or dwelling premises from 10 to 25 Cullies, the Muttadar &c., grant only 5 cullies and appropriate the remainder to themselves and in some villages they do not grant even these 5 cullies. At present in the Tharavari villages after deducting the Manacooly, the Circar receive duty only for the remaining portion of garden lands, but the Muttadars &c., join the said Manacooly lands with the other garden lands and from the produce consisting of vegitables &c., give us Coodivarum(p) at the rate of $\frac{1}{3}$, and in some villages at the rate of $1\frac{1}{2}$, in other villages they levy a duty varying from 21 to 42 Rupees per Cawny on the said garden lands. They take the contract of the Ratans, Rushes and trees in the villages as well as the fishes in the Tanks as they please and impose them on us at exhorbitant rates. The Mittah and Shrotriam villages between Maracanum and Covalong, for a distance of 40 miles, are well adapted for the

(p) Ryots share.

cultivation of cocoanut trees. Consequently these trees are extensively cultivated there. It takes years for these trees to arrive at maturity; during these 7 years the cultivator can de- rive no benefit whatever; on the contrary he is put to great trouble, inconvenience and expense—expenses by sinking wells and by purchasing manure. Out of the produce for every 110 cocoanuts 10 is taken as Salavookoy,(q) 65 is taken for malevarum and for Coodevarum only the remainder 35 is given to us. Should we wish to part with the said trees and the wells, they prevent us from so doing. Should we request the Mootadars &c., to take pos- session of the trees and wells and give us an equivalent, they refuse to do even this; be- sides the lands left for Devastanums, for charities and for village servants are taken pos- session of and enjoyed by the Mittadars &c.

(q) Commission.

38. They press the villagers to repair the tanks and to do whatever other business they may require to be done. Should any one refuse or commit even the least fault, his house is sealed, he is fined, he is tied up and beaten and otherwise most cruelly abused and ill treated.

39. The Muttadars Shrothriumdars and Izaradars by their oppressing and ill using us, not only reduce us to extreme poverty but also cause us to become their debtors so that at the time of harvest, when grain is generally cheap, should the price be 36 Marcals per pagoda they add 12 more to it for interest and take 48 Marcals per pagoda in liquidation of our debt which they hoard up and sell when the price has risen. In the months of Auny and Audy when we are put to great distress, they sell us on credit the same corn at 24 or 30 Mar cals per pagoda which they had taken from us at the rate of 48 marcals per pagoda. At the time of sowing, as we do not possess seeds they dry the same corn which they took from us and sell it as seed at the rate of 18 marcals per pagoda. In this manner they keep us involved in perpetual debt, so that we have to part with all our Nunjah(r) produce and carry on a poor subsistance in Punjah(s) produce.

(r) Wet lands.
(s) Dry lands.

40. They compel us to have Puttahs made in our names and receive agreements from us that we are to pay duty so much per Cawny; but by chance should the lands yield a good crop instead of abiding according to the agreement that we are to pay duty so much per Cawny, they demand malevarum(t) and should we refuse, they prevent us from threshing the corns and not having any other means of livelihood we are obliged to suc- cumb to them and receive such varum as they are pleased to give; but when the crops fail, according to the agreeements, they compel us to pay money for the duty. In this manner by imposing on us for the Mutta villages for which they pay only 15-25-40-65-100, they collect 400-500-1000-2000 and 3000 Rs.

(t) Govt. share

41. Being unable to suffer the oppression and injustice of the Merasedars, Muttadars Shrotriemdars and Izaradars, should we wish to proceed to another village, the Gramatars of this village from the combination existing between them, will not permit us to settle there under the pretence that since we were not submissive to the one we cannot be so to the other. Even should we be so fortunate as to succeed in another village in conse- quence of having long been settled in the former village where we have erected houses and in the adjacent villages of which we have many relations from whom we find it hard to be separated, in consequence of the difficulty of building new houses and in consequence of the Gramatars not allowing us to remove the materials of our former houses on the plea that those materials belong to his village, we are unable to remove; besides in the humble hope that Government will sooner or later take our grievances into their kind consideration and see them rectified, we, with patience, remain in the same place, trusting on the Almighty.

42. The condition of Sugavasi Puttah inhabitants in the Zillah of Chingleput, who pay only Thundoo Coopathum(u) is inferior to the condition of the inhabitants of Munjacoopum who have personal Puttahs; the condition of these who pay Thundoo Coopathum, light tax, &c. is inferior to those who have Sugavasi Puttahs and the condition of those who give varum is far inferior.

(u) Excess on account of perquisites.

43. We the Poyacarries and Sugavasis in each village have remained in the said vil- lages from the commencement to the present time; we clear the lands of the jungles; we level the ground, make it fit for the plough and cultivate it. Not only the tax for the

lands we cultivate are collected from us but the Gramatars, Muttadars, Shrotriumdars, Izara- dars, Kurnums and Subordinate Officers who not only possess villages of their own but who are also open to curruption, combine together and oppress us in the manner above stated by which means we are not only suffering great distress for want of food and raiment but we are also kept under a state of bondage and as they are bold enough even to plunder the Circar revenue we are unable to bring our grievances and hardships to the notice of Government. Should any of us be bold enough to bring his complaints to the notice of the Tasildars, he being favorably inclined towards the above parties, takes no notice of the complaint, should the same be brought to the notice of the Collector, he, by the influence of the Serastadars, confirms the statement of the Tasildar. Should we bring these injustices of the Tasildar, Serastadar and the Collector to the notice of the Board of Revenue they endorse the petition directing us to go to the Collectors. As this useless un- dertaking vainly consumes at least 6 months or one year of our time we are obliged to remain quiet and patiently suffer our grievances. Such being the case now by the blessing of God that Government with the view of augmenting the Revenue, of removing our hardships and making us a little comfortable and of bringing all the waste lands under cultivation, has introduced some beneficial rules and regulations the Merasedars to subvert these, artfully raise objections stating that if Dhurcast were to be accepted and a large portion of lands brought under cultivation, the whole would become savee or scorched for want of water in the tanks. Should there be individual Puttahs granted to each cultiva- tor, he will be able to dig pools or wells in his Puttah lands and by these means when there is an insufficiency of water in the tanks he will be able to water or irrigate his cultivations. In other zillahs should the water in the tanks and wells be insufficient and there be extensive grounds they cultivate Nunjah in Pooloodecal(v); the same can be done in this Zillah with regard to these lands given on Dhurcast Cowle as is already done in several Taluqs; but then it will be well that the lands cultivated from the water of the tanks by Sadacuttee(w) and the lands in which Nunjah is cultivated in Pooloodecal, be equally divided among the inhabitants. Were the Government in the least now to countenance the Merasedar, &c., although the Merasedars, Muttadars, Shrotriumdars, Ezaradars and the Revenue and Judicial Officers combined together may not amount to more than one to 100 of Poya- carries and Sugavassidars, still they will not only further oppress us but they will also be the means of preventing the increase of revenue and the extensive cuitivations of lands. Further they will also defraud the Revenue and cause famine, plunder, rapine and murder—tharefore.

(v) Not muddy.
(w) Muddy.

44. In Fusly 1807, Mr. Collector Place appointed Nattwars to look after the culti- vation, Maramut(x): Pyemaish,(y) Tarrvarri instead of Cirkar officials; and he gave 1, 2, 3, villages to the said Nattwars as Shrotriem and reward. In the Nattwars attending to the Circar business, some among them did not perform their duties. In 11th January 1828, the Collector Mr. Smally issued a Takeed(z) that if they were indifferent in regard to their duties, their Shrotriem lands would be sequestrated and they would be dismissed. Agreeably thereto, the then Tahsildar issued his Takeed to the Nattwars. They obeyed the orders for a short time and then discontinued. The said Nattwars attended to the Circar business for a short time, and then thorough the favor of the Collector's subor- dinates, they neglected their business and gratuitously enjoy their Shrotriem village. In proof thereof, the mauniem enjoyed by Thumbu Malla Reddy, an inhabitant of Brahma- desam, Thennarkadoo Soobah, Thindivanam Taluq was sequestrated. The mauniem con- sisted of the Salt Pans in Marakanum at the rate of Rupees (1) one per garce.

(x) Repairs of works.
(y) Survey.
(z) Order.

In 1849, the Collector enquired into the subject and reported to the Board that the Nattwars are of no assistance to the Circar. The Board submitted their report, through Government, to the Supreme Council, and on their orders the above said mauniem of Rupees (1) one per garce and excess varum was attached, but through the intrigues of the subordinates they still continue to enjoy their Nattwar mauniem. Therefore, the aid of the Nattwars is not requisite to Government and it is solicited that as there is a loss to Government and the cultivators themselves experience great distress the mauniems of the Nattwars should be attached, as the assistance of the Nattwars is not required, and as their interference creates differences and difficulties their mauniems and Shrotriems should be attached. We humbly beg to submit that a Commissioner should be appointed to enquire into the Taravari system of the District throughout.

45. Millions of names could and would have been obtained from all the inhabitants of the Taluqs in the District, but from want of time and other causes their signatures are not adhibited.

46. In view to obtaining the opinions of the Collectors of the different Districts, we intend forwarding copies of this Memorial to them.

47. What we your humble petitioners respectfully pray for is, that your Government will be pleased with a view not only to bless us, but also to extricate us from the Monster fangs of the gramatars, Muttadars, Shrotriumdars and Izaradars, to remove the said gramatars &c. and appoint a commission of European Gentlemen well acquainted with the Tamil language and send them to each village and Taluq to enquire of the Poyacarries(a) and Sugavasis(b) in person, what the condition of each is, what quantity of land each cultivates and bestow individual puttahs on each for the lands under his cultivation as is done in the Zillah of Munjacoopum,(c) also who ever may give Dhurcast, Cowle should be given to them according to the Board's circular order of 25th June 1859, who will pay the assessment, lay out their money and dig tanks in their own Cowle lands and water their cultivation when the tanks may fail and those who may not have oxen to plough with will turn up the ground with mommities or spades as is done in the neighbourhood of Madras and thus cultivate their grounds. Not even the smallest particle of land will then be left uncultivated. As in this Zillah, water is easily procurable by digging wells and as it is a flat, level country, the revenue will be greatly increased, no fraud carried on in the circar kist and a very large portion of Her Majesty's Indian subjects viz. Puller, Parriahs &c. relieved from *Bondage;* and for which act of benevolence and charity your Petitioners as in duty bound.

(a)(b) Those who do not belong to the village.

(c) South Arcot.

SHALL EVER PRAY.

2nd September }
1861 }
