417	1858. 30th March.....	Directing the submission, after experience had, of a standard estimate of the Sádírwárid charges of the Settlement and Survey Departments.	Since disposed of.
166	1860. 31st January... ..	Directing the Deputy Director in Wainád to report fully on the claims of the Uralars of three Temples in Ellurnad and Kuppalad to certain forests when his operations have advanced sufficiently to do so.	Will be reported on shortly.
1,064	27th June... ..	Intimating that Government expect a report of the Officers in the Survey Department having passed the Vernacular examination at the times specified by them.	This paper will be omitted in future lists as the report is generally made direct to Government by the Superintendent.
2,429	17th December paragraph 11.	Expressing a wish to see some field books in the form in which they are to be transferred to the Collector at the close of the Settlement, and enquiring what the probable number of such books for each District, roughly computed, would be.	Will be forwarded as soon as they are ready.

2,015	21st October paragraph 8.	Stating that reductions should be made in the Wainád Establishments at the close of the season and the same reported.	Will be answered in a few days.
2,218	26th November ...	Enquiring why the progress of operations in Kurnool is so slow, and what object commensurate with the outlay is likely to be obtained by surveying and settling the Shevaroy Hills, and what the total cost is likely to be.	Since disposed of.
2,213	30th November ...	Instructing the Director to proceed to Tinnevely and to arrange with the Collector the plan of operations for the proposed Survey and Settlement, and to submit a report with estimated cost.	The reason for postponing the visit to Tinnevely is explained in Director's letter of 4th January 1862, No. 5.
2,390	31st December ...	Enquiring whether the Survey Establishment which must be kept up in Wainád for annually ascertaining the area to be taxed, could not be made available for surveying properties on the Hills during the period of the year when field operations are impracticable in Wainád.	Will be replied to shortly.
