*Proceedings of the Madras Government, Revenue Department,
4th April 1862.*

No. 84. Read the following letter from Lieutenant-Colonel J. CARPENDALE, Acting Deputy Chief Engineer, Central Circle, to Lieutenant-Colonel W. H. HORSLEY, Secretary to Government, Public Works Department, dated Chepauk, 26th March 1862, No. 11,932 :—

SIR,

No. 9,921, dated 28th January 1862.
1 Letter from the District Engineer, Presidency, No. 2,681, dated 20th March 1862
1 Abstract Estimate, Rupees 760.
1 Specification.

1. In the latter part of my letter as per margin, submitting a report from Mr. Kennedy on the East Coast Canal, and which is recorded in Order of Government, No. 216, dated 14th February 1862, I mentioned that an estimate for deepening the Channels round the Salt Kotars, to facilitate the approach of loaded boats, was included in a large Estimate amounting to Rupees 11,965 for the improvement of the Kotars generally, I now find I was in error in stating it was so included. It has been prepared separately, and is now submitted, its amount being Rupees 760. The work is urgently required, and the Estimate has been approved of by the Collector, I therefore beg the immediate sanction of Government to the expenditure that the work may be done this year, the funds will it is hoped be found available from what has been allotted to the District Engineer for expenditure this year.

2. The large estimate for the improvement of the Kotars generally has not yet been examined.

No. 85.

ORDER THEREON, 4th April 1862, No. 756.

Sanctioned.

(Signed) C. G. MASTER,
Deputy Secretary to Government.
