*Proceedings of the Madras Government, Revenue Department,
6th July 1863.*

No. 121. Read the following Proceedings of the Board of Revenue, dated 10th June 1863:—
Read the following letter from D. F. CARMICHAEL, Esq., Acting Collector Vizagapatam,
to W. HUDLESTON, Esq., Secretary to the Board of Revenue, Fort Saint George,
dated Vizagapatam, 9th May 1863, No. 276.

SIR,

1. In acknowledging Miscellaneous Circular No. XXI, dated 19th March 1863, I have the honor to state that I gave a list of the stations at which Rain Gauges are kept, in my letter of 13th idem, No. 84.

2. To give a return of the daily rain fall at thirteen stations from the years 1853 to 1862 inclusive, is a work of considerable magnitude. Mr. Pogson is probably not aware how our Revenue Establishments are nicely calculated with reference to the average current work of a District, and that it is quite out of reason to expect that they shall be equal to calls of this kind in addition. Nor have we the means of offering him anything but the wildest possible guesses at truth, in respect of the latitude, longitude, sea level, height of hills and mountain ranges, and the other particulars which he has asked.

3. I trust the Board will see that without extra hands, or extra pay for extra work, which Mr. Pogson has secured for his own office assistants, who are to be employed in the reductions, it will be impossible for Collectors to furnish these tables for the past. They can be furnished for the future, and from the 1st January of the current year, without any great strain, though with much additional trouble, to this Department.

Mr. Carmichael's letter will be submitted to Government, but meanwhile the Board trust he will endeavour to have the past returns supplied in the form desired. From no other District has any objection reached the Board.
