Proceedings of the Madras Government, Revenue Department, 8th October 1863.

No. 106. Read the following Proceedings of the Board of Revenue, dated 18th September 1863, No. 5,924:—

Read the following letter from J. W. B. DYKES, Esq, Collector of Nellore, to W. HUDLESTON, Esq., Secretary to the Board of Revenue, dated 18th August 1863, No. 262.

SIR,

1. In their Proceedings No. 4,126 of the 7th ultimo, the Board of Revenue direct me to obtain the opinion of the Committee on the suggestion contained in the 3rd paragraph of the Orders of Government of the 3rd idem, No. 1,181, as to whether it is expedient to give prizes for machines "simply introduced from England," or look to Government for the exhibition of such articles, and restrict prizes to machines invented by the exhibitors.

2. This morning I had the pleasure of carrying out the Board's instructions, and I do myself the honor to report for the information of Government that the Committee are of opinion, that it would be very desirable that Government should import and exhibit implements of an improved kind, but they would still retain prizes for such other implements as might be introduced by private enterprize and be considered deserving of encouragement.

3. The Committee would apply the same rule to implements as to cattle, as regards competing again for the same prize.

1. Ordered that the above letter be submitted to Government, with reference to the latter part of paragraph 3 of the Government Order quoted by the Collector.

2. The rule in respect of cattle, which the Collector proposes to apply to implements introduced by private enterprize and considered deserving of a prize, is that approved by Government in Order No. 548, dated 16th April 1860, viz., that the animal winning the first prize in the highest class of bulls, cows, or draught cattle shall not be allowed to compete at future shows.

No. 107. ORDER THEREON, 8th October 1863, No. 1,847.

The Government have recently applied to the Secretary of State for several sets of agricultural machines and implements. They will not, however, place any restrictions on the prizes which are proposed to be given at Nellore for similar articles exhibited by private individuals at the next Exhibition, but thereafter such prizes should be limited to machines invented or materially improved by the exhibitors.

(True Extract.)

(Signed) J. D. SIM,
Secretary to Government.

To the Board of Revenue.
